

MINNS SUMMARY.

The U. S. Senate have agreed to reconsider the vote upon the Post Office Appropriation Bill.

The nomination of Gen. Frank P. Blair for Collector of St. Louis has been rejected by the Senate.

The bill for the admission of Colorado into the Union as a State has passed both Houses of Congress.

It is said that Jefferson Davis is to be indicted for treason at the next session of the U. S. Court at Norfolk.

John O'Mahony the famous Fenian Head Center has been arraigned before the Manhattan Circle and deposed.

Protest the number of the Deering family in Philadelphia has made a full confession of his crime.

Fifty deaths have occurred at New York, up to this date from Cholera.

The prospects of war between Austria and Prussia are growing smaller and beautifully less every day.

The city of Valparaiso in Chili has been bombarded and almost entirely destroyed by a Spanish fleet.

Valparaiso was a flourishing city, whose trade was principally controlled and carried on by English and American residents.

The Radicals show their Love for the Soldiers.

It has been the boast of the radicals in every campaign for the last four years that they are the special friends of the soldiers.

Our readers will remember that a few weeks ago we announced that the President had directed that the Heads of Departments in making appointments to office, as also in promotions, should give preference to meritorious and honorably discharged soldiers and sailors.

But this hope is gone. The soldiers believe that the Union is restored, and like true soldiers in all ages, they are magnanimous and are not in favor of wrongfully imposing upon the Southern people so odious a measure as negro suffrage.

Unless it finds these, it ceases its progress, and disappears just as certainly as seed sown upon a macadamized road will not produce a crop.

Cholera poison, whenever it becomes epidemic, must find the soil for its growth and action in an impure atmosphere.

Cholera originates in human filth, as is evidenced by the modes of life in the densely populated sections of India from whence it starts.

Cleanliness, then, is the most efficient prophylactic. Such cleanliness as entirely removes all animal and vegetable matter that would undergo rapid or slow decomposition.

than to any other man, the country is indebted, that Missouri was prevented from seceding.

Reconstruction.

As the result of five months hatching the "Central Directory" have brought forth the startling proposition, printed at large on our first page.

After so long an incubation we had expected something that would at least command the respectful consideration of its own friends.

The nomination of Gen. Frank P. Blair for Collector of St. Louis has been rejected by the Senate.

Protest the number of the Deering family in Philadelphia has made a full confession of his crime.

Fifty deaths have occurred at New York, up to this date from Cholera.

The prospects of war between Austria and Prussia are growing smaller and beautifully less every day.

The city of Valparaiso in Chili has been bombarded and almost entirely destroyed by a Spanish fleet.

The Radicals show their Love for the Soldiers.

It has been the boast of the radicals in every campaign for the last four years that they are the special friends of the soldiers.

Our readers will remember that a few weeks ago we announced that the President had directed that the Heads of Departments in making appointments to office, as also in promotions, should give preference to meritorious and honorably discharged soldiers and sailors.

But this hope is gone. The soldiers believe that the Union is restored, and like true soldiers in all ages, they are magnanimous and are not in favor of wrongfully imposing upon the Southern people so odious a measure as negro suffrage.

Unless it finds these, it ceases its progress, and disappears just as certainly as seed sown upon a macadamized road will not produce a crop.

Cholera poison, whenever it becomes epidemic, must find the soil for its growth and action in an impure atmosphere.

Cholera originates in human filth, as is evidenced by the modes of life in the densely populated sections of India from whence it starts.

Cleanliness, then, is the most efficient prophylactic. Such cleanliness as entirely removes all animal and vegetable matter that would undergo rapid or slow decomposition.

Then the first thing for us to look to is our cellars, and see that they are thoroughly cleansed from all impurities.

We must avoid eating vegetables and fresh meat.

Elk County.

Was organized under an Act of the General Assembly approved April 18th, 1812, the gubernatorial chair being then occupied by David R. Porter.

The completion of the Philadelphia and Erie Rail Road has changed all this, and Elk county is now as easily reached as it was before.

The frequent ravines cut by these streams afford the greatest facilities for reaching the immense deposits of coal and iron ore that underlay a great portion of the surface.

Thoroughly watered by the tributaries of the Allegheny and Susquehanna, the frequent ravines cut by these streams afford the greatest facilities for reaching the immense deposits of coal and iron ore that underlay a great portion of the surface.

question the two candidates for Governor as to their position on the matter. Mr. Clymer's response is as follows:

READING, April 12, 1866.

GENTLEMEN:—I have just received your letter of the 9th inst., asking the question, "Whether I am or am not in favor of making a general railroad law by the Legislature of this Commonwealth, somewhat similar to that existing in the neighboring State of Ohio."

