PATTON SCHOOLS.

What the Principal and Teachers say of the Closing Month.

The reviews at the close of the term were given with the view to test the work of pupil and teacher during the term.

It should be gratifying to parents to know that their children are able to pass creditably such a severe test.

The principal during the past term put in full time as a teacher, supervised the schools and did the work of a transient officer.

The school yard is being beautified with flower beds. There is no reason why the school property should not be the most beautiful in the borough.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion.
