

**FARMING NOTES**

Of Interest to the Farmers Who Read the "Courier."

In a pound of alkali clover seed there are 708,000 seeds; of white clover, 740,000; of timothy, 1,170,500 seeds; of red clover, 279,000 seeds.

The finest butter imported into the English and French markets is said to be made in Northern France, and is known as Normandy butter. Its quality is ascribed to the breed of cattle, pastures and method of manufacture.

The hoofs of sheep that are pastured on soft ground should be occasionally examined, and, if necessary, the hoofs should be pared. On stony ground the hoofs are worn down more. It is the soft and damp ground which frequently induces foot rot in the flock.

When a pasture has so deteriorated that it will not be profitable to use it for cows it will serve for sheep, if the sheep are allowed grain also, but next fall such pastures should receive a heavy dressing of wood ashes after being plowed and unharrowed. It does not pay to use land for pasture unless something can be had from it.

If you have any fear that the potatoes you are going to plant are affected with scab, soak them in a solution of corrosive sublimate (two ounces dissolved in hot water. Let them remain two hours or more. Then cut and plant. The poison must not be allowed to touch any raw or sore place on the hands.

Oats contain the elements of the tissues of young animals most perfectly balanced, and, with milk, promote healthy growth. Dry oats are an especially excellent feed for young calves; and to induce them to eat them they may at first be slightly moistened with milk. If put into milk the calf may be choked.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by C. W. Hodgkins, Patton Pharmacy."

For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that every family should be provided with. For sale by C. W. Hodgkins, Patton Pharmacy.

**L'Art de la Mode.**

L'Art de la Mode comes like a breath of summer with its designs in many airy styles and colors. Seven exquisitely colored plates show the latest things in design, color and material. Over seventy black and white sketches present designs for every kind of costume. Nor is it in illustrations alone that L'Art de la Mode shows its excellence. In the series of articles now running "How to Win Success" a leading Boston dressmaker tells the reasons of her success in a signed letter. A new department of book criticism is also inaugurated. For sale by all news dealers. Send 35 cents for single number, or 2 cents for a sample copy to the Morse-Broughton Co., 3 East 19th street, New York.

**The Toilettes.**

The June issue of Toilettes contains many new and delightful features in addition to the usual great variety of latest styles. Quite a conspicuous portion of the number is devoted to cycling and tennis costume, made in Paris expressly for Toilettes, and proving that graceful and elegant wearing apparel is not inconsistent with every needful allowance made to personal comfort while indulging in these beautiful sports. Other features of special interest just now are entire pages devoted to new summer blouses; children's garments and colored plates; besides specimens of the latest Parisian millinery by Virot, Felix and other establishments of world wide reputation. Exclusive privilege has been given Toilettes, as the leading American fashion magazine, to illustrate in its pages all the latest novelties of the most famous Paris creators of dress. A large staff of artists in Paris whose original pen and ink drawing are reproduced in Toilettes, keeps its readers fully informed on the latest development of fashion. The history of celebrated French dress making establishments is continued and a sketch of the Maison Rouff, with portrait of the head of this firm, is given in this issue. A better number of any American fashion magazine has never been published than the June issue of Toilettes. 25 cents at all news stands, for \$2.00 per year. The publishers are at 128 W. 23d street, New York.

**How to Treat a Wife.**

First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health.—Pacific Health Journal. For sale by C. W. Hodgkins, Patton Pharmacy.

**Robbed the Sheriff.**

Some time on Saturday night or early on Sunday morning thieves gained an entrance through a window into Sheriff Conlter's residence in this place. They had secured a suit of clothes and an overcoat, but from some cause left them behind. They went through a value and took a lot of cigars, and also a pocket book containing 50 cents belonging to a girl. It is believed they were scared off by David Clement coming home about 1 o'clock, and putting the horse away in a stable near where the sheriff resides.—Cambria Herald.
