Course through the veins, feeds, nourishes and sustains all the organs, nerves, muscles and tissues of the body. Hood's Sarsaparilla makes warm, rich, pure blood. It is the best medicine you can take in winter. It tones, invigorates, strengthens and fortifies the whole body, preventing colds, fevers, pneumonia and the grip.

**Hood's Sarsaparilla**  
Is America's Greatest Medicine. Price 25.  
Prepared by C. I. Hood & Co., Lowell, Mass.  
Hood's Pills cure Sick Headache. 25c.

**Cataract Cannot be Cured**  
With local applications, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hood's Sarsaparilla is taken internally, and acts directly on the blood and mucous surface. Hood's Sarsaparilla is not a cathartic. It was prescribed by one of the best physicians in this country for a patient who had a cataract. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surface. The perfect combination of the two ingredients is what produces the wonderful results in curing cataract. Send for testimonials, free. J. C. HENRY & Co., Props., Toledo, O. Sold by druggists, price, 25c.

**Don't Tobacco Spit and Smoke Your Life Away.**  
To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No. 7. No. 7 is the wonder worker, that makes men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

Blind people are more numerous in Spain than in any other country. Like Superior is larger than Scotland.

**The Smallest Island in the World.**  
Rockall is, perhaps, the smallest island in the world. It is situated in the Atlantic over 300 miles west of Scotland, and is a mere rock about 60 feet high and 225 feet round, arising from a reef of sand. The rock is basalt and granite, very magnetic. It is haunted by sea-birds, and the mackerel of the surrounding seas are very fine. Of course, it was never inhabited, and is very seldom visited, owing to the difficulty of landing on it.

**Not So Common.**

"No, no; you mustn't say that; they belong to the best society. You should say, they kept maniacled."—Boston Journal.

## A LIVING WITNESS

**Mrs. Hoffman Describes How She Wrote to Mrs. Pinkham for Advice, and Is Now Well.**

DEAR MRS. PINKHAM—Before using your Vegetable Compound I was a great sufferer. I have been sick for months, was troubled with severe pain in both sides of abdomen, sore feeling in lower part of bowels, also suffered with dizziness, headache, and could not sleep.

I wrote you a letter describing my case and asking your advice. You replied telling me just what to do. I followed your directions, and cannot praise your medicine enough for what it has done for me. Many thanks to you for your advice. Lydia E. Pinkham's Vegetable Compound has cured me, and I will recommend it to my friends—Mrs. FLORENCE E. HOFFMAN, 212 Roland St., Canton, O.

The condition described by Mrs. Hoffman will appeal to many women, yet lots of sick women struggle on with their daily tasks disregarding the urgent warnings not overtaken by actual collapse.

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometimes past has had sole charge of the correspondence department of as many as a hundred thousand ailing women during a single year.

## BETTER BUTTER

Butter is that is better than very butter. The best butter that can be produced is good as Butterine. It is better. It can be. And the butter is as good only at the moment it comes from the churn. It doesn't stay so. Butter and Butterine remain on a party only for a few moments. The latter begins to deteriorate immediately. The Butterine doesn't.

It is because you are prejudiced. You have been told that Butterine is artificial. What does artificial mean? It means a variety of things according to circumstances. Butterine is artificial, so is Butter. Butterine is manufactured by a process. Butter is manufactured by a process. One is just as artificial as the other. The elements of both are produced by nature. Both come from the same material.

And these elements are practically identical. That's why butter can't be better than Butterine. Pure Butterine gold can't be any better than pure Butter. It is just as good as gold. Certain elements are the same whether in butter or Butterine.

The difference between Butterine and the best butter is mostly in the way it is produced. The Butterine process is superior and is a guarantee of purity.

With all its merits Butterine costs less than butter—only 10c per pound. And at this low price we will send it to you at once, packed in 5 lb packages in 1 lb packages.

It is the only butter that is so modern, so economical, so pure, why not this wholesome and economical one? We want you to try it!

## FIFTY-FIFTH CONGRESS.

### THIRTY-SIXTH DAY.

The House reversed the decision of the committee of the whole last Friday when the appropriation for the support of the civil service commission was stricken out of the legislative executive and judicial appropriation bill. In committee, where members do not go on record, the appropriation was stricken out by vote of 71 to 61. To-day when the roll was called the appropriation was restored, the majority strike out being defeated 95 to 119. The House, by special order, decided to proceed with the consideration of the general personnel bill as amended by the bill for the codification of the laws of Alaska was out of the way. About seventy additional pages of the latter bill were covered, leaving almost one hundred pages still undiscussed.

### THIRTY-SEVENTH DAY.

The House devoted its undivided attention to the bill for the codification of the criminal laws of Alaska, and when adjournment was had all but ten pages of the bill had been disposed of.

### THIRTY-EIGHTH DAY.

The House today completed and passed the bill for the codification of the criminal laws of Alaska, upon which it has been working intermittently for a week. The bill provides for a high license system in the territory with a species of local option. It proposes that yearly licenses may be issued for the manufacture or sale of liquor in quantities of not less than five gallons, to be drunk upon the premises, upon the payment of a fee of \$100. No license, however, can be issued until evidence is produced before the court showing that a majority of the white citizens within two miles of a place, or which a license is asked shall consent. The amendment prohibits the sale of liquor to minors and gives every husband, wife or child, parent, guardian, employer or other person injured in person and property in consequence of intoxication the right to exemplary damages from the person who, by sale, may have caused such intoxication. The sale of liquor by drug stores is permitted upon the prescription of a physician. The sale of liquor to Indians or half-breeds is prohibited.

