Better and more economical
than liquid antiseptics
FOR ALL TOILET USES.

**PAXTINE
TOILET ANTISEPTIC**

Gives one a sweet breath; clean, white,
germ-free teeth—antiseptically clean
mouth and throat—purifies the breath
after smoking—dispels all disagreeable
perspiration and body odors—much ap-
preciated by dainty women. A quick
remedy for sore eyes and catarrh.

A little Paxtine powder dis-
solved in a glass of hot water
makes a delightful antiseptic so-
lution, possessing extraordinary
cleansing, germicidal and heal-
ing power, and absolutely harm-
less. Try a Sample, 50c. a
large box at druggists or by mail.

THOMPSON'S EYE WATER

PISO'S
IS THE NAME
OF THE BEST
FOR COUGHS & COLDS

TO SAVE TIME.

USEFUL IN HEATING WATER
In Hog-Killing Time Device Shown in
Illustration is of Greatest Value
on Farm.

A crane is very useful in heating water
during hog-killing time, or when-
ever a kettle is to be suspended over
a fire. Set a heavy post firmly into
the ground, tamping in a shovelful
of coarse gravel or stone and attach a
bar of iron at the proper distance

Crane for An Open Fire.

**Post
Toasties**

A bowl of these crisp
fluffy bits served with
cream or milk is some-
thing not soon forgotten.

What's the use of cook-
ing breakfast or lunch
when Post Toasties, ready
to serve direct from the
package, are so delicious?

Battle Creek, Mich.

SCIENCE IN GROWING CORN

Requires Great Deal of Labor, but
Farmer is Repaid by the In-
creased Crop.

(By CHAR. K. PETERSEN.)
The testing of seed corn is very im-
portant this spring. Not in many
years has the question so closely ap-
pealed to the farmer as it does now.

Much of the seed corn saved in the
corn belt states for this season's plant-
ing is showing low germination and
better cultivation than ever will be
necessary to produce a big crop.

A good seed bed is the foundation
of the crop, or rather the first stone
upon the real foundation, the seed.
Presuming that the corn ground is in
proper rotation and sufficiently man-
ured, it should be worked up as mel-
low as a garden bed. If stalks are on
the ground they should be disked both
ways, the rollers being ground sharp,
then follow with a spading disk, and
work the soil thoroughly four or five
inches deep.

It is hardly possible to spend too
much time in preparing the ground.
It should be disked three times each
way, making six workings before plant-
ing.

When stalks are plowed under a
good plan is to harrow first then plow,
then harrow again and plant.

The harrow should follow the plow
closely and all plowed ground should
be finished every noon and night.

Another good preparation is to disk
the ground four times, using a spader
the first time and an ordinary disk a
week later. Then harrow the land
after each double disking and plant
close after the harrow. Rowe the Il-
linois man says that after several
years' experience he prefers disking
to plowing. Of course soil ground
must be plowed.

It is also important to use the right
kind of a corn planter—use an edge-
drop planter or one that will drop the
exact number of kernels for which it
is set 95 times out of 100. It should
even do better than that, if the seed
has been carefully sorted according
to size to fit the holes in the different
plates. This is the only way to get
an even stand of corn. An even stand
from good seed is the only way to
grow a profitable crop.

Test the planter well before taking
it to the field. Do not spoil a lot of
ground and waste a lot of seed trying
to find out whether your planter is
reliable or not.

BEEHIVE MADE OF CONCRETE

Anyone With Little Ingenuity Can
Make Them—Set of Molds Will
Last Indefinitely.

Among the occupations which offer
profit and amusement, and at the
same time entirely suited to women,
is that of bee raising. Its advantages
are that little space is required, there
is no great expense and the work is
light, requiring only a limited amount
of time and care. Much of the ap-
paratus required may be made at
home and where the facilities for this

Concrete Beehive.

are not present, the things may be
purchased without any great outlay of
money.

