THE TARIFF FIGHT ENDED.

It Goes Through by a Vote of 182 to 195.

AN EXCITING DEBATE.

Must Take the Senate Bill or the Tariff Legislation Will be Enacted.

The long struggle over the tariff bill at Washington, D. C., came to a close at 6 o'clock Monday evening, when the House, by a vote of 182 to 195, decided to discharge the House conferees from further consideration of the bill, recede from its opposition to the Senate amendments and agree to the same.

It was a complete victory for the Senate. The House made an absolute surrender.

The result grew directly out of the sensational course of events at the Senate end of the Capitol, precipitated by Senator Hill on Friday. Up to that time the House conferees had stood firm against the Senate amendments, especially on the three disputed schedules of coal, iron ore and sugar, and the temper and pride of the House were for war—war to the end. But the indications that the Democrats of the Senate might be unable to longer hold a majority of the votes in line for even the Senate bill, and that the bill was in desperate jeopardy forced the House Democrats to immediate action.

The Democratic conferees of the House at last admitted that they were beaten and that another vote could not be risked in the Senate; that it must be either the Senate bill or no bill.

The whole question was precipitated at the caucus held just before the House convened Monday, at which, after a thorough review of the situation and speeches in favor of receding by Speaker Crisp, Chairman Wilson and others it was decided to take the Senate bill and immediately afterwards pass separate bills placing coal, iron ore, sugar and barbed wire on the free list, and by doing place the House on record and at least partially overcome the humiliation involved in its defeat.

The programme arranged in the House after an iron clad special order. The scenes in the chamber throughout the day and evening were exciting and at times sensational. The galleries were packed and the members applauded and cheered their respective leaders to the echo.

When the House met, five minutes after the Democratic caucus adjourned, there were more members on the floor than at any time since the tariff bill was passed. Immediately after the reading of the journal, Mr. Sayers, Chairman of the Appropriation committee, offered a resolution providing for the continuation of the expenses of the Government until August 24, 1894. After a brief explanation the resolution was adopted without division.

The greatest confusion existed on the floor. Members were standing about in excited groups discussing the situation, the general understanding being that resolutions to agree to the Senate amendments and probably to consider the bills for free coal, iron, sugar and barbed wire would be brought in this afternoon. Under the rules, Mr. Heard, Chairman of the committee on the District of Columbia pending action by the committee on bills, claimed the day for the consideration of business reported from the committee on the District of Columbia.

No opposition was made and the House on Mr. Heard's motion went into committee of the whole and the bill providing for a free library in the District of Columbia was considered.

LET IT COME AT ONCE.

A Western Union Telegraph Office and a Long-Distance Telephone in Patton. A movement is on foot in Patton to establish a Western Union telegraph office here and also have the long-distance telephone reach this place which will be a great convenience to people in Patton and this immediate vicinity.

The COURIER representative was reliably informed Monday that the arrangements will soon be perfected and that before the next snow flies you can communicate with the outside world. The matter was taken up some time before the great bituminous coal strike, but owing to the dull times which was brought forth was laid aside until now. The project will be carried out rapidly. The most influential men interested in Patton are at the head of the enterprise, men who have the push and energy well known in all enterprises undertaken and pushed to completion here.

The main offices will no doubt be located in the Good building as every convenience is at hand there and it is the centre of business here in a commercial way.

The lines cannot be brought into Patton any too soon. Let the good work go on.

CLEVELAND MAY VETO IT.

The Fate of the Tariff Hangs on His Decision.

TEN DAYS WILL TELL.

Whether the Wonderful Tariff Bill Will be Voted or Not.

A dispatch from Washington, D. C., dated August 14th, says that the tariff bill is expected to reach the president some time to-morrow after which he will have a week from next Monday, if he desires it, in which to consider it before returning it to the senate. It can be stated with almost absolute certainty that the bill will become a law, either by the president's signature, or by retaining it ten days without action, the presumption being largely in favor of the latter alternative.

