

True Greatness In Medicine

Is proved by the health of the people who have taken it. More people have been made well, more cases of disease and sickness have been cured by Hood's Sarsaparilla than by any other medicine in the world. The peculiar combination, proportion and process in its preparation make Hood's Sarsaparilla peculiar to itself and unequalled by any other.

It is said that dried currants given to horses occasionally in lieu of oats will increase the animal's powers of endurance.

MISS FANCHON THOMPSON. Miss Fanchon Thompson, now causing considerable comment in Paris by

her appearance in that city in the roll of Carmen, is well known in this country. This is not the first time Miss Thompson has essayed grand opera. She sang at Covent Garden theater in London and has been honored by a command to appear before the queen. It is said that this new Chicago star is very brilliant, and some French critics predict a fine future for her. She will, after Carmen, sing in Mignon and other difficult operatic roles. Miss Thompson returned to Chicago two years ago and paid a visit to her friends, but soon went back to Europe to continue her studies in music. Her voice is described as velvety and as being possessed of great power. She is not yet 20, and to her excellent voice she adds a striking appearance. She is pretty and seems to have caught the fancy of Parisians.

"Mr. William Born Dead" was the somewhat deceptive heading of an obituary notice in a Kansas paper last week. The heading meant to announce that Mr. Born was dead.

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. JOHN WILLIAMS, Englishtown, N. J., writes: "DEAR MRS. PINKHAM—I cannot begin to tell you how I suffered before taking your remedies. I was so weak that I could hardly walk across the floor without falling. I had womb trouble and such a heaving-down feeling; also suffered with my back and limbs, pain in womb, inflammation of the bladder, piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and one-half bottles I had a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much."

Mrs. JOSEPH PRUSSON, 513 East St., Warren, Pa., writes:

"DEAR MRS. PINKHAM—I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed in night in order to breathe. I was so weak I could not do anything."

"I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound and used three packages of Sanative Whisk, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me."

SAFETY PIN REMOVED

For a Long Time Parents Could Not Account for the Delicate Condition of Their Child. Now Rapidly Improving.

In some unexplained manner the four-month-old child of Mrs. Moses Bateman, of Selinsgrove, got a safety-pin in its throat three months ago. The baby began to lose flesh rapidly, and the parents consulted physicians relative to its serious condition, not knowing anything about the pin, however. The next day the doctor made another examination, found the pin and removed it. The child immediately showed the good effects of the operation, and will recover.

A. I. Alexander, of New Castle, has received a cable message from his brother, H. S. Alexander, of Philadelphia, stating that he just called on Buenos Ayres, bringing the fortune inherited by their mother, Mrs. A. E. Groves, from her brother, William Groves, who died in New Castle, about three years ago. Mrs. Groves, who is the mother of Mrs. Frank Thompson, of Philadelphia, is the president of the Pennsylvania railroad, is the only heir of her brother, who died without making a will. Her representative has been in Argentine Republic for some months looking after her interests. The fortune amounts to more than \$1,000,000. She would want to the Argentine when a boy and lived there all his life, finally becoming one of the foremost men of that country.

For a number of months the post office at Herndon has done a great amount of business, owing to the operations of the Herndon Supply Company, and a few days ago John Carl was arrested on one of a party of 15 all of whom Inspector Hugh J. Gorman hopes to capture soon, for making fraudulent use of the mail. Carl says that he was innocently drawn into the company, which advertised that for \$1 ten yards of silk would be sent to customers. As soon as the money reached Herndon the company forwarded ten yards of silk thread. Upon the complaint of victims Inspector Gorman came here, where sufficient evidence was obtained to arrest Carl.

While a gang of laborers were at work a few days ago near the Elmhurst reservoir of the Scranton Gas and Water Company one of them struck a forgotten charge of dynamite with his pick. Rocks and men were sent flying in all directions by the explosion. Francisco Grippa, Linga Scarinna and Antonio Batto were fatally injured and others were hurt. Grippa and Scarina died soon after being brought to a hospital here.

State treasurer James Beacom reports that there is a balance of \$21,215.60 in the State treasury at the close of January. The State funds are deposited in 49 banks scattered over the State, among them being those from Pittsburgh, Allegheny National, with a deposit of \$22,111.11; Erie, \$2,131.85; Fifth National, \$2,000; Lincoln National, \$2,500; Second National, \$5,000; Union Trust Company, \$25,000.

John D. Clevs, aged 102 years, and Mrs. Sarah H. Jennings, aged 109, were married in Franklin last week. The bridegroom is a wealthy oil producer and a veteran of the civil and Mexican wars, while the bride is the cousin of Abraham Lincoln, and resides in Foxburg. She was married in 1854 to James Jennings, and has four daughters and seven sons and twenty-five grandchildren, all living.

The wedding with furniture and carrying six persons was at the Riverfront street crossing of the Baltimore & Ohio railroad, McKeesport, last week. Four of the persons were instantly killed and the other two were so badly injured that they died during the course of the day. The dead are: Sylvester Wilson, Hudson Elder, Geo. Dawson, Walter Duthers, Mrs. Richard Shauzhensky, Rush Wilson.

One man was instantly killed and three others fatally injured by falling a distance of 30 feet a few days ago while working on a bridge on the extension of the Buffalo, Rochester & Pittsburgh Railroad, near Parkersburg. Charles Morhimer, of Hamburg, Pa., was killed and J. S. Teller and Edgar Seigel, of Selinsgrove, were internally injured. The men were on a beam, which gave way with them.

Clyde, the 11-year-old son of Charles C. Shepler, of Bridge-water, was drowned while skating on the Beaver creek last week. He skated into a large hole made by parties cutting ice. The body was recovered.

