If so, there must be some trouble with its food. Well babies are plump; only the sick are thin. Are you sure the food is all right? Children can't help but grow; they must grow if their food nourishes them. Perhaps a mistake was made in the past and as a result the digestion is weakened. If that is so, don't give the baby a lot of medicine; just use your every-day common sense and help nature a little, and the way to do it is to add half a teaspoon-

SCOTT'S **EMULSION**

to the baby's food three or four times a day. The gain will begin the very first day you give it. It seems to correct the digestion and gets the baby started right again. If the baby is nursing but does not thrive, then the mother should take the emulsion. It will have a good effect both upon the mother and child. Twentyfive years proves this fact.

The COURIER this week publishes tics-Independent. Interest-Patton and Surrounding Country. Motto-Justice to All and Malice Toward None. The Country of Clarksville, N. M., who left Patton about one month ago to accept a situation with the Link Belt Mining company, of Chicago:

Clarksville, N. M., April 24, '99.

EDITOR COURIER: DEAR SIR:-Kindly permit me a small space in the columns of your paper to let the boys in Patton know where I am. Well I am in camp at Clarksville, a mining town located five miles from Gallop, the nearest town, on the Santa Fe railroad. This is a very dry country as all the water used at our camp has to be hauled from the town mentioned.

We have a very fine vein of coal here, from seven to eight feet in depth, and is exceptionally hard. The day laborers here receive \$3.00 per day and the men who load coal from the machines receive twenty cents per ton. good prices to pay for everything, as Wilkins. room rent, \$0.50 for fuel and \$1.50 for cool soda water. doctor so you see that requires just Onions, radishes and rhubarb on again.
