He thinks he lives, but he's a dead one. No person is really alive whose liver is dead. During the winter most people spend nearly all their time in warm, stuffy houses or offices or workshops. Many don't get as much exercise as they ought, and everybody knows that people gain weight in winter. As a rule it is not sound weight, but means a lot of flabby fat and useless, rotting matter staying in the body when it ought to have been driven out. But the liver was overburdened, deadened-stopped work. There you are, with a dead liver, and right now is the time for resurrection. Wake up the dead! Get all the filth out of your system, and get

ready for the summer's trials with clean, clear blood, body, brain free from bile. Force is dangerous and destructive unless used in a gentle persuasive way, and the right plan is to give new strength to the muscular walls of the bowels, and stir up the liver to new life and work with CASCARETS, the great spring cleaner, disinfectant and bowel tonic. These are of a lighter shade of color than the gown or of black. Of course, this does not refer to a red or a green or a blue gown-simply to the brown or gray. ing white gloves, especially if ecoromy has to be consulted. As the church costume is emphatically a walking costume, heavy walking boots or boots of kid and paterit leather are correct. The fancy dress B boot or shoe is not then sensible or in
