IF YOU have no money saved now and are not planning to begin saving, at once you are unconsciously planning that somebody else use his savings to help take care of you in the future.

The only way to enjoy independence is to save a part of your income.

Saving money is a duty in the start but it becomes a pleasure in the end.

We pay 4 per cent on savings deposits.

When Dispatch is VITAL

The convenience of one telephone message has often paid for an entire year's telephone service.

The Bell Telephone System affords a wonderful efficiency in matters where dispatch is vital. The same prompt service is certain whether the message is important or not; whether it is sent morning, noon or night; or whether it travels one mile or one thousand.

In the time it saves—in the expense it saves—the labor it saves—and in the dispatch it insures at all times—the Bell System is recognized everywhere as furnishing the one truly adequate service.

For rates and other information regarding service, call the District Manager.
