After Gen. Miles leaves Porto Rico, Gen. Brooks will be the military governor of the islands. There was a grand review of the 4,000 soldiers encamped at Chickamauga Park last Wednesday.

NEW YORK'S GREAT NAVAL PARADE.

GRANT'S TOMB SALUTED.

Amer. Clads of Sampson and Schley Receive a Rejoicing - Welcome From the People - Most Impressive Marine Spectacle in Our Time.

The fleet of Admiral Sampson was seen off the Highlands Saturday, and soon the bay began to open up with gaily-decked vessels of all kinds from the ocean liner to small rowing craft.

The Navy Yard tug Nina, which put out to sea Friday afternoon to intercept the fleet, returned, passing the Narrows at 8:10 o'clock Saturday morning. The fleet approached the Narrows in the following order: about a cable's length apart, New York, armored cruiser, flagship of Admiral Sampson.

The New York was flying Admiral Sampson's blue flag with two white stars. Her decks were crowded with her white-clad crew, who lined up cheerily observing the animated scene.

The parade was commenced at the Narrows at 3 o'clock, was continued at Tompkinsville, and at 10:30 the Texas, the last of the shore batteries, took her place in line the full length of which extended from Governors Island to Tompkinsville. The fleet then sailed up the harbor toward the tomb.

Slowly the fleet steamed onto One Hundred and Thirtieth street and there the New York turned to the left at 11:30 o'clock and started on down the river. The salutes were fired in a bomb one more but her guns were silent, although those of the Wendell battery boomed out many times.

The salutes on shore were the "real thing" in New York Monday. If on the band of his hat was printed the name of an American ship, all in eight words for the asking. Off Tompkinsville where the recently returned fleet of ships are anchored throughout the day.

MUSTERING OUT OF TROOPS BEGUN.

WAR CONTRACTS CANCELED.

Government Discharging Great Numbers of Engineers and Surveyors - Transports Being Disposed With.

That the government expects the peace commission to satisfactorily arrange the conditions of peace without the need of further hostilities, is shown by the active manner in which the various departments are beginning to reduce expenses and decreasing the number of employees necessitated by the war.

Retrenchment in nearly all branches of the army is following those upon the cessation of hostilities. In the Ordnance Bureau the force at the various depots is being reduced in all cases where this can be accomplished without detriment to the service.

Before and during the war large numbers of contracts were made with civilians for the supply of material. In many cases these were made conditional so that they could be terminated within a few days after the cessation of hostilities, and the department has in every case availed itself of this privilege.

The famous cavalry leader now in command of the troops at Montauk Point, L. I., is departing as rapidly as possible with such of the transports that were chartered and for which there is now no necessity. Considerable labor is involved in this work as a board of survey has to be appointed to determine the various incidental questions that arise pending the return of the vessels to their owners.

Orders were given last week for the return to their state rendezvous of the First Illinois cavalry and the First Maine infantry now at Chickamauga, and the Second New York infantry, now at Fernandina, Fla. The First Illinois is ordered to Springfield, Ill., and the Second New York to Troy, N. Y. These regiments were mustered into the military service of the government at the outbreak of the war at the places mentioned and their return there is accepted as conclusive evidence that they are to be mustered out.

Similar orders will be issued from day to day to the other volunteer regiments selected for mustering out. Official information on the subject is obtainable at the war department in advance of the issue of the orders. It is said, however, that the Third Cavalry, the Third Alabama infantry and the First Maryland infantry are among the first already selected for mustering out.

TERMS OF PEACE.

No Islands to Be Given to Other Powers and American to Have Trade Connections.

President McKinley has decided upon his policy regarding the Philippines. A Cabinet Minister who saw the President said that the basis of the instructions to our Peace Commissioners will be substantially as follows: First—The retention by the United

States of the island of Luzon, on which the city of Manila is situated. Second—Equal trade facilities with Spain in the remainder of the Philippine group. Third—None of the islands to be disposed of to any foreign nation.
