

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passages is often, by mistake, attributed to female weakness or womb troubles of some sort. The error is easily made and may be as easily avoided. To find out correctly set your urine aside for twenty-four hours, a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. It would be able to finish Monday night. The work on the Brooklyn has been fully completed and her 8-inch turret guns will throw a much greater distance. The Columbia has finished painting and coaling, and it is in splendid condition.

Fort Monroe is being improved rapidly. The big electric search light is now in operation. The emplacements for the rapid-fire gun and disappearing guns will be finished this week. The Brooklyn, Columbia, Massachusetts and Minneapolis, the ships now here, are superior to the best that Spain can do in making up a similar squadron. She has the Viscaya, Infanta Maria, Pelayo and Almirante Oquendo disposable for such a purpose. Their combined displacement is 34,000 tons against 43,100 tons in the American squadron. The average horsepower of the United States vessels is 12,500, and that of the Spanish 11,750. The average rate of speed of the four United States ships is 21 1/2 knots per hour, while the Spanish fleet has only two 12-inch guns. Of 12-inch guns, our squadron has four and of 8-inch guns, 14. Spain's four vessels have five 11-inch guns and the rest are mainly 6-inch.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by Patton Pharmacy, C. W. Hodgkins.

Another Passes Away. On Wednesday, March 30th, Westover lost another of its oldest citizens in the death of James R. Westover, aged 52 years, 7 months and 7 days. Mr. Westover was a great sufferer during his illness, which extended over quite a long period of time. In 1866 the deceased became a member of the Westover Baptist church, and on the 6th day of December, of the same year, he was united in marriage to Miss Mary C. Purdy. Five children were born to them, four daughters and one son, viz: Van P., Mrs. Esie Keim and Mrs. John Kitchen, of Westover; Mrs. Elmer Fry, of Texas; one daughter dying in infancy. Besides the children living there are nine grandchildren to mourn the sad demise. The funeral services were conducted by Rev. Patterson, of Jersey Shore, Pa., interment being made in the Westover cemetery. The bereaved children have the sympathy of a large community.

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a household name for "DeWitt's Little Early Risers," and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles. C. W. Hodgkins, Patton Pharmacy.

Mountain House Closed. The Johnstown Tribune says that word from Cresson says that the rumor published some days ago that the Mountain house would not be opened for the season of '98 was confirmed Thursday, when orders were received at Cresson from headquarters authorizing the sale of all the stock, vehicles, etc., connected with the famous resort. All the employees but two have been discharged. The two who are retained are watchmen—one for night and one for day duty. Nothing is said of the report that the place will be turned into a military academy.

A torpid liver robs you of ambition and ruins your health. DeWitt's Little Early Risers cleanse the liver, and constipation and all stomach and liver troubles. C. W. Hodgkins, Patton Pharmacy.

DeWitt's Little Early Risers. The famous little pills.

WAITING FOR ANOTHER SHIP.

When the Texas Arrives the Flying Squadron Will be Completed. Commodore W. S. Schley on Monday notified the authorities at Washington that with the arrival of the battleship Texas, the flying squadron would be ready to move in an hour's notice. The most formidable squadron of fast fighters ever gotten together is complete with the exception of the Texas. The cruiser Minneapolis began at noon of that day to change her coat and the painting would be finished Tuesday afternoon. Her bunkers are filled with coal, and like the other vessels of the fleet she is fully ammunitioned. Commodore Schley expected the Texas within the next 48 hours. Despite the enforcement of the Sunday law in Newport News, which has stopped Sunday work on the battleship Kearsage and Kentucky, the three divers continued work on the bottom of the battleship Massachusetts, and made such progress that Captain Higginson believed they would be able to finish Monday night. The work on the Brooklyn has been fully completed and her 8-inch turret guns will throw a much greater distance. The Columbia has finished painting and coaling, and it is in splendid condition.
