## MADE HIS APOLOGY AMPLE Fish Legislator Even Withdrew the Words That He Was About to Utter.

There is in congress a western representative of Celtic origin who has more than once "stirred up the animals" by his propensity to bait the opposition.

On one occasion he rose to denounce the statements made in a speech that had been delivered by a member of the other party. His impetuosity led him to phrase his remarks rather strongly. "Order, order!"

exclaimed the speaker, pounding with his gavel. Again, in a minute or two, did the son of Erin return to his charge of

wilful misstatement. Again was he called to "order." It was a critical moment. His col-

leagues, for motives of policy, did not wish him to be put out of the debate, so they hinted so by tugging vigorously at his coat tails.

Now, it's a very dangerous matter to trifle with the tails of an Irishman's coat, save in the cause of friendship. Nevertheless, the indignant yet goodnatured member recognized the command of his party and sat down after delivering this Parthian dart: "I obey the ruling of the House, and

"beg to retract what I was about to observe!" That one touch of Irish oratory took

the whole House by storm .-- Lippincott's.

### Not Even Mother.

Little Bob was much distressed beause the birthdays of his sister Adelaide and his baby brother were going to arrive before his did.

"All the burfdays before mine," he mourned. "Couldn't you make mine come first, muyver ""No," interposed Adelaide, decisive-

ly, "nobody can change your birthday-not even mother!"

### Pie.

"You Americans," said the London man, "are very fond of what you call But properly speaking a pie should have meat in it.' "Perhaps. But the beef packers compel us to economize."

eggs, but I can get some if you want them very bad! Summerbord-Never mind, I don't

care for that kind. PUTS STOMACHS IN ORDER.

No Indigestion, Gas, Sourness or Dyspepsia Five Minutes After Taking a Little Diapepsin.

not be a tion, dyspepsia or gastritis here if readers who are subject to Stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Dia-This harmless preparation pepsin. will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourest, acid stomach in five minutes, besides overcoming all foul, nauseous odors from the breath. If your stomach is sour and full of gas, or your food doesn't digest, and your meal don't seem to fit, why not get a 50-cent case of Pape's Diapepsin from any druggist here in town, and take life worth living. Absolute relief from Stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and besides, one fifty-cent case is sufficient to cure a whole family of such trouble. Surely, a harmless, inexpensive preparation like Pape's Diapepsin, which will always either at daytime or during night, relieve your sick, sour, gassy, upset stomach and digest your meals, is about as handy and valtable a thing as you could have in the bouse

to the United States every year for a century, what will the average American be like at the end of that time? What will be the effect of these millions of fertile people upon the ultimate product of the becomes largely that of the peasants of those down-trodden countries will the dominant traits of the present be lost?

These are questions that are raised by the figures issued by the commissioner of immigration, for those figures show a striking accentuation of the immigration tendency that has developed with in the last decade. So far has the tendency gone that for the fiscal year recently closed it is shown that \$3 per cent. of all comers have been from the races of South Europe and Eastern Asia. The men who are wont to look far ahead in the problems of national well being are becoming alarmed with the record of

each succeeding season. For the year ending June 30 last, 1,041,570 immigrants landed in this country. Of these 868,193 weer from Mediterranean sea countries. the only 173,377 were from all the rest of the world-83 per cent. as against 17 per cent. Even this 17 per cent. cannot be counted as having a tendency to continue the present American type, for in it is included such distinctly different races as Japanese Chinese, Mexicans, Africans,

The point is therefore that the whole influence of immigration is toward breaking down the American citizenship as it exists today by putting in its stead the blood of races that heretofore have had nothing to do with its making. These people have been coming to America for such a short time that the effect that they are destined to have in the course of amalgamation is an absolutely unknown quantity. If the stream of immigration continues in accordance with the present tendency the American of the future is to be a new creature under the sun, but whether improved by the process or mongrel, only time can tell.

Diverting the Tide. The necessity of adopting some

Great Immigrant Army. There have come to this country, from the time the immigration records

began in 1820 up to the end of the last

Among the spectators at a match between the Blackburn Rovers and the Olympic was a little lad about nine years of age. Though the boy's knowledge of the game may have been limited, his notion of correct play was extremely robust "Go it, 'Lympic," he yelled. "Rush

'em off their pins. Clatter 'em. Jump on their chests. Bowl 'em over. Good for yer. Mow 'em down. Scatter 'em, Lympic." When his parent neatly "grassed"

one of the opposing forwards, the youngster expressed approval by bawling, "Good fer yer, owd 'en," adding proudly to the spectators, "Feyther 'ad 'im sweet.'

"Yes," said a hearer, "but he'll get killed before the game's finished." "I don't care a carrot if he does," said the boy,-London Tit-Bits.

