### OF INTEREST TO MINERS.

Office of United Mine Workers of America, District No. 7. Gallitzin, Pa., March 1.—At a convention of miners employed in that portion of the bituminous regions shipping coal to the Eastern and Seaboard market held at Altoona, Pa., February 15-17, the interests of miner and operator were thoroughly discussed and in order to bring about better conditions for all concerned, it was unanimously agreed by the representatives to said convention to invite the operators, shipping coal to said market, to meet the representatives of the miners of the territory above named in joint conference in the city of Altoona on Tuesday, March 22, 1898, for the purpose of formulating plans whereby the interests of both miner and operator may be advanced by mutual agreement and thus do away with the strife and uncertainty that have for years disturbed the coal trade of the district above named. You are therefore invited to be present or have a representative at said conference.

Yours respectfully,

### MUCH EXPECTED.

From the Coal Miners' Convention at Altoona, March 22. President George Harris, of the State bituminous district, number two, was in Altoona last Monday, looking up a suitable location for the district headquarters. In conversation with a Tribune reporter Mr. Harris said that Phillipsburg would likely be selected as the officers' headquarters because of that town's central location in the district.

Speaking of the miners' meeting, which will be held there March 22, Mr. Harris said: "We expect a great deal of good to result from this meeting, since we desire to meet the operators of the district there and talk things over. If then they refuse to accede to just demands, the consequence will be on their own heads."

"We have been doing great work since the convention of the 15th inst. Many new locals have been organized, and many more will be in good condition by March 22d. National President Hatchford has sent organizers into the Maryland, Virginia, and West Virginia fields and encouraging reports come from all these fields. Representatives from all these fields will attend the coming convention and we expect to form a strong tri-state organization."

"By April first we will be in position to enforce our just demands, should the operators refuse to meet us half way."

Wood Company Organized. At a meeting of the projectors of the company held on Tuesday afternoon in office of Parnell & Cowher the Wooden Manufacturing Company of Patton, Pa., was organized and steps were taken to procure a charter. The company will be incorporated with a capital stock of \$12,000, and will engage in the handle and spoke business and also in the saw and planing mill business.

They have procured from the owners of the patent the exclusive use of the Platt Patent Machine for the manufacture of spokes handles, and all irregular shaped articles made of wood, the owners of the patent also being members of the company. If these ventures are successful the company will branch out into other wooden manufactures. The company has arranged to buy the B. F. Wise saw and planing mill near the P. R. R. station and will thoroughly remodel and refit this plant to suit their needs. When the plant is in full running operation it will give employment to about 60 men.

The following are the officers elected at the meeting of the stockholders: L. M. Patterson, president; S. W. Worrell, vice-president; J. E. Parnell, secretary; J. W. Luffler, treasurer; L. M. Patterson, S. W. Worrell, M. B. Cowher, B. F. Wise, H. S. Lingle, directors. The following are the principal stockholders: L. M. Patterson, S. W. Worrell, B. F. Wise, J. W. Luffler, J. E. Parnell, M. B. Cowher, W. C. Lingie, H. S. Lingle, W. C. Hubbard, Geo. E. Prindle, all of Patton; Geo. S. Good, of Lock Haven; J. H. Parnell, of Houtdale, and others.

Whooping cough is the most distressing malady; but its duration can be cut short by the use of One Minute cough cure which also the best known remedy for croup and all lung and bronchial troubles. C. W. Hodgkins, Patton Pharmacy.
