# \$1 A WEEK Buys The FREE

This is the machine invented by Wm. C. Free of Chicago—the machine which you have read so much about in the magazines—the machine which has a score of altogether new improvements—and the machine which is sold at a price so much lower than you are accustomed to pay for the highest grade sewing machine, that if we told you what the price was, it would prejudice you against the machine. We insist on showing you the machine and its points of superiority before telling you what a bargain it really is.

And to give you a better chance still of finding out for yourself how perfect it is, and to show you our absolute confidence in 'The FREE,' we want you to give it

## 30 Days Trial Home

Try this machine—test it—sew with it on all kinds of material—if you then are not entirely satisfied—if you are not convinced that it is the best machine you have ever sewed on—the most improved—the most up-to-date—if the low price does not convince you that this is the biggest bargain you have ever bought, return the machine to us and we will refund your deposit so that the trial will cost you a cent.

You haven't any idea how it will surprise you and how delighted you will be to keep it after you have sewed on it for 30 days. We know that you would never think of parting with it. Like all other sewing machines you will be in a flutter of excitement and enthusiasm about the many new inventions on 'The FREE.' Our only reason for giving you this fair trial offer, is because we want you to have it 30 days.

—to see the real beauty of its French leg design and dustless japaanizing. —to let your feet find out that its 8 sets of ball bearings have made 'The FREE' the lightest running sewing machine in the world.

—to notice that the "Rosocillo" movement, which took Mr. Free 5 years to invent, makes 'The FREE' faster than the fastest rotary and simpler than the simplest shuttle machine. —to learn the value of a Rotary Spool Pin, a Shuttle Ejector, an Improved Head Latch, a Square Feed, an Automatic Thread Controller, Automatic Locking Drawers, and scores of other improvements.

**Come Tomorrow and See The FREE**  
and take it home with you for a month's trial
