THE MOST RELIABLE CUSHION used on Billiard Tables is the CAT-GUT CUSHION.

Manufactured by Kavanagh & Decker, and patented Dec 18, 1866. (See Scientific American, volume 16, number 11.)

It is the ONLY Cushion that possesses all the qualities essential to a perfect Cushion. It is the most elastic and most durable Cushion ever offered to the billiard-playing public, as is abundantly proven by the great demand for it since its introduction. The peculiarity which distinguishes the CAT-GUT Cushion and renders it superior to all others, is the tightened cord of cat-gut which overlies the face and edge of the rubber, and running the full length of the Cushion, which prevents the ball from bedding into the rubber and jumping from the table. The addition of the cat-gut cord also adds much to the elasticity of the Cushion.

The CAT-GUT Cushion has already been applied to over 1000 tables which are its constant use. It can be applied to tables of any make, for \$75 per set.

KAVANAGH & DECKER'S Factory, N. the corner of Centre and Canal Streets, N. Y., is the most complete of its kind in the world. The machinery is of the most improved character, the lumber drying room the largest in the United States, the material used the best that can be purchased, and the workmen thoroughly skilled.

Billiard Cloth, Balls, Cues and Trimmings, all of the best make, constantly on hand.

Kavanagh and Decker are the only agents in this country for KAY'S CUE CEMENT, adjudged by competent authorities to be the best cement ever used.

Full Size Tables cut down for \$100.

BEALE'S (LATE POWELL'S) EMBROCATION!

FOR ALL DISEASES INCIDENT TO Horses, Cattle and the Human Flesh, requiring the use of an external Application. This new Compound, prepared by a practical Chemist having a full knowledge of all the medicinal virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind yet offered to the public as an external application for the diseases for which it is recommended. We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the Public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the HORSE, is subject.

Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended. A judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pretending Farriers. Their wishes are at length fully gratified, by Dr. Beale being prevailed upon to allow this valuable Embrocation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.

This embrocation was extensively used by the Government during the war.
