From Republican Traveler, Arkansas City, Kan.

Pilgrimages to some shrine of St. Vitus to cure the disease known as St. Vitus' dance are no longer made. The modern way of treating this affliction is within reach of every household, as is shown by the experience of Karl A. Wagner, the dieven-year-old son of George Wagner, of 515 9th St., Arkansas City, Kan. The father tells the story as follows:

"Over a year ago," he says, "Karl was taken with St. Vitus' dance and continued to grow worse during five months he was under a physician's care. His tongue begans paralyzed and we could not understand a wort he jesid. He became very thin, lost the use of his right leg and seemed doomed to become a hopeless invatid. We had about given up hope when Dr. Williams' Pink Pilks for Pale People were recommended to my wife by a lady whose daughter had been cured of a sixular affliction by the pills.

effectmal and permanent, and I feel at isfied that no other medicine could have produced so marvelous a result. We feel rejoised over the restoration of our son, and cannot help but feel that Dr. Williams' Pink Pflis for Pale People are the most remarkable medicine on the market."

No discovery of modern times has proved such a blessing to mankind as Dr. Williams' Pink Fflis for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health in the enhanced patient when every effort of the physician proves unavailing.

These pills are sold in boxes at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail known Dr. Williams' Medicine Co., Schemestady, R. L.

Russian Gold Production.

Russia holds the third place among gold-producing countries. Gold is only found in large quantity in the Ural mountains and east and west Siberia; the very limited output of washed gold n Finland is not of any importance. It is only patural that the Russian government should do all in its power advance the gold-mining industry. Its plan is to train up a staff of mining engineers, and to let these experts visit North America, south Africa and Australia. It is also proposed to attempt a second extraction of gold from some delphia Record.
