Windy—the weather to day.

We learn that a new paper is about to be started at Emporium, Pa.

Two newspapers are about being started in Forest county.

The Shamokin Coal Company now mine about one hundred tons of coal daily.

A correspondent in Benefits sent us a local item this week, which has been lost or mislaid.

We have lately been adding to our stock of Joliet News type, and would say that we are now prepared to do all kinds of work in our line.

Brother Weyer, junior editor of the Republic's Republican, has been getting married, the bride being the daughter of the senior editor of that paper.

Yours—We last week neglected to tender our thanks to Mr. Curtis for an advanced copy of his Message. Also to Col. Campbell for a copy of the Auditor General's report.

Yours—We are requested to announce that the meeting of the next Legislature will be held at the residence of Mr. C. P. Ely, on to-morrow evening. A general invitation is extended.

Yours—The January Term of our Court commenced Monday last, and notwithstanding that there is a large amount of business to get through with, it appears to be busily attended. We suppose the excellent hearing with which we are pleased in the cause of it.

We learn that there is now a good prospect of a collision between the two parties, for the purpose of getting at our extensive coal beds. The proposed plan is to tip the P. & G. R. R. at Johnstown, one mile east of this place.

The Gentry—Downeast—Our friend, Mr. W. F. Foy, formerly of the Balfour Warrens, has lately assumed control of the Olden Aster, with his brother, W. H. Foy. He will fire hot shot enough into the Radical camp to make them think of a "Great day." Both the incoming and outgoing editors have our best wishes for their future prosperity.

Yours—Hon. Butler has lately entered suit at Law against, against M. M. and Mrs. C. C. Powers, and his damages are \$10,000. We believe he is ever present that although he had no means more than a newspaper editor to back him, Ben's penchant for calling social events like a good turn now & then in any way of "stealing a thunder."

DISASTERS.—The Masonic Lodge, No. 550, was burned on Tuesday evening last. Quite a number of Brethren from adjoining counties were present, and we presume the損失 were highly interesting. The names of those present follow:

Masters—Henry H. Thomas,
W. W. Clark, A. Hartman,
J. W., Dr. U. R. Early.

ELK WINDOW SHADING.—The following description of Elk Window Shades, taken from a letter written by the manufacturer, to E. T. Hamlin & Co., of Warren, Pa., is very funny:

These shades are copper-bottomed, silver plated and double-headed; polished with hand-saw, and covered with a yellow cloth. They won't rip, ravel, or get dirty; they revolve on a square circle, and are covered with sun-judge, colored under water, and tied with all-weather yarn a yard wide and all-weather suitable for the poor and good enough for the rich; they admit light and reflect warmth; admit air and keep out dust; made of Norway pine and covered with a blind pig's feather. You may see the goods; they were made to sell, wear and wear. Give me an order.

GUILD.

As will be seen by reference to another column, Miss Eliza gave Gallie an order. A few days ago, while in Warren, we had the pleasure of going into Variety Hall. Among a great many other things we were shown the elastic Window Shades, and would say that their use would be their best recommendation.

A. H. STEVENS.—We have received from the National Publishing Company, some specimen pages taken in advance of publication from a work soon to be issued by that Company, entitled "Alexander H. Stevens, in Public and Private Life, with Letters, Speeches, &c., by Henry Cleveland, Esq., formerly editor of the Augusta, Ga., *Constitutionalist*. Mr. Cleveland is one of the most elegant and able writers in the whole South, and has long enjoyed the confidence and friendship of that great Southerner, who has filled such an important position and place in the history of our country. Mr. Stevens is recognized by all honest, thinking men, as one of the ablest statesmen and purest patriots in our whole country. Even the bitterest partisan, it he have sense, will accord him honesty and talents. This life of a great and good man will be sought for with eager interest by all who love truth, and admire genuine greatness. He stood by the Union in its first dark hour, when fanatics and malignant at each extreme were furiously assailing it. He denounced Secession to the last, and prophesied its fatal ending, but when there was no hope of Union, he, true to his honor, went with his State into a hopeless cause. As he predicted, the cause failed, and he returned to his allegiance to the old flag which he always respected, and to the support of the constitution which he never violated while he remained in the Union, and he is now a thousand times truer to the government than those who would debar him from the rights of citizenship. We anxiously await the appearance of this work. It is sold only on subscription, and we advise book agents to send in applications soon, as the book is soon to be immensely popular. It is gotten up in the very best style. Address,

Chief Justice Chase is said to be opposed to the proposed plan of getting rid of the President by impeachment.

Five negroes have been sentenced to the New Hampshire penitentiary and two to the Massachusetts legislature.

We have had no account of "Southern outrages" on freedmen for a long time. Wait until another election.

Some think that their is now no Congress known to the Constitution. Quite as many think that there is no Constitution known to Con gross.

It seems unkind in the Confederates to make so many charges against Gen. Butler, when he commanded a federal army and he didn't make any upon them.

It is reported in New York that a number of prominent Radicals among them Horace Greeley and Henry Ward Beecher, have sent a petition to President Johnson for the release or immediate trial of Jeff. Davis.

The Gentry—Downeast—Our friend, Mr. W. F. Foy, formerly of the Balfour Warrens, has lately assumed control of the Olden Aster, with his brother, W. H. Foy. He will fire hot shot enough into the Radical camp to make them think of a "Great day." Both the incoming and outgoing editors have our best wishes for their future prosperity.

The war was waged against the South to preserve the Union and force their representatives into Congress. Thad. Stevens, at the head of the Republican party, is now waging another and more dangerous war against the South, to keep the Union divided and to force Southern Representatives out of Congress.

Miscellaneous.

LAST.—Strayed away on Thursday, 27th ult., a small black mare, both shoulders sore from Collar galls. Any person returning her to the Alpine House, or leaving information, where the mare can be found, will be suitably rewarded.

ABGE CAPACITY, GREAT Strength and unequalled speed, simplicity and completeness of operation, are qualities peculiar to the

NONPARREL WASHING MACHINE.

It is a squaring machine constructed on very simple principle, and the experience derived from five years extensive use in families, hotels and public institutions proves it to be of lasting value to the purchaser.

The manner of operating the Nonpareil, by rotary motion, setting out crank shaft with balance wheel, which moves the plungers alternately, in the simplest, least laborious and most powerful that can be devised for the purpose, and accomplishes the work with the greatest rapidity and the least possible labor.

The great speed with which this machine performs work will be understood from the statement that it is geared to give six strokes of the plungers for one turn of the handle, or, when worked leisurely, about four hundred strokes a minute—Safety to the fabric washed is insured by the entire absence of rubbing.

A girl or boy of fifteen can work the machine, and do a week's washing for a family of six or eight persons in two to three hours' time; and it may be relied on to cleanse the clothing thoroughly, without assistance from hand rubbing.
