Exact Copy of Wrapper.

**Mirror Mad.**  
"What!" exclaimed the astonished reader, "is it possible that there are any civilized persons on the face of the earth who are not in the habit of holding their mirrors reflected from time to time in a mirror of some kind? Surely this cannot be so." Wrong, quite wrong, gentle reader, for at the present time, strange as it may appear, there are hundreds of men and women in the United Kingdom who have not gazed into a mirror for years. The convicts confined in British prisons form members of this community. From the moment of a convict's entrance to a jail to the moment of his exit he is not permitted to have the use of a mirror of any kind, the smallest piece of glass being rigidly denied him. To the women convicts this absence of a mirror forms one of the chief hardships of confinement, and many a female warder can tell pitiful tales of women who have actually fallen upon their knees and begged out entreaties for the loan of a morsel of mirror—"just for a second." All these entreaties have proved to be disregarded, and it therefore comes about that many a female convict passes three or four years without being permitted to gaze upon her own features.—London Times.

**The Neglected Voice.**  
The voice is the most common and at the same time the most complex of human faculties. When we listen to it, we realize nothing of the many influences at work in its use. Yet it represents the character, the mood, the temperament and the health of the individual when left to run in its own way. If uncontrolled, it will develop much as a flower garden will develop: the rank and weedy nature will come to the front, and the tones of exquisite beauty will be obscured. Bad daily habits in the use of the voice will give it many disagreeable qualities. If controlled, the voice will keep its weeds in the background and permit only its beauties to be known. If cultivated, the weeds will be taken out and the flowers developed.—Pittsburg Press.

Persons who suffer from indigestion can not expect to live long, because they cannot eat the food required to nourish the body and the products of the undigested foods they do eat poison the blood. It is important to cure indigestion as soon as possible, and the best method of doing this is to use the preparation known as Kodol Dyspepsia Cure. It digests what you eat and restores all the digestive organs to perfect health. C. W. Hodgkins, Patton Pharmacy.

J. A. Lambert, of Rachel, N. C., writes: "I heartily endorse Foley's Kidney Cure. It does what you claim it will do, and there is nothing to equal it, and I thank you for the good it has done me." Accept no substitute. All Druggists.

When threatened by pneumonia or any other long trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. C. W. Hodgkins, Patton Pharmacy.

Save doctors' bills by giving Foley's Honey and Tar to infants and children in time to prevent pneumonia or croup which are fatal to so many thousands of babies. All Druggists.

Quality and not quantity makes DeWitt's Little Early Risers such valuable little liver pills. C. W. Hodgkins, Patton Pharmacy.

**THE PATTON COURIER**

IS a live up-to-date 20th Century Paper that furnishes the news of Northern Cambria County in particular and the World in general in a concise form for busy readers.
