During 1898 the following amount of live stock was shipped from Indiana, I most heartily congratulate all our Frames cleaned and renewed. Pa.: Hogs, 26,037; sheep, 8,902; cattle, 1,795; calves, 353; horse, 364; poultry, 57,000 pounds. The most of this was raised in Indiana county.—Ex.

The many friends of Michael Bracken, Bears the one of the early settlers of the northern end of this country, will be pained to learn of his serious illness at his home in Gallitzin. Mr. Bracken is

for his recovery.-Johnstown Tribune. An exchange gives the following advice: "Persons wishing their letters to go through the mails in a hurry should always write 'in haste' on the lower left hand corner of the envelope. Then everybody connected with the postal service will flop around lively. The stage driver will lick up his horses, the postmaster dance a jig, and the route agent rushes forward and tells the engineer to pull the throttle wide open and let her go."

No eastern mails came to town for several days.

Luke Behe, of St. Augustine, was in Patton yesterday. Mr. Holly Lonsberry is confined to

his home by illness. W. P. Livingston, of Mahaffey, was

Boys, Youths, FOR! Misses And Children.

A FULL LINE AT MILLER'S White Shoe Store. The Age of an Gyster.

It is just as easy to tell the age of an oyster by looking at its shell as it is to ascertain the age of a three by examining its teeth, or a tree by inspecting the circles revealed by the ax or saw when it is laid low. When the oyster is months old, it is as big as a dime; when I year old, it will cover a silver balf dollar, and when 2 years old, will he about the circumference of a silver

The oyster, unlike the crab, is not obliged to seek new quarters or build a new house every time he grows appreciably The extensions that he puts on his house are clearly marked by a well

defined ridge. Oysters are esteemed to be at their best when between 4 and 5 years of age, and the planters endeavor to protect the beds for that length of time. Conscientions oyster men-that is, men who are not inclined to kill the goose that lays the golden egg-always return to the bed oysters that are too young, but in case a patrianch is brought up, over whose shell the tides of from 8 to 12 winters and summers have ebbed and flowed, he is sent to market, where he is put at the bottom of the beap and seold with his younger and more luscious companions. - Pearson's Weekly

The Ethienl Process.

Mr Harley says ingeniously (speak to Pennsylvania Railroad company, ing of societies of animals) that the ethical process "is, strictly speaking, part of the cosmic process, just as the 'governor' in a steam engine is part of the mechanism of the engine." But we know how the governor got into the engine; we don't know how or why early men introduced the ethical process "It was their nature to," and the ignorant, superstitions blacks say that a god, Baisme, gave them this law Yet in some ways morality does seem to pay, practically, though not when parried to an extreme. The universe, like the traveling tutor, seems to whisper to its pupils:

Practice, youths, a little virtue.

Just as much as will not hurt you. This is ordinary morality Go much further, and you are a saint. The Isle of Saints has ever been the most distressful country. Whither in the world are these reflections hurrying us? I have no idea beyond an ineradicable conviction that the ethical process, plus some "governor" not yet invented, will win in the long run, and that we must

Neither Did the King.

Juliand one day be entered a village we appreciate their dealings with us and are always too glad school and found the children lively to right any wrong that has been done. and intelligent and quite ready to answer his questions. "Well, youngsters," be said, "what are the names of the greatest kings of

Denmark?" With one accord they cried out, "Canute the Great, Waldemar and Ohristian V!"

Just then a little girl, to whom the schoolmaster had whispered something. stood up and raised her hand "Do you know another?" asked the

mered out, "I don't know." "Be comforted, my child," said the king "I don't know either."

There can be little doubt that one of the objects of yawning is the exercise of muscles which have been for a long time quiescent, and the acceleration of the blood and lymph flow which has in consequence of this quiescence become sluggish; bence its frequency after one has remained for some time in the same position-for example, when waking in

the morning Co-operating with this cause is sleepiness and the shallow breathing which it entails. This factor, as well as muscle quiescence, is apt to attend the sense of boredom which one experiences in listen ing to a dull sermon; hence it is that the bored individual is apt to yawn. As in the case of sighing, the deep breath which accompanies the act of yawning compensates for the shallow breathing which is so apt to excite it .- New York Herald.

> Strangely Worded. "Some of the applications for relief ment to the local committees by sufferers from bush fires are strangely worded," says the Melbourne Argus. "Here is an extract from one by a widow: 'I have in family four dairy cows, two pigs, a horse and three children, all hese being by my first husband, and two goats in full milk and a baby by my second husband. All of the animals

was lost in the fire."

One of the serious things told in Mark Twain's "Along the Equator" is that formerly all that people in India knew of the United States was the name of George Washington. Now they know also the name "Chicago, the holy city, where the congress of religions was held • 1893 —Boston Transcript.

A Limit to Trust. "She said she would trust me forever

with her heart." "Well, that was satisfactory," "Yes Then we fell out about who would carry the pocketbook."-Detroit Free Press
