### Looking Pleasant.

Why is it that most people, as they walk along the streets or ride in the cars, have such an unpleasant expression? If one will observe even casually the people he meets in a day he will be impressed with the pained and sullen and disagreeable countenances. We live in a rush, and the average person is bent on some errand or business and is absorbed in that; we are all rushing to get something or somewhere. With this absorbing our attention we haven't time to attend to our facial expression. We are not sure, however, that this is a matter of permissible indifference. If one does not believe that his countenance adds to or detracts anything from the lives or expressions of others let him pause for a moment before that now celebrated "Billiken." It is almost impossible to look at the little imp and not smile. The Japanese teach their maids in the hotels, and those also in the higher walks of life, the art of smiling. They are compelled to practice before a mirror. One cannot stay long in Japan without being inoculated with the disposition to "look pleasant." The "look pleasant, please," of the photographer goes deeper than the photograph plate. No one wants to associate long with an animated vinegar cruet. A disposition is easily guessed from the angle of the corners of the mouth; a disposition is moulded by compelling those angles to turn up or down. If a merry heart maketh a glad countenance it is also true that a glad countenance maketh a merry heart—in the one who has it and in the one who beholds it. "Iron sharpeneth iron. So a man sharpeneth the countenance of his friend."—Baptist Commonwealth.

The Punxsutawney council is rushing through an ordinance compelling the muzzling of all dogs, with heavy penalties for disregarding the law.

Chief-of-Police Clayton Palmer of Punxsutawney, recently took the oath of office for the twentieth time. Palmer is a good man and the council shows wisdom in retaining him.

The baccalaureate sermon to the graduates of the Beechwoods high school will be delivered in the Beechwoods Presbyterian church Sunday, April 17th.

The excursion of the Reynoldsville business men through six industrial plants has been very favorably commented upon by the press in surrounding towns.

The Brookwayville Record is again under the management of George R. Adam, formerly of Reynoldsville, and the first issue under his control makes us wonder why he ever strayed away from the editorial sanctum.

Clearfield is booming an Old Home Week project for 1910.

The Punxsutawney public school library has been declared a free library for the use of the public.

Halley's comet is coming nearer every day. It can now be discerned with an ordinary field glass between 6.30 and 7.30 p. m., if the glass is elevated somewhere above where the sun sets. It is said by astronomers that the famous comet can be seen with the naked eye by next month.

You Can Have Insured Clothes THAT'S the kind we offer you in Clothcraft. With each Clothcraft garment goes an insurance policy in the form of a signed guarantee by the maker. And we stand back of it, too.

The guarantee means that your Clothcraft Suit must hold its style—that it is strictly pure wool—that the coat front won't break—that the collar and lapel won't sag or pucker. Think what this means to you. Yet Clothcraft Clothes cost no more than ordinary clothes which never could stand such backing.