The president has repeatedly told his friends that he could not sign the bill, but during Tuesday many of his closest personal friends have urged him to sign the bill without delay. Several reasons were urged, among them, the fact the opening of fall trade was close at hand and that a delay of ten days might result in serious loss of customs revenues. Another reason stated was that Congress was extremely anxious to adjourn. With the exception of two months the members had been in constant attendance for over a year, and it was represented that now that their work was practically accomplished it would be hardly fair to compel them to remain here in idleness when no positive good could be accomplished thereby.

He was advised to forego his scruples in the matter; sign the bill and return it with a message which would leave no room for doubt as to his views thereon. It is estimated that during the next ten days the receipts from internal revenue will probably amount to between \$10,000,000 and \$15,000,000, and the government will lose the increased liability tax to this extent. In view of the depleted condition of the treasury this argument probably will have weight with the president. It is known, though, that up to this time, the president has not changed his determination to permit the bill to become a law by retaining it the necessary ten days without action.

Married at Carrolltown.

Married, at the Carrolltown Catholic church, Tuesday August 14th at 8 a. m. Geo. Biller, of Allegheny township, and Miss Lou Nagle, of Clearfield township. The bridesmaid was Miss Mary Behr, a particular friend of the bride, and John Grimes acted in capacity of best man. Immediately after the ceremony the happy couple accompanied by their most intimate acquaintances and near relatives were driven to the home of the bride's mother, Mrs. Catharine Nagle, where an elegant wedding repast was served. Mrs. Biller is a young lady highly esteemed by all who know her and has a large circle of acquaintances in Patton, being the sister of Todd and Aaron Nagle, of this place. The groom is an honest and industrious young man who is sure, with so charming a partner, to make life a success. Congratulations.

Page Disagree.

Champion Corbett and Peter Jackson met at the Grand Union in New York Monday to arrange a match, but failed to reach an agreement. Jackson refused to fight in a southern city owing to the prejudice, while Corbett was equally determined not to fight in England. The London National Sporting club, Corbett said, would only permit twenty rounds to be fought, and he thought he could not whip Jackson in twenty rounds, but in finish fight his youth would tell. The pugilists became greatly excited during the discussion and almost came to blows. Jackson is willing to fight in the north, but it is believed there is little prospect of a match being arranged.

In a Special Car.

Superintendent Palmer's special car arrived in Patton Monday about four o'clock which conveyed the following people: A. G. Palmer, son Kennedy and daughter Dorothy, of Jersey Shore, Hon. James Kerr, wife and four sons, Albert, Capt. Fred, Walter and Chester, all of Washington, D. C., Wright Bigler, of Clearfield, Guy Schultze, of Jersey Shore, and Geo. S. Good, of Lock Haven. The party, with the exception of G. S. Good, continued on their journey to Cresson after supper and passed through Patton later in the evening on their way home.

Two Well Known Young People of Patton Made Happy.

The marriage of Mr. Thomas Quinn to Miss Sarah Mulhatten was solemnized in St. Marys Catholic church, Patton, Sunday morning, August 12th, at 9:30 o'clock, the Rev. Father Marcarus officiating. Immediately after the ceremony the quartette drove to Loretto, returning to Patton at 6 p. m., where they will remain the guests of Mr. and Mrs. Leadbetters, of Magee avenue.

The bride, a handsome brunette, is exceedingly popular among a large circle of acquaintances and Mr. Quinn is to be congratulated upon the choice of so charming a life partner. That the many friends of the happy couple were interested in their future success in life was attested by the large number who called immediately after their return to extend congratulations. The reception which was given on Monday evening at the residence of Mr. Leadbetters was very largely attended. Dancing was the principal feature of amusement. An elegant repast was partaken of by the guests and at a late hour they dispersed wishing Mr. and Mrs. Quinn a happy and prosperous journey through life.

