How can the bondholders expect the Radicals to pay the obligations in gold while their miserable reconstruction pol. icy increaces the debt from month to month ? How long will the people submit to be burthened by a mountain load of taxation which grows greater every day ? These are serious questions which all voters would do well to ponder carefully.

BROWNLOW'S KINGDOM.

Parson Brownlow, who has establish d his kingdom in Tennessee by the help of Federal bayonets, is the prophet the priest, the Mokanna of the Radi cal party. Tennessee, under his craft and cruel rule, is the only one of the rebel States which has been reconstructed in conformity to the views of the Radical leaders. His kingdom is the anticipation, the fore runner of that empire of peace which the Radical hopto establish under Grant. Tennesse foreshadows the sad fate of every other State it Radical rule shall be confirmed in the coming elections.

Before the breaking out of the rebel lion this high priest of the Radical parts was a fanatical Methodist preacher of A SENSIBLE DARKEY .- When the bill was up the other day, in the Sotuh the slaveholding and slavehunting type Carolina Legislature, so called, for com-As a pulpet politician and editor of a pelling hotels, steamboats, railroads, perquasi religious paper, Brownlow far sur-passed the most virulent of his sect in ous doing business under lisence, and public institutions, to make no distinction between white folks and niggers, the malice and spite which he exhibite towards the Northern people in his ser-mons and editorials. He became Governor and is now absolute dictator. His government is one of .he bright posies in the Rudical chapter of reconstruction. Behold it ! I nis day his rule is sustained by the bayonet of the soldier and a system of craft and violence, unknown elsewhere in the eivilized world, surpassing the worst which the carpet baggers have been able to accomplish in other reconstruct. ed States. But in spite of all, with the entranchisement of the negroes, with the disfranchisement of a very large portion of the whites, the tyranny of Brownlow is opposed by a great majority of the people of the State, and they watch for the first oppointuity for its overthow. The most odious and proscriptive registry laws, and the establishment of a egro militia, accompanied by a vigilant py system, have utterly failed to effectally silence the people. But for the pressut Brownlow is master. He nominates to all county offices which were formerly elective, and reserves to himelf the power of setting aside all elections which do not meet his wishes. To control the elections, he has organized an army of negroes, officered by North. era adventurers. He is empowered to place districts under martial law, on ap. plication of a few citizens, and he will ase this power to surround the places of election with his soldiers, to defeat the will of the people and perpetuate his intamous usurpation. Besides all this, he has brought the State to utter financial ruin. Desolation and misery are wide. spread, and the people cry aloud for deliverance from their oppressor. This is the first attempt to establish a monarchy within the United States. It fore-hadows the coming empire with Grant for dietator, and Ben Butler for prime minister. This kingdom of Brownlow is a constant menace to Republican couring alarmingly prevalent' in that liberty in every other State of the Union. chy, and remarks ; " We fear there It is for the people of this country to de, I tuated forever.

THE KEYSTONE STATE.

The Keystone State is the battleground. It is the old cry. From all sides it comes. Maine and Vermont-Connecticut and Oregon are forgotten. All look to Penusylvania. Her voice in October will be potential. As she speaks then will the States together speak. Now, Democrats, to your posts ! This State is Democratic ; a true

HOW TAXES AFFECT THE WORK-NGMAN .- Every workingman is taxed o help pay three hundred and sixty six housand dollars a duy to support a tanding army for the benfit of the Radical party. And yet this is only one tem in the long catalogue of burdens imposed upon the people. In one of Gov. Seymour's speeches he shows how taxes affect labor. He says ; " What now lengthens the time of toil? It we were free from any form of taxation,

direct or indirect, six hours of work would earn as much as ten do now. One hour more of work ought to meet a laborer's share of the cost of the government, an other hour should pay his share of the national debt. He now works two hours more than he ought, to pay for the military and negro policy of congress and its corrupt schemes."-Buffalo Courisr.
