FACTS FOR THE PEOPLE.
The value of U. S. property before the war was \$1,000,000,000. Since then in the Northern States it has increased in value, and the Southern States diminished. The productive industry of the country, is usually estimated at 24 per cent. upon the whole value of the country, which would make \$100,000,000 a year the productive interest of the country. The amount of taxes drawn from the people which reached the public Treasury in 1865, was \$550,000,000; in 1867 it was \$400,000,000, and Mr. Wells, the Special Revenue Commissioner, has made a statement in which he says that for the past year, 1867, ending on the first of July, there were \$400,000,000 of money drawn from the people by way of taxation, which went into the Treasury. Here then is a system of annual taxation far beyond the actual income from the productive industry of the country.

21. Vast as this tax is, according to Freeman Clark, Black Republican, and Commissioner Wells, Jacobins, not one half the taxes assessed against the Treasury, which is double injustice to the people; first, in the wrong done to the honest taxpayer, and, secondly, in the reduction of revenue through an unjust administration of the law.

22. During Mr. Polk's administration we had war with Mexico, and had transported armies and munitions of war to that country. The whole expense during these four years was only \$20,000,000, while during the present year, and the three or four years past, the expenses have been about \$120,000,000, so that it cost \$100,000,000 more for these Jacobins to run the department in a single year in the time of peace, than for four years during a foreign war under a Democratic administration.

23. In Great Britain the property is valued at double ours, their debt also; yet they expend for all purposes \$280,000,000, including interest upon their debt, and we expend \$400,000,000. We expend about \$100,000,000 more yearly than Great Britain. Their army of 200,000 men four times larger than ours, cost less money.

24. Just look now at one year's estimate for the Freedmen's Bureau: Commissary stores \$47,500; salaries of clerks, \$12,000; stationary and printing, \$38,000; quarters and fuel, \$15,000; clothing for distribution, \$1,550,000. In a single year they distribute nearly \$2,000,000 worth of clothing to negroes who are able to work. The next item—Commissary stores, \$1,100,000. Over \$4,000,000 in one year is wanted to feed negroes at the South, and white men pay for it. Mad-dog-bureau \$500,000, for negroes well clothed and fed. Clothing at \$2,000,000 feeding at \$4,000,000, and transporting \$1,500,000.

25. Would you secure peace and harmony to the whole country? Then vote the Democratic ticket.

THE PARABLE OF THE BOND-HOLDER.

"And he taught the people and spoke unto them a parable:"

In the paradise of the bondholder it is as with a man who borrowed from a friend \$10,000 in gold.

But when the war came and the chief council at Washington declared that debts should be paid in greenbacks, he went one day and bought with his \$10,000 in gold \$25,000 in greenbacks. And he took therefrom \$10,000, and went to his friend and said, "Here my friend, take what I owe thee."

But the other said, "I loaned thee gold, and thou shouldst repay me in gold."

"Unbeliever," cried the other, read this: "This note is a legal tender for all debts, private and public, etc., I, as a loyal man, show myself willing and obedient to the command of the chief council. Thou wilt resist the laws of the land. Thou art a copperhead and a traitor. Here take that which is thine own and go thy way."

And as the loyal man would not bury his pound, he went and bought him, with the remaining \$15,000 which he had honorably earned by his loyal trade, United States five twenty bonds, which netted him an income of \$300 in gold, or \$2,500 in the money of the land, about 15 per cent. And he clad himself in purple raiments."

And when he wished to increase his talents, he deposited his money in Wash.ington; and it came to pass that he received permission to take from the people many thousands of dollars more every year, because license was given him to put forth national bank notes at usury.

Then spoke the chief council: "This loyal fellow shall be free from all taxes and assessments."

"And," cried the republican convention at Chicago, "Laborers and taxpayers, be *assessable*—*honorable*—*honorable*! Pay this loyal man, who is in need, with *gold*—*gold*—*gold*!"

But the writer says: "He that hath ears to hear, let him hear."

