

**"The FREE" the New Famous Sewing Machine**

**SOLD AS LOW AS \$1 A WEEK**

**A Newly Invented Sewing Machine Is Now On Sale**

**30 DAYS TRIAL**

**The Inventor Mr. Free, Doesn't Want The Low Price Told**

Many people have wondered why we have such enthusiastic language in advertising this new and "different" sewing machine, "The FREE". Simply because we feel enthusiastic to our finger tips about "The FREE". Why, we are so convinced about the absolute superiority of "The FREE" over any machine we have ever seen or heard about that we don't even dare tell you the price. It is too

low. We and Mr. Free both realize that if you were told the price without seeing the machine you would not be able to appreciate the fact that "The FREE" is the only perfect 20th Century Sewing Machine.

Instead of advertising the price we prefer to make it easy for you to own a "FREE" by offering it at your own terms as low as \$1 a week, and above all we would like to have "The FREE" a 30 day trial in your own home. Try this machine—test it—sew with it on all kinds of material—if you then are not entirely satisfied—if you are not convinced that it is the best machine you have ever sewed on—the most improved—the most up-to-date—if the low price does not convince you that this is the biggest bargain you have ever bought, return the machine to us and we will refund your deposit so that the trial will not cost you one cent.

We know that a trial is the best way to sell "The FREE" because we are sure—that an owner will be willing to get along without the 3 sets of Ball Bearings, the "Rotocillo" Movement, the French Leg Design, the Shuttle Ejector, the Rotary Spool Pin, Automatic Locking Drawers, Automatic Tension Release, Automatic Thread Controller and Improved Head Latch after enjoying them for 30 days on "The FREE".

**See The FREE tomorrow** and let us send it right out to your home. Come tomorrow.

**WILLIAM SHIELDS FOR ASSEMBLY**

**Brief Biography of the Popular Candidate on the Democratic Keystone Ticket.**

**HE HAS MANY STAUNCH SUPPORTERS**

William Shields Democratic Keystone candidate for Assembly, was born in Clover township, 1859. He worked on his father's farm during the summer and attended the public schools in the winter. He afterwards taught school for several winters in Beaver and Clover townships and Corsica borough. To better fit himself for teaching he attended the Belleview Academy, and Edinboro State Normal school, for several summers. At the end of the school term in Corsica he removed to Brookville in the spring of 1888, where he engaged in the grocery business. A few years later he bought the property he now occupies. Having taught school in different sections of the county in his younger days, and in his business relations since he came to Brookville he has formed a large acquaintance throughout the county, and has many staunch supporters for the office to which he aspires, among all parties. By fair dealing in business, by always taking what he believed to be the right side on all moral questions, and by his upright life, he enjoys the confidence of his friends and acquaintances and business associates. It is not often that the voters of this county have the opportunity to vote for a man so well equipped for the office of Representative as Mr. Shields. His early training on the farm, followed by ten years of teaching, and his successful commercial career, eminently fit him to be a truly representative member of the lower house of the State Legislature. The new school code, the amending and strengthening of pure food laws, the passing of local option law and the curbing of the great corporations that hold this state in their grasp are some of the things that will occupy the attention of the law makers of the next session of the legislature. Mr. Shields' training and experience fit him for intelligent and efficient service on all these subjects, and he can be trusted to be in the right on all questions. A vote for Mr. Shields means a vote for clean politics and honest legislation.—Brooksville Record.

**A Good Position.**

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., or Philadelphia, Pa.

**PENNSYLVANIA RAILROAD BULLETIN**

**OPENING OF THE GREAT PENNSYLVANIA STATION IN NEW YORK.**

On Sunday, November 27, full train service will be inaugurated by the Pennsylvania Railroad to and from its new station at Seventh Avenue and Thirty-second Street, New York City.

The location of the Pennsylvania Station, one block from Broadway, two blocks from Fifth Avenue, is in the heart of the hotel, club, and theatre district of Manhattan. Within a short radius are located the majority of the big retail stores and restaurants. The Seventh Avenue surface cars and the Eighth Avenue surface cars pass its doors; the Thirty-fourth Street surface cars (cross town) pass its Thirty-fourth street entrance, and stations of the Sixth Avenue Elevated and Hudson and Manhattan Tubes are a short block from its main entrance.

Time tables showing the service to and from the Pennsylvania Station are now being arranged, and may be obtained at Ticket offices before the opening of the Station.

Connections will be made at Manhattan Transfer (near Newark) with local trains to and from the downtown stations by way of Jersey City, so that downtown New York passengers who desire may continue to use the Cortlandt and Debosses Street Stations and the Hudson Terminal Station of the Hudson and Manhattan Tubes.
