BRIGADIER GENERAL JOSEPH WHEELER made a plea for a large standing army in his address before the students of the Chicago University.

General Wheeler's topic was "Our Pacific Possessions." He briefly traced the history and development of the islands recently required by the United States, and gave the results of his own observations as to the resources and possibilities of our new dependencies.

My observations among the Filipinos and those of China forcibly impressed upon me the importance of all institutions of learning devoting a full measure of effort to installing a spirit of civility and patriotic devotion.

We are now a great world power and the destiny of the human race is in the future to be largely guided by their influence exerted by their government.

In India, the land of famine, thousands die because they cannot obtain food. In America, the land of plenty, many suffer and die because they cannot digest the food they eat.

The dread of people with weak lungs who suffer with stubborn coughs is consumption. Foley's Honey and Tar, if taken in time, cures the cold, heals the lungs and always cures incipient consumption.

The wolf in the fable put on sheep's clothing because if he traveled on his own reputation he couldn't accomplish his purpose. Counterfeiters of DeWitt's witch hazel salve couldn't sell their worthless salves on their own merits, so they put them in boxes and wrappers like DeWitt's. Look out for them. Take only DeWitt's, which has a seal. It cures piles and all skin diseases. C. W. Hodgkins, Patton Pharmacy.

Starvation never yet cured dyspepsia. Persons with indigestion are already half starved. They need plenty of wholesome food. Kodol dyspepsia cure digests what you eat so the body can be nourished while the worn out organs are being reconstructed.

A new fakir is abroad in the rural regions. He drives through the country and sells soap at five dollars a box, which sum includes the price of forty yards of carpet, selected from samples which he has in his wagon.

"Miss Pechis," stammered the bashful young man at the other end of the sofa, "would you—er—consider me bold if I was to—er—throw a kiss to you?"

"Bold?" quoth she. "I'd consider it the quintessence of audacity."

A GORGING FEAST and the Way It Was Measured.

I once enjoyed the privilege of seeing an army of marines successfully corner a school of small fry in a rocky shallow pool which was a mile deep. The mackerel swam behind their victims in scurried ranks a company of hungry, determined creatures, intent upon a gorging feast to which there need be no limit.

As for the fry, their helpless ankles, somewhat herring-like, held them aloft in the water in an agony of fear. High into the air they leaped in order to avoid their voracious enemies, landing themselves often enough upon the weed covered rocks which skirt the pool and panting their lives out there rather than leap back into the swirling vortex of their harassed comrades beneath—Lougman's Magazine.

SETTING TIRES. The Old Way of Shrinking Them on and the Modern Way. The old way of putting a tire on a wheel was to stretch it on. The tire was made just a trifle smaller than the wheel and then heated, with the result of expanding it slightly.
