General Harrison's Literary Work.

It is announced that Ex-President Benjamin Harrison is engaged in writing a series of magazine articles for the Ladies' Home Journal, in which periodical they will begin in the December number. The series will be called "This Country of Ours," and will consist of ten articles and probably more. The papers are being written by General Harrison especially for women, to meet a growing, widespread desire on their part to intelligently understand the workings of our government and the great national questions. It will be the aim of the articles to explain in the clear and concise style for which the ex-president is famous, just what the United States government means; the origin and meaning of the constitution; how laws are enacted and enforced; what the powers of the president and other officials are; what the judiciary system means; how our foreign relations are brought about and their meaning; how congress and the senate legislate—in fact, a complete explanation of the government told in a popular way. General Harrison writes the articles from the standpoint of a citizen who understands his subject. They have no bearing on politics whatever. While directly intended for women, the articles will naturally have a much broader scope and likewise interest men, and especially young men.

Ladies are incessant in their praise of Toilettes as a reasonable and reliable guide to what is fashionable. There is not a single article for ladies' wear that does not occasionally find a place in its pages; and the wants of the little ones are regularly attended to, from the baby to the girl just budding into womanhood. The November edition, lately received, which comes to us very much enlarged, and if possible more stylish, amply illustrates these comments in its rich and handsome models for all kinds of winter. It contains among many new changes, four beautiful color plates, and an entirely new cover design, likewise lithographed in colors, which render the book more attractive and artistic looking than ever. Evening dresses are especially represented in admirable variety and novel designs which our lady friends pronounce unique and perfect. It can be obtained from all newsdealers, or direct from Toilettes Publishing Co., 128 West 33d street, New York. Single copies 25 cents; yearly subscriptions, \$2; six months, \$1.

are finding it profitable to buy their garments ready-made, more and more so every year; because Ready-made Clothing isn't what it used to be. Now it gets just as much care and attention as custom-made clothes. The best cloth is used, the best cutters are employed and the best tailors put it together. Of course an exact fit isn't always possible, but a slight alteration makes a fit perfect. Even a merchant tailor has to make alterations. I can save a man at least \$10 on a suit of Clothes. Suppose you try me next time instead of the merchant tailor.
