THE SILVER SKIRT. MORE DURABLE, MORE ELASTIC,

MORE GRACEFUL! And will keep its shope and retain its place better than any other Skirt.

f als new and beatif I style of Skirt (Pat ented sharen 7, 1865,) was awarded by the Great American Institute Fair, held in New York, Ostober, 1865, a

SILVER MEDAL,

being the Highest Premium ever given for a Hoop Skirt.

The Steel Springs are wound with fine plated wire—in place of a cotton covering— which will not wear off or become soiled, and the whole skirt may be woshed without injury or fear of rusting, and will be as

good as new.

The Combination Silver Skirt This invention combines with the ordina ry Skirt the advantages or our Silver Skirt the bottom hoops are the same as those us-ed in the Silver Skirt, the covering of which cannot wear off, while the upper ones are covered with cotton. No lady having once worn one of our Skirts, will be willing to wear any other, as the lower hoops of all other kinds are soon injured and soileed.

The cest mateeials are used in their con-

struction, and, from their durability and neatweet hey are destined to become a l'avorite Skirt.

Nonpareil Washing Machine.

The manner of operating the Nonparell, by rotary motion acting on a crank shaft with balance wheel,) which moves the plungers alternately, is the simplest, least laboriour and most powerful that can be devised for the purpose, and accomplishes the work with the greatest rapidity and the least possible labor.

The great speed with which this machine performs work will be understood from the statement that it is geared to give six strukes of the plungers for one turn of the handle, or, when worked leisurely, about four hundred strokes a minute—Safety to the fabric washed is insured by the entire absence of

rubbing. A girl or boy of fifteen can work the ma cltine, and do a week's washing for a family of six or eight persons in two to three hours time; and it may be relied on to cleanse the clothing thoroughly, without assistance from hand rubbing.
