Scott's Emulsion

of Cod Liver Oil is the means of life, and enjoyment of life to thousands: men, women and children. When appetite fails, it restores it. When food is a burden, it lifts the burden. When you lose flesh, it brings the plumpness of health. When work is hard and duty is heavy, it makes life bright. It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it?

Scott's Emulsion of Cod Liver Oil is the food that makes you forget your stomach.

If you have not tried it, send for free sample. Its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists, 409 Pearl Street, New York. 50c. and \$1.00; all druggists.

Look out for campaign lies. VOTERS, beware of certain campaign lies, which are about to be circulated in Cambria county.

MR. HANNA is accused of conspiring to injure Mr. Bryan by trying to bring about the settlement of the coal miners strike.

In Lincoln re-elected we will never again have peace or union in this land. Cleveland Plaindealer, 1894, quoted in Indianapolis Sentinel, Oct. 11, 1894.

The fact that the Hon. George L. Wellington is compelled to go away from home to find his audience show how political treachery is regarded in Maryland.

It's QUEER, but there are some people in the U. S. who say that our loaning money to other nations is proof that times are not prosperous. They prefer to borrow than lend.

The election of Lincoln means war, anarchy and disunion—the success of McClellan will bring peace and the restoration of the Union. These are the issues involved in the elections of October and November.—Indianapolis Sentinel, Sept. 13, 1864.

Upon hearing a report of any kind directed towards candidates for office in Cambria for the purpose of injury to their cause investigate same thoroughly before you decide to cast your vote. Nine times out of ten they are lies, told for effect, but usually prove a "boomerang."

SEN. HAY, who was one of President Lincoln's secretaries and joint author of a voluminous life of Lincoln, declares that language recently used in a public speech, by Hon. Adlai E. Stevenson, and said by him to have been a prediction of President Lincoln, as to the ultimate destruction of our republic by aggregation of wealth in a few hands, was never used by Mr. Lincoln, but was understood to have been invented by a spiritualistic medium not long after Mr. Lincoln's death.

A DELEGATION of prominent dignitaries of the Catholic church, headed by Arch. Bishops Carrigan and Ryan, had an extended conference with the President to discuss the status of their church in Porto Rico and the Philippines. Members of the delegation stated afterward that they were satisfied with the President's explanation of the policy of this government toward their church and its property in the former Spanish possession.

AMONG the very able speakers who addressed the immense Republican mass meeting held in Patton Monday night of last week of whom we cannot refrain from giving particular mention, especially from the fact that he is a resident of the great county of Cambria, the gentleman to whom we refer is Edward Murphy, Esq., of Johnstown, who is a son of the Hon. Francis J. Murphy, of national fame, and a brother of Ex-District Attorney Robert S. Murphy. To say that it was a grand treat to listen to Mr. Murphy's discourse is putting it very mildly. He is not only one of the very best orators in this great Commonwealth but ranks among the highest from a National standpoint as well. One is simply carried away by the wonderful flow of language that comes from his lips, which he paints and illustrates with the ease of an artist. The people of Patton will certainly extend a hearty welcome to this young man upon his return to Patton, which we trust will not extend into a period of the next National Campaign, but next fall when Cambria will elect another Republican Judge.

Crowing Matches.

The Belgian artisan spends his leisure in a very curious manner. He keeps a special cock for crowing, and the bird which can outcrowd its fellows has reached the highest pinnacle of perfection. The mode of operation is to place the cocks containing the roosters in long rows, for it appears that one bird sets the other off crowing. A marker appointed by the organizers of the show is told off for each bird, his duty being to note carefully the number of crows for which it is responsible in the same fashion as the laps are recorded in a bicycle race. The customary duration of the match is one hour, the winner being the bird which scores the highest number of crows in the allotted time. A great number of these competitions have taken place in the Liege district, and in some cases heavy bets have been made on the result.

Radishes.

Radishes originated in China, where they have been cultivated for many centuries and sometimes grow as big as a man's head. In Germany the old fashioned country mothers cure hoarseness and cough with radish juice mixed with sugar candy. The radishes of today have no flavor, no character. Formerly their sharp, biting taste made them palatable.

A Jury Room Gem.

A gem from the records of a Missouri court, given in an address by Hon. William H. Wallace, is the following lucid verdict in a livery case: "The jury, impudently sworn and charged to inquire into the sanity of the defendant, do occur in the affirmative."

Two Bad Bites.

Diogenes, being asked, "What is that beast which is the most dangerous?" replied, "Of wild beasts the bite of a slanderer, and of tame beasts that of the datterer."

If the average man could read the story of his life he wouldn't believe it.—Chicago News.

A man who finds no satisfaction in himself seeks for it in vain elsewhere.

The Song of the Yukon River.

"There is something peculiar about the Yukon river that I have never heard of in connection with any other stream," said Captain Gray, who has been running boats on the big Alaska artery. "From the mouth of the Yukon up as far as there is any navigable water the stream is constantly singing. No matter where you are, there is a sound like that made by escaping steam. At first I used to think that maybe it came from the boiler or engines. But when we were tied up at night, with everything cold, the sound was the same. I have puzzled my brain to find an explanation of the phenomenon, but without avail. The singing goes on day and night. "When you get up stream some distance, you can also hear the rocks rolling over the bed of the river, and this produces a most peculiar sound."—Portland Telegram.

Freaks of Explosions.

Gunpowder explosions have one remarkable feature. The bodies of persons killed in such an accident are always found without clothing, but frequently one foot will have the shoe on. This is true of horses also. If one of the feet is in the air and another on the ground, the shoe will be found torn from the foot that was on the ground and not from the other.

When men are killed in powder explosions, the feet that happen to be in the air when the shock comes, will be found wearing the shoe, while the other foot will be bare.

Making It Clear.

A newly appointed French mayor inaugurated his tenure by a notice to the following effect: "On the feast of our patron saint the fire brigade will be reviewed in the afternoon if it rains in the morning and in the morning if it rains in the afternoon."

Just an Ordinary Steak.

"When in Hamburg we supposed we must do as the Hamburgers did, so at our first meal there we asked for 'Hamburg steak,' said the woman. 'Besides, we wanted to see how that viand would taste upon its native beach, anyway. But to all our requests, cooked in our best scholastic German, the waiter shook his head. Like many another prospect, the Hamburg steak was apparently without honor in its own country. At all events, our waiter hadn't heard of it. 'Oh, well,' we said, 'just bring us an ordinary beef steak. But lo and behold, when the meat was served there it was all chopped up and made into small cakes—what Americans call, in fact, 'Hamburg steak.' To Hamburgers a Hamburg steak was an 'ordinary steak.'—New York Sun.

He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose I purchased a bottle of Chamberlain's cough remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by C. W. Hodgkins.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. V., struck his leg against a spike of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians also used several kinds of ointment and two and a half gallons of whiskey in bathing it but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought about a complete cure in a week's time, and he believes that had he not used this remedy his leg would have had to be amputated.
