### Wilcox Gas Co. Struck Big Well.

Wilcox's outlook for a prosperity boom received a great impetus Saturday night when a new gas well came in on the lease of the Wilcox Gas company with a flow of between 500,000 and a million feet. The new well is by far the biggest producer in the district and the stockholders in the company, as well as the residents of the Wilcox district generally, are delighted.

Last night the new well was connected with the pipe line that supply the Wilcox Window Glass factory and ten other wells which have been supplying this factory will be discontinued as the flow from the new well is ample to meet the demand of the factory.—Ridgway Democrat.

### Food Must be Protected.

State Dairy and Food Commissioner James Foust says he intends to enforce the law relative to the exposure of food for sale. The Murphy pure food law makes it unlawful for any person to expose food for sale in such a manner as to render it liable to contamination, and this means that food must not be exposed to flies. Food products offered for sale must be covered. Mr. Foust says: "Our agents are authorized to make arrests on sight, where food is kept in an unsanitary condition. It behooves grocers and dealers generally, therefore, to make their preparations now to protect their goods from flies if they don't want to be prosecuted."

### A New Magazine Free.

A real magazine, not only in quality and character of matter, but in make-up and appearance, will be ready for distribution next Sunday. Its writers and artists are the very men whose work has made famous such periodicals as Scribner's, Collier's, McClure's, the Saturday Evening Post and publications of that class. It is to be issued monthly and to be absolutely free. It will be printed on high-grade paper and securely bound. In size and appearance it will resemble the Saturday Evening Post. The contributions—chiefly fiction—will be by the very ablest writers known—O. Henry, James Hopper, Montague Glass and other stars. Each number will have a handsome cover in colors, and the stories will be illustrated by the very best artists in the country. From the beginning it will occupy a place in the front rank of high-class periodicals. And still it is to be free to the public.

The first issue will appear Sunday, June 12, and on the second Sunday of the month thereafter. The distribution of the new magazine will be made by the Pittsburgh Dispatch, and great emphasis is placed on the fact that this magazine will be an addition to the present Sunday newspaper and magazine sections, with all their specialized news features and colored illustrations. Not only will it be an extra section, but its contents will be different and will consist chiefly of high-class fiction. It is free to all readers of The Sunday Dispatch. If you are not a regular reader now notify your news dealer to begin delivery next Sunday, June 12, and be sure to get the new monthly magazine free.

### Ends Winter's Troubles.

She had paddle wheels fifty-six feet in diameter and was also provided with a four bladed screw propeller of twenty-four feet diameter. ### Fair, but Stormy.

A gentleman boarded the Karori car at Keilburne avenue. Recognizing a friend on one of the seats, he nodded pleasantly and then said, "Well, what do you think of the weather?" "Oh, horrible!" was the reply. "And how is your wife today?" "She's just about the same, thank you!"—New Zealand Free Lance.

### State to Distribute School Money.

Preparations are being made at the Department of Public Instruction and the State Treasury to begin the payment of the state school appropriation in June. Under the law the state school money is paid to each district to reimburse it for its expenditures during the year closing the first Monday in June, and the warrants are issued as soon as each district files a report showing that it has complied with state laws and spent the money for educational purposes.

The total appropriation for school purposes for two years is \$15,000,000, and one-half of it is distributed yearly. The payments this year will be as follows:

Common schools, \$6,774,800; normal schools, \$300,000; township and borough high schools, \$225,000; salaries county superintendents, \$115,000; tuition non-resident pupils high schools, \$50,000, and Girls' Normal School and College of Pedagogy, Philadelphia, \$30,000.—Philadelphia Press.

### Look Out for this Fakir.

A sleek tongued fakir calling himself J. Rose, was here a few days ago getting up a menu card on which was displayed the advertisement of a number of business men. Recommended, as he declared, by a brother editor from a neighboring town, he came to us to do the printing. Like the merchants, etc., we were green enough to bite and did the printing, in addition to considerable work on a similar card for Clearfield. The fakir secured a proof to convince the advertisers that everything was satisfactory, but in doing so collected his money, but failed to return to pay his printing bill and get the cards. We are out about \$10.00 and the business men on an average of \$2.00 each. Printers and others are warned against this young fakir, who wore a light suit, was very talkative and used cigarettes quite freely. He deserves to be "run down" by the law.—Phillipsburg Journal.

## School Boards Are Being Re-Organized

Winslow Township Valuation Reduced and Millage Was Slightly Raised.

### NEW OFFICERS ELECTED

Monday the Winslow township school board met at Frank's Tavern and re-organized with Dr. Ira D. Bowser president, J. M. Hutchison secretary and J. M. McCreight treasurer.

The millage laid this year is 13 mills for schools and 2 mills for building, a total of 15 mills. This is 3 mills more than was laid last year on the total valuation, but the valuation has been reduced over \$100,000, and the 15 mills this year makes an increase of only 14 mills more than last year. The school board found that the tax levy last year was too low, and hence, they raised the millage a little.

The West Reynoldsville school board re-organized on Monday evening of this week. T. D. Brewer was elected president, O. H. Johnston secretary, and Wm. P. Woodring treasurer. The board did not elect teachers at this meeting.
