Two Pained Questions Answered. What is the use of making a better article than your competitor when you cannot get a better price for it? Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know that your make is the best? If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgement on them and use only the better one. This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's cough Remedy. After the job was delivered a friend called his attention to the following line in the closing hymn: "Jesus reigns and Heaven rejoices!" The preacher nearly fainted, but he doesn't criticize the newspaper half so much as he used to.—Ex.