I after the repeated and persistent efforts made by me during a long service in the Senate, to secure the passage of a general railroad law, my position on that question is not understood.

I have been and am now, and will continue to be in favor of a general free railroad system for this State similar to that of the States of Ohio and New York.

Very respectfully and truly yours, HIESTER CLYMER.

The Broken Banks.—It appears that the Petroleum and Venango banks were chartered under the Free Banking Law of Pa., and have securities (\$739 bonds) deposited with the Auditor General.

ARRIVED GENERAL'S OFFICE. HARRISBURG, April 9, 1866. The circulation of the Petroleum Bank now outstanding is \$101,874—security for which it has deposited in this office \$104,000 in U. S. 7-39 Treasury Notes.

The Venango Bank has received \$85,000 of national currency, which is amply secured by deposited bonds.

The Venango Bank has received \$85,000 of national currency, which is amply secured by deposited bonds.

The fast slave schooner Wanderer has been lately rebuilt in Rockland, care being taken to preserve all her good points as a fast sailor.

NEW ADVERTISEMENTS.

EXECUTORS NOTICE.—WHEREAS, Letters Testamentary upon the estate of Simon Hunt late of St. Mary's, Elk county, dec'd, have been granted to the subscribers.

THE VIRGIN GOLD MINING COMPANY OF COLORADO, 1256—Original interests—\$100 each, of which 250 are reserved for Working Capital.

THE PRESIDENT is to be chosen from among the Board of Directors.

THE DIRECTORS are to be selected by the subscribers from among themselves, at the first meeting for organization.

THE SECRETARY AND TREASURER is to be a subscriber and selected by the Directors.

BANKERS. The Central National Bank, Philadelphia. Solicitors. Theodore Ogler, Esq. Robert D. Cox, Esq.

Americans are proverbially fond of the avidity and commendable zeal with which they participate in enterprises having for their object the development of our national resources.

Mining operations in the hills of Colorado and elsewhere now mainly occupy the public attention. Considering that several such companies have already organized—that they are now at work—that the reports from their mines are highly favorable—that it is known that at the present time there are on the way from the ledges of Nevada and Colorado numerous "bars of silver" and "bricks of gold," it is believed that the enthusiasm already manifested on the subject will, in a little time, be so greatly increased on the receipt and exhibit of these "returns," that innumerable companies will spring up, whose stock, being based at the *ven* greatly inflated prices of ledges, will necessarily be less desirable than that now to be had—thereby giving to those who avail themselves of the occasion now presented, of securing "original interests," an opportunity of their disposing of the large amount of stock each holder receives, at a handsome advance.

With these preliminary remarks the following PROSPECTS are respectfully presented.

The property of the Company proposed to be organized by the sale of these "original interests," consists of the following ledges, all situated within a radius of five miles of Central City, Colorado.

TRAIL CREEK DISTRICT. Mammoth Lode, of 200 feet, Never Fail Lode, of 200 feet, Vanderbilt Lode, of 200 feet, Union Lode, of 200 feet, Old Ophir Lode, of 100 feet, Holman Lode, of 200 feet.

BANNER DISTRICT. St. Louis Lode, of 100 feet, Pennsylvania Lode, of 100 feet, UPRER FALL RIVER DISTRICT. Abe Lincoln Lode, of 200 feet, Washoe Lode, of 200 feet, Minnie, or "Louis" Lode, of 200 feet, Riddle Lode, of 200 feet.

*This Lode is very well developed, with vein of ore 4 feet in width; ore prospects well.

There is one shaft on this Lode 20 feet deep and 30 feet long, and the crovice is 8 feet in width.

*This Lode is well developed, and considered one of the best in the district; there is a shaft on it 60 feet in depth with vein of sulphurets four feet in width. Assays made of this ore prove it to be very rich.

*This is an A. I. Lode, and has a shaft of 75 feet in depth—vein of ore three feet in width and of good quality. Ore taken from this Lode yielded \$100 per cord in gold.

*This is really the richest Lode yet discovered in the district; it is well developed, and ore taken from this Lode yielded upwards of \$800 per cord.

today before this House and before this Country, to be placed upon the records and read of all men—that within five years' time, and by the year 1869, the gold fields of Colorado Territory will produce \$50,000,000 annually; and even then its full resources of mineral wealth in gold alone remain not wholly developed.

The opinion entertained by those abroad of claims in this district, is shown by the following extract:—English capitalists have purchased 2,000,000 of the Colorado mining lands, and their agents and employees are now en route to develop the same.

English capitalists have purchased 2,000,000 of the Colorado mining lands, and their agents and employees are now en route to develop the same.