At the solicitation of Attorney W. L. Scott Thompson and others Governor Stone has granted a pardon until June 7 for Edwin C. Hettler, who was to have been executed Tuesday at Erie.

In cleaning a duck the other day at Chuck, Mrs. Edward Glass, found in its stomach glittering particles of gold, which when handed over to an assayer were declared to be worth \$15. The gold was shipped from Monroe County, and an attempt will be made to find the "pay dirt" at its old haunts.

For sixteen days in succession, with the exception of last Thursday, Mrs. Charles Carter, of McKeesport, has been constantly hiccupping. A local faith curist prayed with Mrs. Carter three times, and said she would be well. The hiccupping stopped almost an entire day, and then returned.

To Cure A Cold In One Day. Take Laxative Bromo Quinine Tablets. All Druggists refund money if it fails to cure. 50c. HAS LIVED 125 YEARS.

Noah Raby, born April 1, 1772, near Gateville, Gates county, North Carolina, but now an inmate of the Piscataway Poor Farm, Middlesex county, New Jersey, reached the phenomenal age of 125 years April last and still lives to recall the events that have stirred the nation during its entire history.

NOAH RABY. The last election he walked two miles to deposit his ballot for the straight Democratic ticket. His mother was a native of Gates county and of English extraction, but his father was an Indian, a native of Nansemond county, Virginia. The story of Noah's life, with all its occurrences and simplifications, is still fresh in his mind, as he proved from an interview with William Muldoon, the celebrated trainer and professor of anatomy.

Senator N. B. Scott, of West Virginia, worked at the trade of glassmaker for twelve years, being promoted from apprentice to manager and afterward President of his company.

Good Blood. Your heart beats over one hundred thousand times each day. One hundred thousand supplies of good or bad blood to your brain. Which is it? If bad, impure blood, then your brain aches. You are troubled with drowsiness yet cannot sleep. You are as tired in the morning as at night. You have no nerve power. Your food does you but little good. Stimulants, tonics, headache powders, cannot cure you; but

Dr. Williams' Pink Pills for Pale People

will. It makes the liver, kidneys, skin and bowels perform their proper work. It removes all impurities from the blood. And it makes the blood rich in its life-giving properties.

To Hasten Recovery. You will be more rapidly cured if you will take a laxative dose of Cascares, Candy Cathartic, before you begin to take the Pink Pills. They arouse the sluggish liver and thus cure biliousness.

TRADE REVIEW.

Very Few Failures—Continued Demand for Iron Products—Good Foreign Market.

R. G. Dun & Co.'s weekly review of trade reports as follows for last week: Failures in January were smaller than in any previous month, except August, 1898, and July, 1897, and the proportion of solvent to insolvent companies in house exchanges is smaller than in any other month of which records exist.

The manufacturing failures were the smallest, excepting August, 1898. There were only seven failures for 1900,000 or more, and the average of liabilities per failure is smaller than in January of any other year, and the country, taken as a whole, is in a better financial condition than in any previous year. "Company" is in unusually one of the largest months of the year in failures the return is surprising as well as encouraging.

It is pertinent to note the remarkable expansion in the aggregate of business payments comes in spite of a material decline in prices during the past seven years, so great that payments of \$2,000,000 would cover about as much business as would \$1,000,000 in 1892. It is not strange that European exchanges are disturbed and alarmed, and a rise in sterling even when gold is being shipped this way, is one of the interesting features. It is commonly ascribed to recent sales of stocks on European accounts, but it would take a million shares at ordinary prices to cover one month's merchandise business. Europe is not buying enough to cover its accumulating excess of merchandise exports over imports.

The most remarkable feature of the week has been the decline of 5 cents in iron, with only a half a cent in corn and only a sixteenth in cotton. The government estimate of the wheat crop, 475,000,000 bushels, had more influence than any other factor in the market. It is recognized as the result of great efforts to get at the truth, and is therefore considered about the lowest estimate admissible. With ordinary consumption present exports of 150,000,000 bushels from the crop of 1898, flour included, there will be less than 300,000,000 bushels for replenishment of stocks, for farmers' holdings, and for exports in the next five months and the exports of 4,942,433 bushels, flour included, from Atlantic ports, against 1,054,517 bushels last year, and 1,495,994 bushels from Pacific ports, against 775,440 bushels last year, besides 298,552 bushels from Duluth and Portland, Me., shows a stress of foreign demand which may well excite some recovery in prices.

A better tone appears in the woolen goods market also, with some important grades, which were opened at a great reduction in price, recently advanced for all grades. Sales of wool have been fairly large, 30,752,430 pounds for the year, 28,749,499 against 35,742,470 pounds last year, 21,113,240 pounds in 1897 and 25,842,500 pounds in 1892.

The iron industry is advancing prices of products rather than of materials. Pig has remained without change this week, notwithstanding that six or seven furnaces will be put into blast as soon as possible. The demand for iron is not appearing so urgent at the chief markets. Cast-iron bars and plates have advanced, with very heavy demand, and cut nails have been hoisted by the association of makers. The rush of orders for the future does not cease and the works are generally covered for months ahead with orders for ships, street cars and for export. In the minor metals, the speculative fever of London has caused considerable advances, and the tin plate combination has advanced prices 25 cents.

THE CREAMERY.

Butter must be sweet and clean. That is the first requisite. It can not be perfectly sweet unless the place in which it is made and all the utensils used in its manufacture are perfectly clean.

The old rule was: "Do not use soap to clean the churn"—this referred to sticky rosin soaps.

Ivory Soap can be used freely; it is the best for creameries or dairies, because it rinses easily and leaves neither odor nor taste.

The vegetable oils of which Ivory Soap is made, and its purity, fit it for many special uses for which other soaps are unsafe and unsatisfactory.
