It is impossible for a newspaper reporter to be everywhere or to hear everything that happens in the community. Consequently many good items will be omitted unless patrons will take a little pains to supply the newspapers with news. We cordially invite information of interest from every source. If you are entertaining guests from abroad let us know about it. If a member of your family is seriously ill, your acquaintances will be interested to learn it. It is the aggregate of such similar items that make a complete local news page. If something you feel delighted or feel that you or your friends have not received the notice that might be expected, ask yourself whether you have worn to it that the newspaper has information of your doings. If you have not the fault is yours, not ours.—EX.
