How Postal Cards are Often Wanted.

"Women often send messages to their dressmaker or to dry-goods shops on postal cards," says the September Ladies Home Journal, "attaching a bit of cloth, ribbon or lace as samples. This makes the card 'unmailable,' so it is always sent to the 'dead-letter' office and invariably destroyed. Men—presumably men—not infrequently paste a clever joke or a telling political fragment upon a postal and send it to a friend—at least start it; but it never arrives. Nothing may be attached to a postal card, nor may one word be written upon the address side except the address itself."

We have used Chamberlain's cough remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family.
