ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil."

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil.

SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely.

GOMEZ NOT TO BE TRUSTED.

Inspector General Breckenridge, who has been in Cuba and Porto Rico for three months, brought President McKinley much valuable information obtained by his close observation of existing conditions on the islands, and not a little of it is widely different from that which has been obtained from other sources.

General Breckenridge is strongly of the opinion that Gomez is not to be trusted. He thinks that Gomez is the most dangerous enemy the United States has in Cuba; that his turbulent nature fits him for participation in revolutions, but not to assist in the establishment of a peaceful government, has warned the President of the danger of allowing him to get control in Cuba.

Of Porto Rico he says that the people are disposed to be contented, but that the serious draw-backs to industry, owing to the closing of the markets of Spain for Porto Rican products and the failure to open our own to them, have already resulted in distress and an alarming increase of brigandage, and that things will grow worse if means are not found to provide employment for the islanders.

An exchange has found out that this world is peculiar. When a farmer wishes to retire he moves to town. When the town people wish to retire they move to the country. A farmer has poor health and he moves to town to rest up and get well where he will not be bothered with hard work.

RULES IN ELECTRIC ACCIDENTS.

Important to Those Who are Engaged in Mines Operated by Electricity.

The Sanitary Inspector reprints a set of rules for guidance in the Lancet in the case of electric accidents which are of service.

1. Break the circuit at once if there be an interrupter close at hand and you know how to use it. If not, lose no time, but proceed to Rule 2.

2. Do not touch the man's body with your bare hands, but if India rubber gloves are not at hand pull him off the cable by his coat tail, or fold your coat or some dry article into two or three thicknesses, and, using this as a pad to take hold of the body, pull it away from the circuit and resort to Rule 5.

3. If unable to get him off, raise with covered hand that part of the body which is touching the earth, or one of the poles of the circuit, and it will usually be thus possible to get him easily away, and if so, proceed to Rule 5.

4. If still unsuccessful, make another pad, and placing it between the ground and that part of the body in contact with the ground, continue your efforts to detach him.

5. Having pulled him away from the cable, free his neck from clothing, and treat the case as one of drowning, one method being as follows:

6. Open his mouth, and, taking a hold of the front part of the tongue with your fingers (covered with a handkerchief if you have one), draw forwards, and gradually let it go back 16 times a minute. Be sure that the root of the tongue is acted upon and drawn forward. If the teeth are clenched and you cannot get them apart with your fingers, gently separate them with the handle of a pocket knife or by a small piece of wood, cork, etc.

7. Resist the efforts of bystanders to pour stimulants down his throat.

BEST SPRING-TIME TONIC

Is a Trip to the Seashore Over the Philadelphia & Reading R. R.

When spring-time comes, after the dull, heavy winter weather, we all feel the need of something to tone up the system.

Formerly this was done by the use of bitter decoctions, but now-a-days the knowing ones have found that the best tonic is a trip to the ocean beach, and the practice of spending a few days on the shore is finding more and more devotees every year, so much so that the hotels make extra arrangements to accommodate the early spring visitors.

Atlantic City, with its numerous open-all-the-year hotels, sun parlors and magnificent boardwalk with a southern exposure, giving promenaders a splendid view of the ocean while inhaling the warm invigorating salt air wafted up from the Gulf Stream, is especially suited for the purpose, and through the good train service of the Philadelphia & Reading Route (Atlantic City R. R.) has quick railroad connection with all points.

We would also call the attention of the traveling public to the fact that Philadelphia & Reading railroad engines burn hard coal, thus avoiding smoke. The Atlantic City railroad is double track all the way, and is ballasted with anthracite cinders, thus eliminating the very disagreeable feature of dust, and that this route has the record of inaugurating the 60-minute train service between Philadelphia and Atlantic City, running and maintaining for 60 days without a break the fastest train in all the world.

The weather is getting beautiful and the busy time for the "farmer" is here. The roads are getting nice and dry and we have already seen the "bicycle" vehicle.

John Nedimyer, who has been logging in the Stoltz valley for the last year, has taken another job near by and will begin work at once.

Last Wednesday evening the people of St. Lawrence and vicinity were once more invited to attend the school closing entertainment in Rhody's hall. The teachers, Mr. H. A. Schettig, H. A. Leiden and H. T. Wentz, tried their best to make it a success, and it surely was. The principal feature of the play was the noble way in which Mr. Schettig, Mr. E. M. Nedimyer and Mr. Jno. Wagner played their parts.

The teachers and pupils should be congratulated. Mr. Schettig has gone home and we will say for him that he is a fine young man and a gentleman.

Quite a number of our young people attended an entertainment in the Craver School last Tuesday evening. The principal feature of the play was the stump speech by "Long" Jos. Long.

THE TWO HOUR TRAINS

Between Philadelphia and New York via Philadelphia & Reading Railway.

For luxurious, swift and at the same time perfectly safe traveling the above trains cannot be excelled, a special notable feature is the entire absence of smoke, soot and cinders, the engines burning only hard coal.

The introduction of these trains by the Philadelphia & Reading was a great boon to the business men of both cities, and the patronage by this class of passengers has steadily increased as well as that of other persons for pleasure or business purposes. It is a common practice by these travelers to leave home in Philadelphia after breakfast, and spending the day in New York return in time for 7 o'clock dinner.

Pullman cars are attached to all these trains, and the 7:30 a. m. to and 4 p. m. from New York also have Pullman Buffet parlor car. To specially accommodate the gentlemen the 8:30 a. m. to and 4:30 p. m. from New York, also have a parlor smoking car attached.

For time tables apply to any Philadelphia & Reading ticket agent, or address Edison J. Weeks, General Passenger Agent, Reading Terminal, Philadelphia.
