## THREE MILLION DOLLARS TO BE SPENT IN INDIANA

Coal Fields of a Neighboring County to be Developed.

Ex-Senator John S. Fisher, representing the New York Central railroad, has just made first payments on the Jacksonville coal field in Indiana county, consisting of 2,000 acres adjoining another block of 1,000 acres taken up several years ago. It is stated that the average price paid per acre was \$45. The New York Central has also secured options on more than 5,000 acres of coal land in Conemaugh township in Indiana county and proposes to open it up in the next few years. Many new coal mining towns will spring up all over that county as a result. It is estimated that the coal development in Indiana county during the next few years will involve an expenditure of about \$3,000,000.

### Blaydon Gets New Position.

The following clipping from a Shamokin paper will interest local people. Mr. Blaydon was formerly located here and has many friends who will be glad to know of his advancement.

James A. Blaydon, for the past eighteen months in charge of the Trevorton light plant, has tendered his resignation and just as soon as a man is obtained to take his place will assume a lucrative job under the Reading. It is the intention of this company to equip its eight collieries in this district with electricity for operating purposes and Mr. Blaydon is to be the district manager in the installation and future supervision of the electrical apparatus. As one of the eight collieries, is the North Franklin it will not be necessary for him to remove from Trevorton for some time at least. His ability in this line of work has long been recognized and in him the Reading Company will find a faithful employe.

### Work on the Pittsburgh & Shawmut Progressing

Work on the big railroad bridge of the Pitts. & Shawmut road at Mahoning has been indefinitely delayed by reason of low water, the contractor, J. H. Corbett, being unable to get his material in shape. Captain P. Hudson, it is said, has been waiting for an opportunity to get his boat up the river but the stage is now so low that there is no telling how long it may be before the boat will be taken up. The preliminary work of building the piers depends a great deal on the condition of the water and the ability of the contractor to work with and from a scumboat and unless there is a rise in the river shortly the work will either be delayed or made much more expensive.—New Bethlehem Leader.

## TROUBLES OF A YOUTHFUL BIG RUN SWAIN.

Hard Hearted Justice Refused To Marry on Credit.

It is told in Big Run that a young couple called on one of the justices of that place recently and wanted him to get them a license to marry. The squire, like Barkis, of course was quite "willin'," but when it appeared that he was to pay the expenses and wait for his money, indefinitely, he respectfully declined advancing the funds in this way, and advised the young folks to go elsewhere for their license, as he wasn't engaged in that kind of speculation at present. The young folks drove off disconsolately, but it was noticed the young lady was the braver of the two as she was patting the young man on the back presumably to encourage him to better luck elsewhere.

### Letter List.

List of unclaimed letters remaining in post office at Reynoldsville, Pa., for week ending July 16, 1910.

Peter Ban, R. Bowers, Robert Brinton, Mrs. Frances E. Campbell, O. C. Davis, S. C. Evans, Mrs. Christina Gray, Willie Horman, Leon Jenneret, Mrs. Minerva Kroh, David Mangnison, Rev. M. J. Renehan, Miss Kathleen Stuart.

Foreign—Edward Waworynski. Say advertised and give date of list when calling for above.

S. M. MCCREIGHT, P. M.

The Big Run Tribune states that it is probable that the two street car lines now stopping at either end of that village will be joined before snow flies. The improvement is badly needed. At present the person getting off one car must walk almost a mile before coming to the other terminal, and about the only consolation is that Big Run can show to the passers-through more costly and pretty homes than any other town of size in the county.

The threatened strike on the Pennsylvania Railroad has been averted. A compromise, the terms of which were not made public, was reached Monday night at Philadelphia.

# Good Prizes Offered For Gala Day.

Knights of Golden Eagle Day Will Be Just as Interesting To the Public as to Members of the Order—List of The Events and the Prizes Offered to Visiting Lodges.

It is the aim of the gentlemen on the committee planning the Knights of Golden Eagle reunion, to be held in Reynoldsville Tuesday, August 9th, to make the day fully as interesting to the general public as to the members of the order and they have arranged a series of races, with liberal cash prizes, which are open to all, whether members of the order or not. These contests are as follows:

Bicycle race, two miles, first prize, \$3.00; second, \$2.00.

Foot race, one hundred yards, first prize, \$3.00; second, \$2.00.

Foot race, to boys under 14 years, first prize, \$2.00; second, \$1.00.

Quilt handicap, first prize, \$3.00; second, \$2.00.

There will also be a tug of war between castles, with a first prize of \$3.00 and a second of \$2.00. In this all participating must be members of the castles contesting.

To stimulate interest in the day, the following cash prizes are offered to castles:

To castle making best appearance in line of parade, \$10.00.

To castle in parade coming longest distance, \$10.00.

To castle having best banner, \$5.00.

To the castle bringing best band, \$10.00.

To castle having largest percentage of members in line, \$10.00.

To the ladies' Temple making best appearance in line, \$10.00.

A ball game will be one of the afternoon attractions, after the parade, and a dance will be given during afternoon and evening.

A very large attendance is expected from Clearfield county, a special train having been arranged for from Houtdale. Nothing but a heavy rain can prevent the knights from having one of the most successful reunions in their history. An additional reason for the interest manifested is the fact that owing to the severe depression last year, the order did not hold a reunion, and they are going to have the fun of two in this one on August 9th at Reynoldsville.

### Damage To Potato Foliage.

"Will you write me what is the matter with the inclosed potato leaves, and send me cure for the same?"

Thus wrote a lumberman of Marietta, Pa., to Prof. H. A. Surface, State Zoologist, in sending some specimens of damaged foliage of potato vines to him for information. The following reply was sent:

"The potato leaves which you sent to us show the chief injury to be the Flea beetles, and next, what is apparently the Early Blight. The preventive would have been to have sprayed with Bordeaux mixture and arsenate of lead. Even yet it is not too late to prevent further damage from these causes. Use three pounds of bluestone and four pounds of lime in fifty gallons of water, and to this add from two to three pounds of arsenate of lead or one half pound of Paris green. Spray thoroughly, and whenever it is washed off by hard rain, or once every two or three weeks. If the arsenate of lead is used. It need not be repeated as often as in using Paris green. This will also poison the potato leaves, so that the potato beetles will not attack them."

### Saved at Death's Door.

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, N. Y., when his life was wonderfully saved. "I was in a dreadful condition," he writes, "my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing 40 pounds growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that patchless medicine—Electric Bitters—cured me. I regained the 40 pounds lost and now am well and strong." For all stomach, liver and kidney troubles they're supreme. 50c at Stoke & Feicht Drug Co.

## THREATEN TO RAISE INSURANCE RATES IN TOWN

On Account of the Conditions In Rear of Business Blocks.

An insurance inspector for one of the largest companies represented by an agent in Reynoldsville, visited this place last week and after examining the rear of many business places on Main street gave his local representative warning that unless there was a radical improvement in conditions there would be an increase in insurance rates to property holders and business men in the center of town. The objectionable conditions arise from the numerous old wooden barns, sheds and ware rooms, veritable fire traps, that cluster so thickly along Cole and Swamp Alleys, often almost adjoining the main buildings on the front of the lot. According to the visiting inspector Reynoldsville is worse in this respect than any other town of its size in the county.
