Squibs From Lloydsville.

Bonner, of the Lloydsville house, hid himself in company with his estimable wife to Ebensburg, via Patton, on Friday last, spending some time at the latter place among his numerous friends. Among our original characters, of which class we have quite a collection, we must mention that Prof. J. W. Scott, the celebrated geologic freak and promoter of socialistic ideas, is getting these two sciences considerably muddled, and is in consequence quite entertaining. Nevertheless he has been very successful in locating valuable veins of coal around here, and he predicts the development of the same in the near future.

LADIES

READ THIS.

I am fully convinced that the Ladies of Patton appreciate and demand that which is up to date. What part of their attire are they most particular about? Why their Shoes of course. That is why I have put in the elegant line of Shoes which are positively the very latest out. Such as the 20th Century, Low Cut, Large Button; also same thing in black, also a large assortment of Oxfords in both tan and lace, prices to suit all. Ask my clerks to show them to you. I know you will be pleased.

At no time in the history of Patton has there been such a large and magnificent stock of

Dry Goods

as are on my shelves. I haven't nearly enough room to display them, consequently there are many pretty things in my stock which I know you have never seen. Just think, beautiful wash Silks at 20c. per yard—can't be beat in Phila. You will find my clerks only too glad to have the pleasure of showing these goods to you.

It is a well established fact that nothing but the very choicest

Groceries

are on my shelves which I aim to sell at the very lowest prices possible.

My stock is complete. There is scarcely an article in use that cannot be had in my store.

I WOULD ALSO

Like to state that if at any time you desire anything from the City I will cheerfully get it for you at exactly the same price you would pay if you were right in Wanamaker's store yourself.

Kindly give me a call and be convinced that I am selling the best goods for a little money as you will find in large cities.

GEO. S. GOOD.