There have been many improve-
ments lately in the manner of con-
structing the beehives and probably
the most interesting is one which is
made of concrete. A patent has been
recently issued covering the manufac-
ture of concrete beehives, but any-
one with a little ingenuity may easily
make them, and a set of molds once
having been made satisfactorily, may
be used indefinitely and any number
of hives made from it. Anyone at-
tempting to make a hive of this ma-
terial should acquaint themselves
with the character of the cement and
should also be familiar with the habits
of bees.

HANGING-SHELF FOR CELLAR

Curtain Hung Around Fruit Jars Ex-
cludes Dust and Keeps Out Flies
to Great Extent.

(By J. WESLEY GRIFFIN.)
We used to wrap all of our glass
fruit jars with paper to exclude the
light. Now we have a curtain hung

Hanging-Shelf.

around the shelf as shown by the
dotted lines in the drawing. It is
tacked along each side joist. It is
edge in between the joists amounts to
nothing and the arrangement makes
a good ventilation for the closet. Try
a curtain around the cellar shelf and
see how well the fruit keeps. It also
keeps out dust and flies to a great
extent.

The Gipsy Brown Tail.

Every farmer should take pains to
learn to recognize at sight the various
stages of the gipsy brown tail and
many other of our insect pests, and
they should be instructed by the state
how to manage the war against them.
If farmer A— keeps his orchard and
trees free from brown tails and neigh-
bor B— just over the fence leaves a
lot of these pests on some of his trees
that are out of the jurisdiction of the
town or state, how can farmer A—
expect to get ahead in his fight
against the pest?

**FARM
NOTES**

The well filled silo forestalls dry
pasture worry.

One and one-half bushels of wheat
are ample to sow an acre.

The successful farmer finds weed-
ing to do in the flocks as well as the
fields.

You can find many chunks of wood
about the farm. Save them all for
the stove.

Every weed that is killed before
going to seed makes next year's field
the cleaner.

Manure that is spread upon the
field will not waste its fertility. This
is not the case with the piles in the
barnyard.

Bees use water to dilute the heavy,
thick honey left over from winter to
make it suitable for the young larvae,
and also to make the cell wax pliable.

Onions, squashes, pumpkins and
sweet potatoes should be stored in a
dry frost-proof place; most cellars are
too damp, and a room or attic is
usually a better place.

Keep some kind of a crop growing
in the garden the entire season. If
nothing else is done, sow wheat or rye
on the vacant places to keep weeds
from springing up and maturing seed.
Weeds ripen in a very short time if
they are allowed to grow.

WHY NEW ORLEANS

CITY IS LOGICAL POINT FOR
WORLD'S PANAMA EXPOSITION.

Its Geographical Position and Many
Other Considerations Mark It as
Most Suitable Spot for Dedi-
cation of Great Work.

Public sentiment has decided that
the completion of the Panama Canal
in 1915 shall be celebrated with a
great International Exposition in
which all the nations of the world
may participate; and the question of
where this Exposition is to be held
will be settled by Congress at its ap-
proaching session.

New Orleans and San Francisco
are contesting for the honor of hold-
ing this Exposition, and both cities
have guaranteed immense sums of
money as an evidence of their ability
to finance so great an enterprise.

An Exposition worthy of the term
"World's Fair," such as New Orleans
proposes to build, will be a great edu-
cational movement. Its success as
such, however, will depend entirely
upon the percentage of our popula-
tion who can secure its educational
advantages, this in turn, depends up-
on its location, as the time in travel-
ing to and from the Exposition, and
the cost in railroad and Pullman
fares, are the most important factors.

Considering these matters, New
Orleans' claims to being the "Logi-
cal Point" for this Panama Expon-
sition, seem to be fully substantiated
by the following facts:—

New Orleans is 500 miles from the
center of population in the United
States. San Francisco is 2,500 miles
distant therefrom.

Within a radius of 500 miles from
New Orleans there are 17,500,000
people. Within the same radius from
San Francisco there are only 2,000,000.

Within a radius of 1,000 miles from
New Orleans, there are 65,000,000.
Within the same radius from San
Francisco there are only 6,000,000.

