Wardrobe-No Radical Changes In Evening Attire—A Few Points on Neckwear ing suits, but the man who would be

NEW YORK, April 19.-I received a ter the other day from a friend who on second thought I won't say t where, but it is a place where little wn as to how men who wish to and my friend wrote for tion on that point. It seems that has lately made some money, and poses to come to this city for a

and is anxions not to betray by his while he is here that he is not a ho. Yorker. Whenever I want to know anything about dress for myself I ask John T. Mitchell about it, and so I went to him before answering my friend's letter. Barring some information valuable only as specifically ansy ring some of my friend's inquiries, I have here written down what Mr. Mitchell told me, with the idea that others may be inter-The Cost of Style.

"If your friend wishes to be a really well dressed New Yorker in appearance," said Mr. Mitchell, "I do not see how he can get along without expending at least \$700, and he may easily pay out \$1,000 for his outfit—that is, if he ought to have four suits at least besides ble breasted cutaway, the trousers being his evening dress suit, which should interchangeable. The double breasted have a 'Tuxedo sack' as well as a claw hammer ccat; a Chesterfield overcoat, two silk hats, two derby hats'—Mr.

Mitchell calls them 'darbies'—"a soft traveling hat several rejections had several rejections. Mitchell calls them "darbies"—"a soft fraveling hat, several pairs of gloves, one or two cames, shirts, neckwar, collars, early sints, neckwar, early sints, neckwar, collars, early sints, neckwar, earl

BUSINESS SUITS.

In neckwear the stock has of course already got quite a foothold, but the stock of today is quite a different affair from that of the time of Beau Brunned.

The stock may or may not last after the Sonsers and other minor tragedistics. close of spring, but the tie or butterfly bow, made in white lawn or dimity or black satin for evening wear and in many patterns and colors of silks for day dress, is now considered in good day dress, is now considered in good a mysterious looking box was delivered a mysterious looking box was delivered a mysterious looking box was delivered as the state of the many patterns. day dress, is now considered in good form. The proper tie is made in such a way that it is almost impossible to imitate it in ready made form, "as it depends on that one little finishing touch of the individual for the artistic beauty which will make it a joy to the heart of the man of taste." Both the prince knot or flowing end and the graduated knot or flowing end and will continue to the four-in-hand will co two inch four-in-hand will continue to enjoy a large share of favor. Spring shirts will be chiefly made from delicate pinks, blues and heliotrope shades, plain it is to prepare congress and the public and sometimes three studs.

Smallest Race of People.

WELL DRESSED MEN.

Mr. Mitchell puts it, "Things will by and by be more snappy." It is still good form to wear your trousers creased, but the crease should not be too prenounced. It should not resemble a lmife blade too and motionless sometimes for an hour at a time and threatening with de-struction any who length at him or even stop long to gase. Another local curios-ity, though a man of average sense, is Big Headed Parker. He is a small man, but has the largest head in the world and enjoys fairly good health withal. The fact that he has sold this head to a extentific association adds not a little to

than of fancy goods. The overcoat to be worn above all others is still the Chaterfield sack. Correct day dress is and will be during the summer and fall the double breasted frock and the mented every new member of congress with his claim against the Pennsylvania railroad for \$2,000,000, of which he reserted that Tom Scott had robbed him, came violent at last and died in a lu-

will be from \$12 to \$18 a pair; his canes will be from \$5 to \$15 cach, etc. Seven harded dollars, he will find, will not be a \$2 to properly and the figure of the capital, and creeping things of the capital and

The three suits shown in the first cut given herewith and the one at the left of the second (No. 4) are the four that are considered by Mr. Mitchell to be indeed and fronts to wear open are popular, too, and pockets in nearly all suck mits are being fitted with flaps the aveil dressed New Yorker. The cutaway coat, with light arousers, above on the central figure of the first over generally are shorter.

The three suits shown in the first of sacks are O. K. for business given herewith and the one at the left of the second (No. 4) are the four that are more popular too, and pockets in nearly all sack mits are being fitted with flaps the aveil dressed New Yorker. The cutaway coat, with light arousers, should be as this and soft as possible. Overcoat sleeves are cut wider at the bottom than they were a year ago, and vests generally are shorter.

Styles In Furnishings.

In nealways the stock has a formal shared.

The three suits shown in the first of a sacks are of the first of a president. It is true that cannot a sall at the White House by some crank who insists a ment of all the subjects on which there was discussion at that time none furnished the cranks with so varied and at the White House in the days when piesidents tell many queer stories about panies in the White House in the days when piesidents were not so capefully guarded as now. In that dark period of John Tyler's administration when one when one that the subject, as the Ruglish did it one time on "popish plots."

With spasmodic energy the governors that subject, as the English did set one of the northern states of Mexico have time on "popish plots." sent troops after the Yaquis, but no one expects they will accomplish anything. There red maranders have a perfect spy system. They know to a man the strength the fearful scandals of that year and their opponents, and where it is not the three following purified the moral safe to fight they can always retreat without loss.

It is a curious fact that while these Indiana are supposed to have no communication with the white man they are well supplied with the latest and best arms, and they use them as expert-ly as the best drilled soldiers in the Exp M wield. Outside of the awful loss of life No st No. 31 in trying to exterminate them. Yet afor centuries of fighting they are today as strong, self reliant and dangerous as when they first used their arrows against the Spanish invader.

J. T. MANNING. Which Is the King of Reasts?

In discussing the question, "Which is the king of beasts?" an old African hunter says: "Come with me ton desert pool some clear moonlight night, when the shadows are deep and sharply cut, and the moon herself in the dry, cloudless dir locks like a ball. All is nearly as bright as day, only the light is silver, not go Sit down on that, rock and watels thirsty animals as they drink-buffalo, rhinceros, antelope, quagga and octasionally, if the water is large, lions too. But what has frightened the untelepe and quagga that they thraw their liesds up for a second and fade away into the shadows? The other beasts, 600, are pressible jackal, that gamin uniting things, remains in view.

But very soon the heavy mend and rumbling note of an oncoming her . The jackals have sat down their tails straight out behind t but not another creature is to be at The king drinks. Not a sound is hear He squirts the water over his back, makes the whole pool muddy and retires soleranly, leaving his subjects, who now gather round to make the best of what he has fouled. This is the king in the opinion of beasts."

An African belief is that angels spend their time pulling off the bills of mosanitoes.
