THE BOROUGH FINANCES!

A Comprehensive Statement by the Auditors.

THE SPECIAL MEETING

Of Council Monday Night and What was Done—Request of the Pennsylvania Railroad Co. Will Probably be Granted, Although no Action was Taken.

A special meeting of the Patton borough council was held on Monday night in the new council chamber to discuss matters of importance. All the members were present except Gould.

Supervisor Hippy, of the Pennsylvania railroad, was heard in relation to a request from his company in connection with the building of a new union station at this place. The request practically is that the borough abandon the sidewalk on the east side of Fourth avenue near the present station to allow the tracks to come to the driveway when they are put in.

There is no sidewalk there now and never has been, and the request being a reasonable one it will likely be granted. Mr. Hippy stated that he did not care to have them take action at once, but wanted to explain the matter to the members and action could be taken at some future time.

A bill of \$50 for state tax on bonds was read and McCormick objected to paying the same until the first meeting night in the month, when orders are drawn for the bills. Prindibie explained that the bill was long over due and moved that an order be drawn for the amount. The motion was seconded by Lingle and carried.

Joe White asked for an outlet from his property and the matter was referred to the street committee. The auditors' report was read by the secretary and ordered filed and such portions of interest to the public printed. It follows:

PERTINENT PARAGRAPHS.

Dirky, isolated Foreigners Pertaining to People and Place.

J. C. Hamer, the baker, has been compelled to put a delivery wagon on the road and will make regular trips to Hastings, Barnsboro, Spangier and St. Boniface. Mr. Hamer has built up a large trade in a short time by reason of the excellency of his product.

Arthur Love, the eminent humorist, musician and impersonator, will appear at Firemen's Hall on Tuesday evening under the auspices of Marcellus Council, Young Men's Institute.

J. J. Donnelly made a business trip to the Smoky City on Wednesday and incidentally witnessed the base ball game between St. Louis and Pittsburg.

Herman Jones, of Ebsenburg, one of the leading candidates for county superintendent of schools, was looking after interests in Patton on Saturday.

Mrs. Robert Moore, who has been in a hospital in Philadelphia for the past two weeks, returned home Friday night much improved in health.

The Patton liquor dealers and employees who are members of the Old Fellows have been notified to either quit the business or the lodge.

Ja. Hunter, the chief of the Patton fire department, and Miss Mary Patrick, of Hastings, were united in marriage on Wednesday.

The school directors of the county will meet in Ebsenburg on Tuesday to elect a superintendent of schools for the next three years.

The selling in Wolf & Thompson's store has been raised about two inches. "Gases why?" The floor was scrubbed Wednesday.

Historic Institution at Carlisle Destroyed by Fire.

The priory of the Benedictine Order, an affiliation of the Monastery of St. Vincent at Beauty Station near Latrobe, was burned to the ground with all its contents Sunday morning at Carrolltown, entailing a loss of about \$15,000, on which there was some insurance.

When the blaze was first noticed a small flame was coming from beneath the roof of the main building. The high wind blowing fanned the fire so that it grew to such proportions that nothing could be done to stay its progress.

The priory was a three story brick structure and was erected in the earlier 90's. After the original priory built in 1846 had been torn down the building which burned was built in its stead and additions were made from time to time until the priory was quite a large structure, with accommodations for a score of visitors.

The priory stood a quarter of a mile from St. Benedict's Catholic church, of which the Very Rev. Emeran Singer, the prior, is also the pastor. Two other priests, the Revs. Stanislaus Messmer and Armand Reithmeier, are also stationed there, as well as three lay brothers. The building stood on a prominence and was so situated that the wind had a good sweep at it. The site where the building stood was first occupied as a residence by Father Lemke, who was assistant to Prince Demetrius Gallatin, the pioneer.

It is understood that the priory will be rebuilt at once, but nearer the town than the old structure.

NEW STATION FOR PATTON

This Time it is Said to be a Sure Thing.

BIG BRICK STRUCTURE

Will be Erected on East Magee Avenue on the Site of the Present Supervisors' Office—Freight Station in the Rear and New Telegraph Office as Well.

After waiting in vain for many, many moons, Patton is at last to have a new union station commensurate with the importance of the town.

This announcement has been made so often, and as often proven to be a canard, that even this information is liable to be taken with a grain of salt. However, it is true this time and the Courier is in a position to state from an authentic and reliable source that the plans are being prepared and the work will be commenced as soon as possible.

The new structure will be erected about seventy-five feet from the present depot and will front on East Magee avenue. A brick pavement will surround the edifice. The passenger department will be about 60x23 feet and will be of brick with slate roof. It will contain two waiting rooms each 20 feet square, one for ladies and one for gentlemen. In addition there will be toilet rooms for both sexes, fully equipped.

A convenient and comfortable office will be provided for Station Agent Crifman and his assistants, with ticket windows opening into each waiting room. The interior will be finished in yellow pine and the walls will be covered with sheet steel in handsome design. The building will be heated by steam and lighted by electricity.

The freight station will be erected on the site of the present supervisors' office and will be about 60x30 feet. Moving doors will be put in so as to make an open shed when necessary and there will be no platform. A switch will be run to the rear from the main track at the "Y." There will be two tracks between the station and the driveway.

Another building will be erected almost on the site of the present telegraph office. It will be 40x18 feet and will contain three offices. One will be used by the supervisor, one by the yard master and the other by the telegraph operator. The present supervisors' office will be moved to the other side of the street and used for a tool house.

All in all, the station and its surroundings will be such as will be a credit to the town and the Courier heartily congratulates the railroad officials on their good judgment, even if they did take a long time to decide to give us what we are entitled to.

The Courier has been hammering at this thing in season and out and of course is naturally gratified that its labors have at least been crowned with success.

"This is the way we long have sought and mourned because we found it not." Glory, hallelujah.

Methodist Services.

The Methodist society, who for about a year past have been occupying the Baptist church, will move this week to the festal hall of the new church where services will be held until completion of the church. Services in the festal hall will be held on Sunday as follows:

Preaching services at 10:30 a. m. and 7:30 p. m. Sunday school at 2 p. m. Epworth League at 8:30 p. m. The hall will be comfortably seated and heated. A cordial invitation is extended to all to attend these services.

NOTE.

Is hereby given that we have purchased all the property of Wm. E. Fribert in harbor ship located on Magee avenue, Patton borough, consisting of barber chairs, mirrors, straps, razors, stove and shop fixtures, and that we left the same on the premises subject to our order and control.

The New Photographer.

Special attention is directed to the advertisement of Perelli's studio on the eighth page. Mr. Perelli is an exceptional artist in his line and the short time he has been here has turned out work that has been the admiration of all who have seen it. There is no longer any reason for anyone going to the city to secure fine photographs.