ALL THERE.

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—" Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman." - Mrs. Ella E. Aikey, Cresson, Pa.

Baird, Wash.-"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my ills, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

and thousands of cares invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

and was hardly able to walk. "My aunt advised me to try Cuticura Soap and Cuticura Ointment. sent to a drug store and got a cake of Cuticura Soap and a box of the Ointment and followed directions. At the end of two months the sores were all well. He has never had any sores of any kind since. I can sincerely say that only for Cuticura my child would have died. I used only one cake of Cuticura Scap and about three boxes of Ointment.

"I am a nurse and my profession brings me into many different families and it is always a pleasure for me to tell my story and recommend Cuticura Remedies. Mrs. Egbert Sheldon, Litchfield, Conn., Oct. 23, 1909."

What's in a Name?

chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a

### Looking After the Eggs.

Lady Betty, who is 4 years old and never misses a trick, was taken the other evening to a restaurant for her supper, and with all the importance and sprightly dignity of her years calmiy ordered poached eggs on toast. While the little family group was awaiting its service the "kiddle" amused herself by looking out of the window, pressing against a screen to get a closer view of something below. She was warned by her mother that the screen might give way and let her fall to the sidewalk, perhaps injuring her terribly. She drew away, thought a minute, and then said naively: "Would I fall if the screen went out?" "You certainly would," was her mother's reply. "And would I get awful hurted?" "Very likely." "Then what would the man do with the eggs?"

There are a good many heroes in wels who couldn't earn a living in real tife.

The man who deceives himself is an sasy mark for others.

means to divert the tide of immigration from the congested centers to the country, where advantages not to be found in the larger cities are afforded, is also a subject deserving of serious consideration.

Information has been compiled. showing the states and territories to which alien steerage arrivals were destined, their professional occupation, and the races or peoples of which they were members. Attention is called to the fact that the newcomers congregate around or in the large urban settlements, a fact that suggests as a means of averting the dangers of alien colonies and facilitating the amalgamation with the people of this fiscal year, nearly thirty million immistream of alien immigration, appropriate action, either state or federal, for their distribution to points where and they can most speedily learn the benign effects of industrious and lawobserving life. But a small number of the arrivals are destined to the all going to the eastern and middle notwithstanding there is a demand for labor from the former, especially in the agricultural sections.

### The Nation's "Gateway."

Ellis island is a great interrogation point to the immigrant. In the course of the regular official routine at least 40 questions are asked him. But even after he has passed inspection and is turned over to the milroad department in the immigrant station he has to respond to twice as many more. Almost at every step the immigrant has to set down his bags or bundles or babies and reply to some interrogator.

In more ways than this Ellis island America. One of the most serious problems that the United States has to solve today is how to put up the bars high enough to keep out undesirable and objectionable immigrants and yet valuable citizens in the years to come. problem. Another is how to distribute

Type of Immigrant.

country of the steadily increasing grants. This is equal to the entire population of Spain, Portugal and Sweden combined. Compared with this alien invasion of America the their services can be best utilized history-making shiftings of the Franks and Gauls and Goths and Vandals and Huns were nothing at all. That is one indication of the reason why the government is beginning to regard southern and western states, nearly the influx of more than a million immigrants a year as one of its most serious domestic problems. Immigration experts believe at least 25 per cent. of the immigrants now necessarily admitted, although they may be able to earn a living, are of no'benefit to the country, but, on the con-trary, are a detriment; that their presence tends to lower our standards of living and civilization, and if they were to remain away they would not be missed, except by the transportation companies.

No one considers New York as an American city now. Londoners go home and tell their folks that they met very few Americans there. The is the great interrogation point of other day the kaiser greeted some Manhattan Germans with the remark that he was glad to welcome fellow countrymen from the biggest German city in the world outside of Berlin.

Because the American city has a to let in those that will be useful and bad influence on the foreigner the government is doing all it can to in-There are many phases to this big duce him to settle out in the country, where he and his family will not be the aliens throughout the country and huddled in tenements and die from already densely populated portions of earses.

"See here, walter," said Mr. Grouch, scowling deeply over his plate, "I or-dered twrtle soup. There not even a morsel of turtle flavor in this."

"Of course not, sir," returned the waiter. "What do you expect? Shakespeare said there was nothing in a name. If you ordered college pudding would you expect a college in it? In Manchester pudding would you look for a ship canal or a cotton exchange? Any tea, sir!"-Tit-Bits.

Stiff neck! Doesn't amount to much, but mighty disagreeable. You've no idea how quickly a little Hamlins Wizard Oil will lubricate the cords and make you confortable again.

"I am greatly encouraged," said a man today. "A good many people knocking on me lately; that is a sign I am amounting to something."