At an average of 900 miles from
New Orleans, there are 70 of our
principal cities with a combined
population of 20,000,000. Averaging
900 miles from San Francisco there
are only 8 large cities, with a com-
bined population of just 1,000,000.

The average distance of all these
cities to New Orleans is 792 miles,—
to San Francisco 2,407 miles.

Over 75 per cent. of the people of
the United States could go to an
Exposition there at an average ex-
pense for railroad fare of \$12.50, as
against an average of \$37.50 to the
Pacific Coast; and for several mil-
lions of our people, the Pullman
fare and Dining Car expenses alone,
for a trip to San Francisco, would
amount to more than all their trans-
portation expenses for a trip to New
Orleans.

This is an important public ques-
tion to be settled by Congress at the
session which convenes in December.

Many of our readers will wish to
visit this World's Panama Expon-
sition, and if held in New Orleans a
great many more could spare the
time and money for the trip than
could go to San Francisco. There-
fore, we urge our readers to write to
the two senators from this State and
the congressman from this district,
requesting them to support New Or-
leans in the contest.

The Retort Courteous.
"Now," said the suffragette orator,
sweeping the audience with her eagle
eye, "I see Mr. Dobbs sitting down
there in the third row—a man who
has condescended to come here to-
night and listen to our arguments. He
has heard what I have had to say, and
I think we should like to hear from
him, and get a man's view of our
cause. Mr. Dobbs, tell us what you
think of the suffragettes."

"Oh, I c-c-couldn't m-m-ma'am,"
stammered Dobbs. "I r-r-really c-
couldn't. Th-there are H-h-l-l-ladies
p-p-p-present."—Harper's Weekly.

Experience Teaches.
"Sure, and OI t'ink it pays to be
honest, after all," said Pat. "OI
trooled that phoneyweight business in
my grocery store last year, and OI
losted money by it."

"How so? Did you get found out?"
asked his friend.

"No, sorr," returned Pat. "OI made
the mistake of fillin' me weights wid
lead, so that every mon that came to
me for wan pound of sugar got twinty-
three ounces to the pound."—Harper's
Weekly.

Editorial Favor.
"A month ago you rejected a story
of mine."

"I had offered it for \$7, and you
turned it down."

"So I did."

"Well, I sold that story for \$40.
Here's another story. May I ask the
favor of one more rejection? It seems
to help."

Murine Eye Remedy Co., Chicago.

It is a shame for people who have
in their lives a consciousness of love
and character and courage, to fall in-
to the wasteful folly of unhappiness
about the unimportant.—Margaret De-
land.

Mrs. Winslow's Soothing Syrup for Children
teething, softens the gums, reduces inflamma-
tion, allays pain, cures wind colic, 25c a bottle.

But the pure food laws do not make
any provision for love that is adul-
terated with filthy lucre.

MEAN INSINUATION.

Miss Lively—Isn't it strange that
baseball players are seldom sun-
stroke?

Mr. Fussy—Not necessarily. Sun-
stroke is an affection of the brain.

Trouble in the Troupe.
"They've had a frightful time in the
No. 5 Tom Company. Hear about it?"

"Nope."

"Busted an' walkin' back. That's
right. Went to smash on the Vin-
centes circuit. Utility teller they
picked up at Sawville got mad 'cause
he was doubled as Marks an' a blood-
hound, an' sawed the legs off the lad-
der, an' Eva fell out o' heaven an'
landed on Papa St. Clair, an' Simon
Legree landed on Unc' Tom, an' the
real dog bit a hole in Aunt Ophelia,
an' there was merry hades to pay un-
til the local manager called the patrol
wagon and had the whole bunch
dragged up the pike and dumped in
the woods. An' the worst of it was
there was a record house, with nine-
teen good dollars in the box!"

If in search of a close friend select
one with a close mouth.

Telephonic Reply.
The elderly stranger, by invitation
of the superintendent, was addressing
the Sunday school.

"How many can tell me," he asked,
"which is the longest chapter in the
Bible?"

