Godey's Lady's Book for July is on our table. As usual, it is exceptionable, in both reading and style.

The ladies of St. Mary's com. menced holding a Fair for the benefit of the Church yesterday. Success to their undertaking.

Messrs. Cowan, of the Senate, and Schofield of the House, will please accept our thanks for valuable docu.

We learn that Henry Souther, Esq., has consented to the use of his name as candidate for Congressional honors in the coming campaign.

A Grand Democratic Rally of the eastern and central counties of Pennsylvania is to come off at Reading on the 3d of July.

Dr. Stebbins, Dentist, of Brook will be in our place during court week. All persons having anything to do in his line should give him a call.

The young men of Ridgway are requested to meet in the Court House on Tuesday evening next, for the purpose of forming a Young Men's Democratic Johnson Clymer Union Club. By or-MANY.

Bar If you want Fire Works-such as spinning-wheels, Roman candles, sky rockets, &c., to celebrate the coming anniversary of our Indopendence, go to Bordwell & Messenger's, where you can get them cheaper than the cheapest.

APOLOGY .- We owe an apology to Dr. Bailey, of St. Mary's for inserting his card in such a careless manner. The advertisement was written by the compositor, and not by the Doctor, as one would suppose on reading it.

Col. Moore, of the Hyde House is going to give a ball on the "ga-lorious Fourth;" if the Colonel gives as much attention to his guests on the occasion of a ball as he does at other times we pre. dict a pleasant time for those invited.

Can't we have a Base Ball Club in Ridgway? In most of our exchanges we see that they are forming clubs in every place where there is young men enough to have one. Then, let us have a club; we have plenty of material in Ridgway. Who'll commence?

"Jupiter! what a hot day!" was the almost universal exclamation of everybody during the warm weather of this week. Many, however, got cooled off by going to Bordwell & Messenger's Drug Store and procuring a glass of ICY COLD AND SPARKLING MINER-AL WATER.

FATAL AFFRAY .- On the 21st inst. after the exhibition of Dan. Rice's Show at Wilcox, some three or four railroad employees made an attack on Elijah Darrell, the engineer of the gravel train locomotive, and he, in self.de. fence, knocked two of them down immediately, and then knocked down a third and jumped upon his chest, bursting the blood vessels, and causing death in about thirty minutes. From what we could learn of the affair, Darrell acted purely in self-defence, and it is due to him to say that he has the reputation of being a sober, orderly and well disposed man. He gave himself up immediately after to the Justice, who let him go on his own recognizance to appear when called on. An inquest was held over the body and the verdict was "that James Car. ter came to his death at the hands of Elijah Darrell."

COOL LARCENY .- About daylight on Friday morning as Dan Rice's Circus train was passing through Centreville, it drove up to a man lying near the road, the whole train stopped and the drivers dismounted to know what chance there was for change, but they found the chap had been a supplicant at the throne of King Alcohol and the Mon. arch delighted with his greenback subject, soon had him richly snoozing in the arms of Bacchus and Morpheus. Seeing him so happily situated they very nicely divested him of his boots

and hat and almost obtained his pocket book cotaining \$200 or \$300 when the attention of the citizens caused them to to relinquish their work.

Our provincial friend must keep his eyes open when Rice comes round, whether St. Mary's or Centreville whis. key was the cause, Dan will get the

Americans are proverbial for the avidity
and commendable zeal with which they
participate in enterprises having for their
object the development of our national resources. At one time "Railroads"—at
another "Coal"—then "Copper" or
"Iron," and more recently "Oil" have
been the all absorbing topics.
In all these several enterprises as will

In all these several enterprises, as will be recollected, those who first took hold of them made money; some larger amounts than others, according to their investments. Mining operations in the fields of Colora-do and elsewhere now mainly engross the public attention. Considering that several such companies have been already organized—that they are now at work—that the reports from their mines are highly favorsble-that it is known that at the present time there are on the way from the ledges of Nevada and Colorado numerous "bars of silver" and "bricks of gold," it is believed that the enthusiasm already mani. fested on the subject will, in a little time, be so greatly increased on the receipt and be so greatly increased on the receipt and exhibit of these "returns," that innumerable companies will spring up, whose stock, being based at the then greatly inflated prices of ledges, will necessarily be less desirable than that now to be had—thereby giving to those who avail themselves of the occasion now presented, of securing "ori-ginal interests," an opportunity of then disposing of the large amount of stock each holder receives, at a handsome advance.

