SCOTT'S EMULSION OF COD-LIVER OIL WITH HYPOPHOSPHITES

should always be kept in the house for the following reasons:

- FIRST—Because, if any member of the family has a hard cold, it will cure it. SECOND—Because, if the children are delicate and sickly, it will make them strong and well. THIRD—Because, if the father or mother is losing flesh and becoming thin and emaciated, it will build them up and give them flesh and strength. FOURTH—Because it is the standard remedy in all throat and lung affections.

No household should be without it. It can be taken in summer as well as in winter.

Prepared by Scott's Emulsion, New York.

EXTRACTS FROM SPEECHES OF PRES. IDENT McKinley.

"Our flag, wherever it floats, does not change in character."

"The voice of the people in this country is the law of the land."

"It is not a question of keeping the islands of the East, but of leaving them."

"The American people never shrink a responsibility and never unload a burden that carries forward civilization."

"Wherever the flag goes there go character, education, American intelligence, American civilization, and American liberty."

"I am not one of those who would take a laurel from the brow of the American soldier or a jewel from the crown of American achievement."

"That flag has been planted in two hemispheres, and there it remains the symbol of liberty and law, of peace and progress. Who will withdraw from the people over which it floats its protecting folds? Who will haul it down?"

"The increase of our territory has added vastly to our strength and prosperity without changing our republican character. It has given wider scope to democratic principles and enlarged the for republican institutions."

"This government of ours is safe in the hands of its people, because they have no other aim but the public good, and no other god but to attain for the government the highest destiny and the greatest prosperity."

"A sign of terror is not the kind of rule under which right action and deliberate judgment are possible. It is not a good time for the liberator to submit important questions concerning liberty and government to the liberated while they are engaged in shooting down their rescuers."

GENERAL CHAFFIN and the American troops now there are likely to eat their Christmas dinner in Pekin, 8000 miles as the crow flies. It is believed that the refusal of England and Germany to withdraw their troops caused Russia to change its mind, and that it was because of a knowledge of that change although there has been no official announcement, that the government made a promise of protecting Li Hung Chang, if he needed protection, which makes it practically certain that our troops will be kept in Pekin as long as the negotiations which Li and several other Chinamen are to conduct on behalf of the Chinese government, go on there. Minister Conger has sent an important communication concerning these negotiations, but the department of State declines to give it out. It is known that Mr. Conger does not feel as much confidence in Li Hung Chang, as this government has exhibited, and he has probably sent a word of warning as to the danger of trusting him too far.

The wolf in the fable put on sheep's clothing because if he traveled on his own reputation he couldn't accomplish his purpose. Counterfeiters of DeWitt's witch hazel salve couldn't sell their worthless salves on their own merits, so they put them in boxes and wrappers like DeWitt's. Look out for them. Take only DeWitt's witch hazel salve. It cures piles and all skin diseases. C. W. Hodgkins, Patton Pharmacy.