Many hands went up.

"This little boy may answer," he
said, pointing his finger at an urchin
in one of the seats near the front.
"Which is the longest chapter in the
Bible?"

"Psalm double one nine!" shouted
Tommy Tucker.

DISTEMPER
In all its forms among all ages of horses,
as well as dogs, cured and others in same
able prevented from having the disease
with SPOHN'S DISTEMPER CURE.
Every bottle guaranteed. Over 200,000
bottles sold last year. \$5.00 and \$1.00. Any
good druggist, or send to manufacturers,
agents wanted. Spohn Medical Co., Spec.
Contagious Diseases, Goshen, Ind.

Uncalled For.
"I hear the old bridge outside of
Plunkville has collapsed."

"Yes; and the town council can't un-
derstand it. We had just given that
bridge a coat of paint. Why, it looked
like new."—Louisville Courier-Journal.

DR. MARTEL'S FEMALE PILLS.
Seventeen Years the Standard.
Prescribed and recommended for
Women's Ailments. A scientifically pre-
pared remedy of proven worth. The
result from their use is quick and per-
manent. For sale at all Drug Stores.

The average married man kicks be-
cause his wife worries because he
doesn't get home right on time, but
suppose she didn't care whether he
ever came or not?

Indefinite.
"I am positive this actress buys her
puffs."

"Which ones—newspaper or hair-
dresser's?"

The false prophet has both eyes on
the profits.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a
perfect oil heater is of value? If you want to sleep with your win-
dow open in winter, you can get sufficient heat from an oil heater
while you undress at night, and then turn it off. Apply a match
in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early
breakfast before the stove is radiating
heat can get immediate warmth from
an oil heater, and then turn it off.

The girl who practices on the piano
in a cold room in the morning can
have warmth from an oil heater while
she plays, and then turn it off.

The member of the family who
has to walk the floor on a cold win-
ter's night with a restless baby can get
temporary heat with an oil heater, and
then turn it off. The

**PERFECTION
SMOKELESS
OIL HEATER**
Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. Apply a match and it is im-
mediately at work. It will burn for nine hours without refilling. It is safe,
smokeless and odorless. It has a damper top and a cool handle. An indicator
always shows the amount of oil in the tank.
It has an automatic-locking flame spreader which prevents the
wick from being turned high enough to smoke, and is easy to remove and drop
back so that the wick can be cleaned in an instant.
The burner body or gallery cannot become wedged, and can be quickly
unscrewed for reworking. Finished in Japan or nickel, strong, durable, well-
made, built for service, and yet light and ornamental.

to the nearest agency of the
Atlantic Refining Company
(Incorporated)

**HER
PHYSICIAN
APPROVES**

Taking Lydia E. Pinkham's
Vegetable Compound

Sabbatus, Maine.—"You told me to
take Lydia E. Pinkham's Vegetable
Compound and
Liver Pills before
child-birth, and we
are all surprised to
see how much good
it did. My physi-
cian said 'Without
doubt it was the
Compound that
helped you.' I
thank you for your
kindness in advising
me and give you full
permission to use
my name in your testimonials."—Mrs.
H. W. MITCHELL, Box 3, Sabbatus, Me.

Another Woman Helped.
Graniteville, Vt.—"I was passing
through the Changes of Life and suffered
from nervousness and other annoying
symptoms. Lydia E. Pinkham's Veget-
able Compound restored my health and
strength, and proved worth mountains
of gold to me. For the sake of other
suffering women I am willing you
should publish my letter."—Mrs.
CHARLES BARCLAY, R.F.D., Granite-
ville, Vt.

Women who are passing through
this critical period or who are suffer-
ing from any of those distressing ills
peculiar to their sex should not lose
sight of the fact that for thirty years
Lydia E. Pinkham's Vegetable Com-
pound, which is made from roots and
herbs, has been the standard remedy
for female ills. In almost every com-
munity you will find women who
have been restored to health by Lydia
E. Pinkham's Vegetable Compound.
