Red, Rough Hands, Itching, Burning Palms, and Painful Finger Ends.

One Night Treatment

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful, and points to a speedy cure of the most distressing cases when physicians and all else fail.

Cured by Cuticura

WAS troubled with hands so sore that when I put them in water the pain would near set me crasp, the skin would perl off, and the flich would get hard and break, then the blood would flow from at least fifty places on each hand. Words never can tell the subtring I endused for three years.

I tried at least eight doctors, but my hands were worse than when I commenced doctoring. I tried every old Granny remedy that was ever thought of without one cent's worth of good and could not even pet relief.

I would feel so badly mornings when I got us, to think that I had to go to work and stand pain for eight or note hours, that I often felt like giving up my job, which was in the bottling works of Mr. E. L. Kerns, the leading bottler of Trenton, N. J., who will wouch for the truth of my sufferings.

Better I tould start to work, I would have to wrap each finger on both hands, and then wear gloves, which I hated to do, for when I came to take them off, it would take two hours and the flesh would break and bleed. Some of my friends who had seen my hands would say, "It they had seen hands they would have

who had seen my hands would say, " if they had such hands they would have them amputated": others would say "they would never work," and more would turn away in discost. But thanks to Cutitura, the greatest of skin cures, it ended all my sufficiency.

1 Just to think, after doctoring these years, and spending dollar after dollar during

that time, Cuticura cured me. It has now been two years since I used it and I do not know what sees hands are. I never lost a day's work while I was using it or since, and I have been working at the same business, and in acids, etc.
