A Remarkable Cure of Chronic Diarrhoea.

In 1882, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after that I bought and took a 50-cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, Henry Steinberger, Allentown, Pa. Sold by Patton Pharmacy, C. W. Hodgkins.

What's the Best Method of Sterilization.

One of the simplest and most thorough methods of sterilizing when it can be used is by means of heat. One of the difficulties in the use of this method is that the articles may be spoiled, especially where the heat is long continued. Baking or placing articles in dry heat for any length of time is not only an unreliable method, but attended with the danger of fire if a degree of heat is sufficiently thorough to sterilize them. Boiling or steaming is objectionable because most things would be rendered useless from the contact with moisture. Experiments have proved that hot oil is one of the best sterilizers known, especially for instruments.

Retained the Sale.

A young lady from the city was trying to sell a pair of shoes. She was standing in a plantation store one morning last week when an old colored woman, apparently arrived in her Sunday clothes, entered the store and pointing to a bottle of German cologne on one of the highest shelves, asked: "What dat?" "That's cologne, auntie." "Well, I'll take it." Delighted at having made a sale in such a short time the young lady busied herself in getting down the bottle and dusting it for the customer's inspection, at the same time commenting upon its excellencies with the volubility of an experienced auctioneer.

VALUABLE WARE.

At the Saverton sale, in London, a few years ago, a service of old Sevres ware was sold for \$5,000. The genuineness of this set was proved by certificates issued to the owners by the French government, writes F. Vizetelly in Godey's. But by far the most valuable service turned out at the Sevres pottery (in 1778) was made for the Czar, Czarino II of Russia and consisted of 745 pieces, which cost \$65,000. The Sevres ware, old or modern, is usually light in color and daintily decorated with flowers or figure subjects tastefully arranged. The porcelain itself, although of good texture, is inferior to that of the English and Japanese. Decorated pieces generally bear pictorial panels on white ground, surrounded by frames of gilt scrollwork. These, as well as the tableware, are quite in keeping with the national character. Although the Sevres works are still in operation, they are kept busy in copying and reproducing the old pieces instead of increasing their reputation in the manufacture of the ware which made them famous.
