The Baltimores have been more unfor-tunate in the matter of postponed games than any other club in the League, and owing to the extent and the econ pactness of the schedule it is not likely that they will be able to get all of them in. It was a happy thought of Manager Baraie, of Brooklyn, to put Lachance at short dold. There is little doubt now of

his ultimate success in this very difficult position, for he handles himself well and isn't afraid to take chances, no matter how they come his way by a full grown eagle in a day.

Too many players and uncertainty as to the best way to place them seems to be the chief trouble with the Londsville team. As soon as a final combination is selected the Kentuckinas are expected to take a better position than in the past.

The Cleveland team appears to be as strong as ever, but Cuppy is undoubtedly missed. Whether this groat pitcher will ever recover the use of his arm or not is a problem that Captain Tebean could like to have solved right away.

The Baltimores have been more unfortunate in the matter of postpened games.
