Five Business Men Have Narrow Escape From Death

Near Collision Between Trolley Car and Automobile at Highland Park.

AUTO BRAKE FAILED TO WORK

John O'Hare, H. Alex Stoke, J. Owen Edelblute, J. D. Williams and the Editor of The Star Were in the Party.

Five business men of Reynoldsville had a hair raising escape from sudden death Friday afternoon in a near collision between a trolley car and an automobile. A party, consisting of H. Alex Stoke, John O'Hare, Mayor J. D. Williams, J. Owen Edelblute and Charles S. Lord were on their way to Punxsutawney in Mr. O'Hare's Rambler auto with the latter at the driving wheel, and when approaching Highland park at high speed a trolley car suddenly rounded the curve less than twenty feet from the auto. Both cars were going at too great a speed to stop and a crash at the crossing with inevitable mangling of the occupants of the auto seemed inevitable. O'Hare threw on the brake, which failed to work, and when barely five seconds time remained before the meeting of the cars, he suddenly veered the machine at right angles, while going full speed, and left the road, nosing his perilous way between the stumps and logs until the machine could be checked. But for his rare presence of mind and skillful handling of the steering wheel there would have been five beautiful funeral processions in town this week.

WHY THE SENATOR WAS ASTONISHED

The jolly "Senator" who, at present, is engaged in the green-goods business at Reynoldsville, met with what might have been a serious accident the other day, by falling backwards and almost dislocating one of his cervical vertebrae. The accident was caused by one of his customers asking him whether a barrel of apples he had in stock was home made or shipped fruit. L. D. Rearick, a night owl, vouches for the veracity of the above and declares the "Senator" was unconscious for the space of three and a quarter minutes.—New Bethlehem Leader. The "Senator" referred to is W. T. Cox, of Reynoldsville.

ABUNDANT CHESTNUT CROP IN JEFFERSON COUNTY

Trees Apparently are Not Affected by the Fungus Disease Reported Prevalent Elsewhere.

The chestnut crop in Pinecreek, Washington and Rose townships is unusually good and there is no indication of the trees suffering from the disease which is destroying so many trees in the eastern part of the state. In an effort to prevent the spread of the disease, however, the State Forestry department has issued a warning to owners of chestnut trees in the state. Among other symptoms they state that when a tree is attacked and becomes infected the fungus rapidly spreads in the bark and growing wood of twigs and branches. It progresses so fast that these parts in larger or smaller patches are soon disorganized, killed and somewhat shrunken. The leaves which depend upon these parts for their water and food supply wither and shrivel, but do not fall. These twigs or branches with their attached dead leaves are very plainly seen in contrast with the natural ones and mark the presence of this particular disease. Of course, branches may die from other causes, particularly attacks of boring insects, and mechanical breakage, but the difference is not difficult to detect. Affected limbs should be cut off well below the dead wood and burned. Any trees, the trunks of which are diseased should be cut down and the bark and branches burned. The wood could be used for any purpose desired; it will not spread the disease.

REUNION OF THE 105TH REGIMENT A SUCCESS

Held in the Shadow of the Great Monument Which Had Been Dedicated the Day Before.

The annual reunion of the 105th Pa. Vol. Regiment at Gettysburg last Wednesday was not largely attended, but was unique in that many old comrades met for the first time since the battle was fought. Members of this regiment have scattered all over the state, and only those who resided in this section of Pennsylvania have been attending the local reunions. But the dedication of the Gettysburg monument drew to a common center scores of the survivors and proved the wisdom of changing the place from Big Run, where it was originally planned to have it, to the battlefield. Next year, in October, the event will be held in Big Run.

30 Days Trial In your Home

We know all about other sewing machines, from treadle to spool pin; we know them all, the cheapest and the highest price. We have investigated them all—Everyone of them has been found lacking some real essential; every one of them has had some glaring faults—but in

The FREE

which you hear and read so much about, we offer a machine that is *perfect, absolutely perfect*, a machine in which not the smallest detail can be improved.

And in order to get you to realize this superiority as we do, we have decided three things:

First, that we cannot afford to advertise its low price—you would never imagine that you could get so perfect a machine for so little money. To appreciate its price, you must come to the store and see the machine first.

Second, we will offer you the chance to test The FREE, from treadle to spool pin, in your own home. The best way for you to become enthusiastic over its one point of superiority after another is to actually sew on The FREE for 30 days. We want you to keep it in your home—to sew on it as if it were your own—to test it in any way you choose—to compare it with any other sewing machine you know of and then make your decision. Unless you are fully satisfied—more than satisfied—send it back to us—it will not cost you a cent, we will refund all you have paid on it.

But there will be at least 32 reasons why you will want to keep The FREE when the 30 days are over.

- There is the rare beauty of its Frenching design and the jappaned finish which never shows dust.
- There are the 8 sets of Ball-Bearings which make it the lightest running sewing machine in the world.
- There is the "Rotocollie" movement—Mr. Free's own invention which makes The FREE faster than the fastest Rotary and simpler than the simplest shuttle.
- We want you to experience all of these things yourself and our third decision is to make it extremely easy for you to keep The FREE by offering it to you at your own terms as low as

—There is the Shuttle Ejector, the Automatic Locking Drawers, the Rotary Spool Pin, the Improved Head Latch, the Automatic Tension Release, the Automatic Lift, the Reinforced Shuttle which never wears out, the belt which never comes off, the remarkable 5 year Insurance Policy against all kinds of accidents—and everything else you could ever imagine to make a sewing machine absolutely perfect.

ABSENT TWENTY-ONE YEARS; RE-VISITS REYNOLDSVILLE

J. E. Kernott and Wife and Mrs. L. J. McEntire Now Enjoying An Automobile Trip.

Mr. and Mrs. J. E. Kernott, of Chicago, have been visiting Mr. Kernott's sister, Mrs. L. J. McEntire, on Jackson street, for the past week. Ed. was an old time Reynoldsville boy, who was employed in the Bell, Lewis & Yates Coal Mining Co.'s store, leaving here for Chicago twenty-one years ago. He can see a wonderful improvement in the town and says he thinks Reynoldsville has got to be a very pretty place. Mr. Kernott has been very successful and has accumulated quite a bunch of this world's goods. Monday morning they left for Clintonville, Pa., Mr. Kernott's old home, where he will visit his father, who is now 86 years old. Mrs. McEntire accompanied them. The party went overland in George T. Woodford's automobile, with Woodford at the wheel.