Four years ago, in opposing the re-election of Mr. Lincoln, General Fremont, a Radical of the Radical, declared that his party had "needlessly put the country on the road to bankruptcy." The Radicals have enjoyed four years more of power, and what is the result! That they have needlessly brought the country face to face with bankruptcy.

The Director of the Statistical Bureau in the Treasury Department shows us clearly that on the first day of January next the balance in the Treasury will amount to but \$29,000,000, the greater part of which being trust funds will be unavailable for public purposes. So that by the 1st of February, 1869, the Treasury will be virtually bankrupt. The catastrophe of course will be evaded by increasing the public debt. But, if we pronounce upon the situation according to sound principles of finance, we are forced to see that the country is really bankrupt now, since it is to day paying its way by promises to pay. And the Radicals, who have brought us to this pass, after four years of successful war and three years and a half of peace coolly ask us to give them a new lease of power!

To all the Radical agencies for carrying on the presidential election the army with Fremont at its head, the Freedmen's Bureau, the swarms of gangsters and ex-slaves, they have added negro insurrection. Georgia is reconstructed. The Radicals are in a minority in the legislature, and there is no way of preventing her people from voting for Seymour and Blair, than by letting slip the sleuth hounds of civil war. This accounts for the movement inaugurated at Omaha the other day. Though fortunately suppressed, these disturbances are liable to break out at any moment. They will afford a fine pretext for Grant to send reinforcements of regular troops into the South, declare it under martial law, and prevent an election. What if the State should be wrapped in the flames of a negro war, with all its horrible concomitants, from the Atlantic to the Tennessee border? There will be eight electoral votes the less against the party of peace! and of progress! and of great moral ideas!

Would you secure peace and harmony to the whole country? Then vote the Democratic ticket.

A LAST WORD.

We wish to say a few words before the election to men of all parties. We ask them to consider well before they vote. We can find no fault with Republicans who vote according to their convictions of right and duty. But we would ask them to consider whether they may not be wrong in voting to keep their party in power. There are many good men in the Republican party who have been blinded by passion, and kept with their party through false representations about the disloyalty of the Democrats.

They cannot show you where the Democrats, as a party, have ever shown anything else than a strict obedience to all laws made in accordance with the spirit of the Constitution.

We ask you to view the coming election in a business light. Think you this country can go on spending untold amounts to keep an organization in power whose sole aim and object is plunder? If you do, that is the way your vote will go. But we tell you that the country cannot stand it, it is simply impossible. Then think before you vote.

OUTRAGES IN PHILADELPHIA.—During the recent meeting of the so-called Boys in Blue at Philadelphia, outrages of the most atrocious character were the order of the day. Democratic citizens were insulted, Democratic flags torn down, and citizens murdered in the street. This to occur in a city like Philadelphia will no doubt surprise the general reader, but when it is known that the Mayor is a Radical, and the police also, it will astonish no one. Thank God, their rule will soon be over. Philadelphia at the coming election will give 40,000 Democratic majority.

The Professor.—From all parts the news are cheering. Never in its history as a party, were the Democrats more closely united than now. They are impressed with the importance of the issue. They feel that if we do not win now our country is ruined forever. We feel confident that our party will triumph. Let every Democrat be at the polls. Strike for Liberty, Union and Peace.

Vote the full Democratic Ticket. Think of the blessings that will follow its triumph. Many Republicans will vote with you who have hitherto voted against you. The duty of Democrats is to see that every Democrat is out, and to watch the polls, and challenge every Republican if you doubt his right to vote legally.

SAVE YOUR COUNTRY.

Every Democrat, every Conservative in the State, will vote to save his country on the 13th of October.

If there are any just, liberal minded, patriotic Republicans who wish to do so, and want to know how, we will tell them: Vote for Charles E. Boyle for Auditor General. Vote for Gen. Wellington H. Ent for Surveyor General. Vote for Democratic Congressmen and members of the Legislature. In that way and only in that way, can you save your country.

If the Radicals succeed; if Hartman and Campbell, a Radical Congress and Legislature should be elected; Good-by to peace, to prosperity, to liberty.