### THIRTY-NINTH DAY.

The House passed the diplomatic and consular appropriation bill, and amended the bill. The bill is the sixth of the regular appropriation bills to pass the House. It carries the bill carries \$1,295,332, \$125,495 less than the estimates and \$46,775 less than the current year. All diplomatic and consular offices in the Hawaiian Islands, Porto Rico and Cuba were abolished by the bill.

### Fortieth Day.

The House entered upon the consideration of the naval personal bill. It developed much less opposition than was anticipated.

### Forty-first Day.

The House of representatives assembled Saturday under circumstances of deep and universal sorrow in the death of Representative Dingley of Maine. As Speaker Reed entered the chamber a hush fell upon the members, who the moment later rose and with bowed heads listened to the eloquent tribute from the chaplain, Rev. Dr. Cadden.

### Forty-second Day.

Mr. Boutelle, the senior member of the Maine delegation, was then recognized for announcement of a denunciation of his colleague, which was made in feeling and appreciative words.

### Forty-third Day.

Senator Mason occupied the attention of the Senate for nearly an hour and a half with a speech in support of his resolution declaring that the United States will never attempt to govern the people of any country without their consent. In many respects the speech was one of the most notable utterances in the Senate thus far this session.

### Forty-fourth Day.

A climax was reached Wednesday in the debate on the question of expansion which is in progress in the senate. Heretofore all of the speeches, with the notable exception of that of Mr. Platt, have been in opposition to the policy it is presumed to be the policy of the administration with respect to the acquisition of the Philippines. To-day Mr. Foraker (Ohio) addressed the senate in opposition to the declaration of the Vest resolution that the United States has no constitutional power to acquire foreign territory to be maintained as colonies. Mr. Foraker's strong assertion that the acquisition of the Philippines was temporary in character created a sensation in the chamber. He maintained, however, that we have a legal right to hold the islands permanently.

### Forty-fifth Day.

The supporters and opponents of the peace treaty in the Senate had their first contest over that document today in executive session. The debate technically was upon Senator Berry's motion for the consideration of the resolution of ratification in open session. There were no set speeches. It was a running debate, in which Senators Berry, White, Hale, Hear and others, in opposition to the treaty, met Senators Davis, Frye, Teller, Gray and others in advocacy of it. Probably 20 senators spoke. Speeches of some length were made by Senators Teller and Frye on the one hand, and by Hale and Hear on the other. There were many animated colloquies, and for a time an exceptional degree of feeling was shown.

### Forty-sixth Day.

In the Senate McClaurin, of South Carolina, took strong ground in a carefully prepared speech against a policy of expansion by this country. He cited as one of the principal reasons why the United States should not assume dominion over people who are widely dissimilar to the people of this country, the experience of the South with the negro race. He advocated the adoption of the Vest resolution, declaring that this country should not maintain permanently as colonies such territory as the Philippines, and held that it would be in opposition to the spirit of American institutions to do so.

### Forty-seventh Day.

Sullivan, of Mississippi, and Pasco, of Florida, discussed the pending Nicaragua Canal bill, the former supporting it and the latter opposing it.

## bees to be placed in the National Hives

The resolution thus referred to the library committee.

At this juncture a message was received from the house announcing the adoption of resolutions on the death of Representative Dingley.

Mr. Hale requested that the resolution laid before the senate and read. Mr. Hale then offered resolutions expressing the deep sympathy of the senate for the death of Representative Dingley, and directed the appointment of a committee of senators to accompany the remains to Maine. The committee consisted of Messrs. Frye (Me.), Aldrich (R. I.), Foraker (Ohio), Fairbank (Ind.), Pritchard (N. C.), Berry (Ark.), Faulkner (W. Va.), Rawlins (Utah) and McClaurin (S. C.).

## TRADE REVIEW.

Americans Investing Heavily Without Recalling Their European Loan—Markets Firm and Business Good.

R. G. Dan & Co.'s weekly review of the trade reports for the last week as follows: Contrary to the French sayings, the advance in prices of iron and steel products have had their immediate effect, perhaps for the last time, in the same reason for doubt as to its permanence as in 1896, when the advance in now larger demand for many of the European goods, without unwieldy combinations, all are doing well. Throughout the country was never in an attempt to place the lines west of the Ohio river in proper shape to handle the heavy freight equipment that is being used east of the river, the Recovery found it necessary to rebuild 11 bridges between Bonwood, W. V., and Chicago. That the structures might be rapidly pushed to completion it was decided to divide the work among three companies. The Youngstown Company, of Youngstown, will erect 11 bridges on the Central Ohio division between the Ohio river and Newark, Ohio; The Pensacola Bridge Works awarded the 11 bridges on the Lake Erie division, Newark to Sandusky, Ohio; The Pensacola Bridge Works, of Wilmington, Del., will erect the 3 bridges needed on the Chicago division. The total cost of these bridges is in the neighborhood of \$200,000, and it is expected that all will be in place by September. Nearly six thousand tons of steel will be needed for the structures.

In China a wife is never seen by her husband before marriage. In this country some wives seldom see their husbands after marriage.

## Easy Work.

Too much exercise leaves one a prey to soreness and stiffness, but it is easy work for St. Jacobs Oil to get the muscles back into proper shape and cure the distress.

Siberia, which has heretofore made no extensive display at any world's fair, will have a large exhibit at the Paris Exposition in 1900. The new railway of those bridges is in the neighborhood of \$200,000, and it is expected that all will be in place by September. Nearly six thousand tons of steel will be needed for the structures.

## What the Foot Feels.

It was when the motor cars pass in a certain city. An old gentleman alighted, and the conductor told him to look out for the other car. The passenger did not understand him, and turning around, asked, "What did you say?" Just then the motor struck him and knocked him without serious damage toward the curb on the opposite side from which he wanted to go. As he got up, he was heard to mutter, "I wonder what the fool said."
