The Editor's Platform.

This being the time for platforms, a certain country editor announces the following as representing his objects and aims: "Our aim—tell the truth though the heavens fall. Our paper—of the people, for the people, to be paid for by the people if we are lucky. Our religion—orthodox, with a firm belief in hell for delinquent subscribers. Our motto—Take all in sight and rattle for more. Our policy—to love our friends and hate our enemies. If thine enemy smite thee on one cheek swipe him with haste and dexterity at the butt of the most convenient ear. What we advocate—one country, one flag and one wife—at a time. Our object—to live in pomp and oriental splendor—and when we die we want to be buried in a pitch pine coffin with our face downward, with a clam shell in each hand so we can dig to where we belong."

HOW DOLLARS ARE MADE.

As a rule they are coined at the United States Mint—that is one way. Another way to make dollars is by saving. You can save your dollars by buying your SHOES of us.

We Don't Care to Boast

As to having the largest stock of Shoes, as we have not been around to examine other stocks, and therefore might be telling untruths. The thing we aim to avoid in all our advertisements is falsehoods.

When We Boast

We like to boast about something we know to be facts. Our boast is that we are able to knock out all competition when it comes to low prices, quality considered.

Better Goods, all New Stock.

LADIES

READ THIS.

I am fully convinced that the Ladies of Patton appreciate and demand that which is up to date. What part of their attire are they most particular about? Why their Shoes of course. That is why I have put in the elegant line of Shoes which are positively the very latest out. Such as the 20th Century, Low Cut, Large Button; also same thing in lace; also a large assortment of Oxfords in both tan and black, prices to suit all. Ask my clerks to show them to you. I know you will be pleased.

At no time in the history of Patton has there been such a large and magnificent stock of

Dry Goods

as are on my shelves. I haven't nearly enough room to display them, consequently there are many pretty things in my stock which I know you have never seen. Just think, beautiful wash Silks at 20c. per yard—can't be beat in Phila. You will find my clerks only too glad to have the pleasure of showing these goods to you.

It is a well established fact that nothing but the very choicest

Groceries

are on my shelves which I aim to sell at the very lowest prices possible.

My stock is complete. There is scarcely an article in use that cannot be had in my store.

I WOULD ALSO

Like to state that if at any time you desire anything from the City I will cheerfully get it for you at exactly the same price you would pay if you were right in Wanamaker's store yourself.

Kindly give me a call and be convinced that I am selling the best goods for as little money as you will find in large cities.