We shall be involved in common ruin; and this Great Republic, once the pride and glory of the world; and presided over by Washington, will cease to exist, and other nations, struggling for liberty, will be set back centuries.

Think of this good men of all parties. Think of it and vote against a great calamity.

"STAND BY THE CONSTITUTION."—This should be the rallying cry of the opponents of Radicalism. The Constitution is the sheet anchor of our liberties, the only security we have for the preservation of order, and of the rights of property and person. The Radical dogma, that the constitution can be set aside by a congressional enactment, by the result of an election, by a noisy outbreak of popular passion, or the feverish unanimity of designing demagogues, or of an excited press, is a crime against civil government, and an insult to liberty regulated by law. The Constitution is the will of the people, solemnly and formally expressed. It stands as the bond of national life. It cannot be touched even in the way itself provides, without exposing us to the horrors of anarchy and the insane furies of contending factions. Let the men who even hint at governing "outside" of it be held evermore accused as disorganizers, enemies of social order and of popular liberty.—*National Intelligencer*.

A CARD.—A German, while residing in South America, as a voluntary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Impotence of the Urinary and Sexual Organs, and the whole train of disorders resulting from immoderate sexual excess. Great numbers have been cured by this noble remedy. Unquenchable desire in the most advanced and indomitable, I will send the recipe for preparing and using this medicine, in a sealed envelope, in any one who needs it, FREE OF CHARGE. Address, JOSEPH T. ISMAN, Station D, BIRD ST., New York City, Sept. 3m.

They made for a grand old and damp. For a soul as honest and true. If they had been wise, the dire necessity of opening a grave for one so lovely might have been avoided. Pious and benevolent friends are sure to rescue the young and lovely, the noble aged, and the ailing from continued sickness, by the timely use of Dr. J. A. ALLEY'S Hair Restorer or Dressing. It is the only physician who has used it in his own person, or who has any knowledge of its virtues; and he can describe the degree of health he now enjoys to nothing but the use of his medicine; and nothing but utter despair and entire exhaustion or old age of recovery, together with a want of confidence in all others induced him to heed the experience. To those suffering with any disorder of the lungs he prescribes a treatment he confidently believes will eradicate the disease. Price \$1.00 per bottle, or \$5 a half dozen, sent by express. Send for a circular or call on Dr. E. B. BOWMAN, Jackson, No. 250, North Tenth Street, Philadelphia, Pa. Long 700-041y.

STANGE TESTIMONY from the "Constitutional Union," Washington, D. C. HERRMAN'S GERMAN BITTERS.—Under this caption, we would call the attention of our readers to highly scientific preparation, the merits of which have been attested by hundreds of our most intelligent citizens. It has acquired a reputation over the whole country as the best tonic, health-giver, and for dyspepsia, and all other disorders arising from a disordered stomach. It has no sedative, but is purely vegetable in its character; and we can fully vouch for its curative properties, having used it ourselves.

HERRMAN'S GERMAN BITTERS contains no element of any description. How can it be a stimulant? It is a combination of the most powerful and health-giving ingredients. It is a tonic, and makes a preparation of rare medicinal value. The Tonic is used for the same diseases as the Bitters, in cases where some Alcoholic Stimulant is required. Principal Office 431 Arch St., Philadelphia, Pa. Sold everywhere by Druggists and others.

WILMANTON, PA., August 25th 1868. Having been informed by the T. & T. that you wish I would say in May for repair his protest itself (once rebuilt by you) be as near perfection as anything can be. Before signing it to you I had sent it to the original makers (Hubbard, E. & Co., Pittsburgh) who returned it to me accompanied with a heavy bill of repairs, but not improved in the least. I concluded that the way never could be made to run and that I would have to replace it with a new one. I sent you the repair order of my best lawyer, I sent it to you. After being returned to me with your improved shafts (sent to me) about \$4000.00 worth of repairs, with one re-organizing, and could have cut one half as much more had it not been accidentally run into a piece of steel, breaking half an inch of one bush—I then put your improved gummer or clambering machine upon the saw, and in three hours cut the teeth in the same condition they were when first gummer cut.

Years truly, FRED WILMARTH.