After the ceremony Mr. Bailey and wife accompanied by their attendants drove to Carrolltown and Hastings remaining at the latter place for dinner. Upon their return to the home of the brides mother, Mrs. Bridget Murray, they were serenaded by the calicum plan band who are always on the alert to render their services for such momentous occasions.

M. E. CHURCH DEDICATED.

At Patton on Sunday, August 12th, 1894.

DR. MONROE PREACHES.

To a Large Audience—Considerable Amount of Money Raised.

The new Methodist Episcopal church at this place was dedicated to the service of Almighty God on Sunday, August 12. The services began on Friday evening, the pastor, C. W. Wason, occupying the pulpit, preaching a very able and eloquent sermon from Revelations xiv, 6; theme, "The Everlasting gospel."

On Saturday evening at 7:45 the Rev. E. T. Swartz, pastor of the Simpson Methodist Episcopal church of Altoona, preached to a large and attentive audience from Matthew vi:10—"Thy will be done on earth as it is done in Heaven." Theme, "Faithfulness to Duty." The sermon was an intellectual treat and greatly appreciated.

On Sunday morning at 10:30 Rev. D. S. Monroe, D. D. presiding elder of the Altoona district, preached with his characteristic eloquence and force from I Cor. iii: 8; theme, "Labor and Reward." The doctor's masterly sermon was listened to with close attention by the large audience that filled the church. At the close of his sermon, the doctor turned his attention to the apparently hopeless task of raising \$1,100, the amount necessary to clear the church of debt before dedicating. At the morning service \$600 was secured and the balance—\$450—at the evening service. When it is remembered that the mining interests of this section have been idle for almost eight months, causing almost complete paralysis and stagnation of business, the generosity and liberality of the people of Patton is simply phenomenal and too much cannot be said in praise of the spirit of self-sacrifice shown in their willingness to cheerfully take upon themselves the payment of this large debt under existing circumstances.

Rev. Patton Moore, pastor of the new Methodist Episcopal church at Curwensville, occupied the pulpit in the evening taking his text from Job xiv:14—"If a man die, shall he live again?" Theme, "Immortality of the Soul." The sermon was able and commanded close attention. At the close of the sermon the church was dedicated, Rev. Dr. Moore conducting the services. The church is 32x12, Gothic in style, and cost \$2,250, is nicely furnished throughout, and has a seating capacity of 350. A. E. Patton and wife, Mrs. C. S. Russel, of Curwensville, and Mrs. W. H. Dill, of Philadelphia, were here in attendance at these services.

The credit for the wonderful success of this enterprise is due to the liberality and assistance of General John Patton and A. E. Patton, who are so largely identified with the interests of our thriving town and noted for their generosity and enterprise. Second, to the untiring efforts of the pastor, Rev. C. W. Wason, who in the face of seemingly insurmountable difficulties and discouragements carried this enterprise to success. Third, to the ladies of Patton, who assumed \$300 of the debt, and who have already paid \$100 of the amount. To the people of Patton, who with one accord gave their money cheerfully and freely to meet this indebtedness; and last, but not least, to the board of trustees, who labored early and late to win success. The church is a model of convenience and beauty, a source of great pride to our people, and a credit to the town.

Patton, with its school building—the equal of any anywhere—and its church privilege in keeping pace with the rapid advancement of the town, which is destined to be the metropolis of this section.

A Useful Patent.

The COURIER representative's attention was called on Tuesday to a builder's elevator which shows a fine specimen of ingenuity. It is on the plan of a small car which runs on a track and can be placed at any part of a building. The car is pulled to the top of the building by means of a crank and pulley and can be operated by a single man very easily. The patentee, J. B. McFeely, who lives at Spangler, claims it will do the work of three men and a horse and the beauty of it is that it can be adjusted to any height or at any place. It is made principally for hauling up brick, mortar, etc., but can be used very well for hauling up large timbers, etc. The elevator is the property of McFeely & Wyland, of Spangler.
