THE MOST RELIABLE CUSHION used on Billiard Tables is the CAT-GUT CUSHION,

Manufactured by Kavanagh & Decker, and patented Dec 18, 1865. (See Scientific Am-erican, volume 16, number 11.) It is the ONLY Cushion that possessess

all the qualities essential to a perfect Cushion. If is the most elastic and most durable Cushion ever offered to the billiard-playing public, as is abundantly proven by the great demand for it since its introduction. The peculiarity which distinguishes the CAT GUT Cushion and renders it superior to all others, is the tightened cord of eat-gut which overlies the face and edge of the rubber, and running the full length of the Cushion, which prevents the buil from bedding into the rubber and jumping from the ilso adds much to the clasticity of the Cush-

EMBROCATION FOR ALL DISEASES INCIDENT TO Horses, Cattle and the Ruman Flesh, equiring the use of an external application. This new Compound, prepared by a prac-

al Chemist having a full kno all the medical virtues of each ingredien that enters into its composition, is warran-ted to exceed anything of the kind yet of-fered to the public as an external applica-tion for the diseases for which it is recom-mended. We are satisfied that it will work mended. We are satisfied that it will work its own road into the confidence of all who use it, and these who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is prenounced by Farriers, and all who have tried it to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgen request of my friends and the Public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the HORSE, is subject. Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use,

and many wholly improper to answer the purposes for which they are recommended. A judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and prettending Farriers. Their wishes are a length fully gratified, by Dr. Beale being prevailed upon to allow this valuable Em-brocation (which has proved so efficacious to the various diseases) to be prepared and

brought out to the public.

This embrocation was extensively used y the Government during the war. Address all orders to
