The tenants, for some reason unknown to their neighbors, deserted the house a few weeks ago, and within a day or two of their departure the boys of the neighborhood had appropriated it. When they tired of using it as a playhouse they built a bonfire on the second floor and ran away. The firemen broke open the door and extinguished the blaze before it had seriously damaged the house. Within a week the house looked as if it had been struck by a cyclone. All of the gas fixtures and all the lead pipe in sight had been stolen, doors had been wrenched off and everything in it which was detachable and of any value had been carried away. It was a total wreck inside, and when the owner returned to inspect his property he was amazed at the condition in which he found it. The house had literally been torn to pieces, although almost within call of a police station. It had been so weakened that it was in danger of falling, and the owner was ordered to tear it down. The man who owned the house wants damages from some one, and he is inclined to think that the city is responsible for the loss.—New York Sun.

> An 'Anti-Scandal Longue. Vanity Fair informs us that we have an Anti-Schandal League in our midst Its promotors, with a shrewd knowledge as to the most promising field for their labors, are circularising "Society" by the medium of blood red envelopes containing pale green slips, urging the recipients to membership. Its methods are unimpeachable, but may give rise to unpleasantness over the teatable. Those who hear a slander uttered are urged to "combat it pleasantly" and, "if possible, to enlist the offender as a member of the eague." But when everyone has joined what is "Society" to talk about? Appropriately, the organizers rejoice in the name of Morman-Concords.

R. G. Dun & Co.'s weekly review of R. G. Dun & Co.'s weekly review of trade reports as follows for last week. Thanksgiving in 1898 means more than for thirty years. The 'harvest home' has never recognized larger crops on the whole in this country, the general prosperity is attested by the largest volume of business ever recorded, the people's versiet has given reason to hope that the nation's honor will not again be in perit and a war will not again be in peril, and a war lot matched in history for swiftness of success with smallness of loss has brought more perfect union than ever between North and South, and closer bonds than ever with "kin beyond the sea," ending with the most important increase of territory since California

was added to the union.

There has been more liberal buying of cotton goods in part because of last a sixteenth, while the export demand supports heavy brown goods, and all are helped by the feeling that cotton has probably seen its worst. There is slight improvement in reorders for men's spring woolens, though neither jobbers nor clothiers have yet been buying freely. The bulk of the de-mand is for medium plain fabrics, ox-pecially serges and clays, but high grade goods are quiet. More is doing in deeps groups but not security for grade goods are quiet. More is doing in dress goods, but not enough for producers. Sales of wool have been 35, 2500 pounds for four weeks, including about \$,000,000 for export, but mostly at concessions which have been this week a little increased on

Pittsburg are in heavy demand at \$15.25 and steel bars at \$15.15 the Edgar Thomson works have started on ralls with three to four months orders ahead. Chicago works have booked further orders for piates, including one for 1.500 tons, and statements made by the Iron Age shows that bids for the 55.000 tons needed in the Cockgardie pipe lines, with other heavy export contracts, are hindered only by an ocean freight syndicate.

Wheat has again advanced a shade, though for spot only ke during the week, while western receipts are heavy; for four weeks have been 3x.034.291 bushels, against 29.119.104 bushels last year. The Atlantic exports, flour included, have been 3.551.876 bushels last year, making for three weeks of November II.642.066 bushels, against 15.195.209 bushels last year. While Atlantic shipments exceed lats year's, a decrease from the Pacific affects this market but little. Moreover, corn exports continue heavy, in four weeks lossing stay year, lifting the price 1c and showing a continued demand for nearly five months almost equal to the unprecedented demand of last year. Fallures for the week have been 188 in the United States against 25 last year, and 21 in Canada, against 25 last year.
