Brookrille Herald. THE RAILROAD .- During last summer we had trequent occasion to notice the progress of a railroad survey from the mouth of Bennet's Branch, on the Sinnemahoning, at the Driftwood Sta. tion, on the Philadelphia & Eric Railroad, to Franklin on the Allegheny River, then to connect with the Lake Shore Branch to Franklin, on the Atlantic & Great Western. That survey has been finished and the route has proved to be entirely satisfactory. The gradients do not exceed in any place 40 feet per mile, or the curves 6 degress, As soon as the report comes to hand we

will lay it before our readers. During the past week two corps of engineers arrived in town and both par. ties commenced work on last Wednesday. The corps under Mr. M'Minn to to locate the preliminary survey of last summer, and he immediately proceeded locate, break ground, and formally take possession of the line. The other corps under Col. P. Jarret, proceeded in the same direction, to make a proliminary survey on the same ground passed over by Mr. M'Mian. Both parties seem to entertain the most friendly relations towards each other, and no difference of opinion are manifested to the uninitiated. Rumor, however, says, the first party is under the direction of the Pennsylvania Railroad company, but this we are au. thorized to contradict. The Bennett Branch and Franklin survey, made last summer, was an independent arrangement, and was made in good faith, with a determination to immediately proceed to its construction. The corps under Col. Jarrett is making a survey for the Central Western R. R. Co., link of the

Atlantic & Great Western R. B. Co. We do not know what will be the result of these two surveys, but hope there will be no conflicting interest, and that we will get a railroad in the quickest possible time. We extend a hearty welcome to the different corps, and hope ns we believe, a first rate route is before them, and they will find no difficulties in their route.

The holidays are close at hand and our dealers are preparing to meet the wants of the season. Panic Among the Dressmakers.

The recent ruling of certain clauses of the Internal Revenue Laws, and the determination to abide strictly by the construction put upon them by those legally entitled to enforce such claims, has spread consternation throughout the ranks of the milliners and dressmakers

in the city and country. It is known that a tax of six per cent, is levied upon all manufactured articles, but it has not been generally understood to what extent this would bear upon the dressmaking and clothing interest generally. Not only six per cent charged upon the receipts of dress. maker and milliner for their labor, but apon the cost of all the materials that bass through their hands. Thus, for Hewitt Jere ustance, the value of a rich dress may range from one to five hundred dollars, but out of this the charge for making is Irwin Thomas only twenty or thirty; the dressmaker, Johnson Jesse however, is not only charged with a tax | Johnson J. O. of six per cent., upon her labor, but upon the entire value of the material, which has already, in the hands of the dry goods merchant, paid a foreign or do. mestic duty.

This is not only severe and oppres. ive, but it is desiructive to the cutire Moyer Coonrod Jr trade interest. Ladies will not have to pay so heavy a tax, dressmakers cannot exact it, as in many instances it out. weighs not only their profits, but the whole cost of making, and rather than Pistner John submitto such extortion, ladies will have | Schultze Wm. C. their dresses made at home.

Take, for instance, a velvet dress, the value of which, with trimmings, would | Schoening Gerhard e \$500; the cost of making this would | Schoening Fred ne, perhaps, \$26, the taxes \$31,50, rais. Thomas John S ing the dressmaker's charge, in itself Thompson Peter moderate, to the exorbitant sum of \$56,-

When it is remembered that the Weis Albert material, has already paid a foreign du. | Wouk Ferdinand ty of ninety per cent., which doubled | Webb Chas east to the purchaser, the preposter. Zimmerman L. U.

ous injustice of the claim will be made apparent.

There are, to be sure, private dressmakers who never pay any government is not able to leave his room, which must tax ; who hang out no sign ; whose busiaccount for the non-appearance of the ness is carried on secretly and behind closed doors; who work for ordinary prices, and whom ladies may covertly patronize. But what a premium this offers to dishonesty of every description ! It is into such hands that the entire business will be thrown, to the ruin of hundred and thousands of honest, deserving, pains-taking, industrious wo-men.—N. Y World.
