(LATE POWELL'S) EMBROCATION!

FOR ALL DISEASES INCIDENT TO

Horses, Cattle and the Human Flesh, requiring the use of an external application.

This new Compound, prepared by a practical Chemist having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warran-ted to exceed anything of the kind yet of-fered to the public as an external applica-tion for the diseases for which it is recom-

mended. We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent

I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the HORSE, is subject. Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended. A judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and prettending Farriers. Their wishes are a length fully gratified, by Dr. Beale being prevailed upon to allow this valuable Emcocation (which has proved so efficacions to the various diseases) to be prepared and

brought out to the public. This embrocation was extensively used by the Government during the war. Address all orders to DR. EDMOND BEALE, 602, South Second St. Phil'a.