With these preliminary remarks the fol lowing PROSPECTUS is respectfully presen-

The property of the Company proposed to be organized by the sale of these "original interests," consists of the following Ledges, all situated within a radius of five miles of Central City, Colorado.

This Lode is well developed, and considered one of the best in the district; there is a shaft on it 60 feet in depth with a vein of sulpherets four feet in width. Assays made of this ore prove it to be very rich.

|This is an A. I. Lode, and has a shaft of 75 feet in depth—vein of ore three feet in width and of good available. in width and of good quality. Ore taken from this Lode yielded \$105 per cord in

The titles to all of which claims have been examined by a member of the Bar, resident in Colorado.

THOMAS MASON, Att'y at Law. Central City, Colorado.

The space of a circular is too limited to give the opinions of numerous distinguish-ed citizens and men of science who have examined this district; the following extracts relate thereto, and that of Professor Ed. ward N. Kent in particular, of the New York U. S. Assay Office is directly in point. Our late lamented President.—Mr. Lin-

coln-during an interview with Speaker Colfax, relative to the hidden wealth of Colorado, Navada, &c ., said-"I have very large as leid of the miner

wealth of our nation; I believe it practically inexhaustible." The Hon. J. P. Upsher, Secretary of the Interior, in the Official Report presented to Congress, dated December 5th, 1864, referring to the then present condition of our Western Territories, says. "The wealth embedded in the rocks of that extensive re gion is actually inexhaustible, and it will furnish in future years, indirectly a princi-pal part of our means of liquidating the debt contracted by the Government for the overthrow of the Great Rebellion.

The Hon. H. P. Bennett, delegate in Congress from Colorado, in a speech before the House of Representatives said :- "Judge ing from what I know of the undeveloped resources of this country; from what I am told by practical miners who are well informed upon this subject, I do say here to day before this House and before this Country, to be placed upon the records and read of all men-that within five years' time, and by the year 1869, the gold fields of Col-orado Territory will produce \$50,000,000 annually ; and even then its full resources of mineral wealth in gold alone remain not wholly developed. I speak from the united testimony of many practical miners who have spent many years in the mines of California, when I say:—that the gold-bearing region of Colorado is far more extensive, quite as inexhaustible, and the gold-bearing quartz of a much richer quali-ty than in California."

Professor Edward N. Kent, of the New York Assay Office, says :-

"As to the extent of the gold mines of Colorado, I am not prepared to give an estimate, as I found enough to fully employ my time within a radius of five miles of Central City, [the location of the above Ledges,] butas other ficehoss of vass, I have no

THE VIRGIN GOLD MINING COM- hesitation in saying, that I believe them to be the richest ever discovered. With some pecapital and the Pacific Railroad. Colorado is destined in my opinion, torival or supported California and Australia, and become the E! Dorado of the World."

The opinion entertained by these abroad of claims in this district, is shown by the

following extract-English capitalists have purchased for the Colorado mining lands, and their agents and employees are now on real to develop the same. The claims are tolard pally in Russell and Trail districts, and a recent purchase has been the Scaton I. de of 1000 feet for which they paid £100,000.

An idea of the value of some dlaims (103 feet each' may be formed when the fast considered that it often occurs that they yield millions of dollars, and have in several instances been sold for \$25,000 per foor Mr. Fields, from 333 feet of the Bobiail Lode has taken out already over \$200,000 in gold, and \$266,000 has been offered and refused for 331 feet of this same lode, equal to \$800,000 for a claim of one hundred feet. As the purchase of either of the above lodes would require more money than the majority of persons have at command, it has been determined to consolidate them, and to divide them into Twelve Hundred and

ORIGINAL SHARES which will cost the subscribers hereto

ONE HUNDRED DOLLARS EACH. thus affording the man of limited means, as well as the capita'ist, an opportunity to we. cure an interest in this region of "practi-cally inexhaustible" wealth.

As all are aware, the usual plan adopted for the development of such a property is to form a company and issue certificates of stock. The plan here proposed may be considered preliminary to the formation of two or more Companies on these properties, which are subject to no royalty, leases or

mortgages.
