

Patton Courier.

Ray Elton Decker.

ESTABLISHED 1893.

TERMS OF SUBSCRIPTION.
One copy, one year, in advance, \$1.00.
Advertising rates made known upon application.
No papers discontinued until all arrearages are paid, unless at the option of the publisher.
Entered at the Postoffice at Patton as second-class mail matter.

LOU DILLON is rightly named. She certainly is a Lou-in.

"Vaccination before education" is the edict of the school board.

BELIANCE is a good name for a good boat. It certainly did not belie its cognomen.

Of course, you took the children to the circus. The decreased enrollment at the public school yesterday proves this.

The only big circus to appear in this section this year will exhibit at Patton. Another evidence of the greatness of the "North Star."

The biggest fall business this year, as usual, will be done by those who advertise their goods in the Courier. That goes without saying.

There are comparatively few cases from the north of the county on the criminal list for the next term of court. All of which proves we are a law-abiding people.

It makes one very weary, sad and lonesome, with a knowledge of the long winter evenings before us soon, to read the list of attractions to be presented in opera houses in other places.

LABOR Day will be observed next Monday as never before since the passage of the Act in 1894. Almost every town of any size in Pennsylvania will have some kind of a celebration.

WHERE is the public benefactor or benefactors who will provide a good lecture course for Patton the coming winter? It is none too early to begin making preparations if we are to have one.

The personnel of the All Star foot ball team guarantees that Patton will be in the front rank of the pig skin kickers this year, as usual. Now let us hear from Ebensburg, Altoona and other towns.

Gov. PENNYPACKER appointed as one of the men to represent the state at the Farmers' National Congress a citizen who had been dead for several years. But Penny himself has been a dead one since he signed the Grady law.

The idea of forming a Northern Cambria base ball league for next season is a good one. A schedule could be arranged without much trouble that would insure good games every week in each town in the circuit. Patton fans are heartily in favor of the project.

The announcement that this section is to be favored with free rural mail delivery will be hailed with delight by the large number of country people who have been compelled to come to Patton for their mail. Free rural delivery is no longer in the experimental stage and has proved a success wherever tried.

There are altogether too many street fights for a town as staid as Patton. An increase in the amount of fines paid by the belligerents might have a tendency to curb the passions of some of the culprits and diminish their desire to knock on the slightest provocation. The remedy is worth trying at all events.

The decision of the coal companies to restrict the production of anthracite coal is gratifying to the United Mine Workers and solves a problem for them. They believed that the coal companies had adopted plans to store millions of tons of coal and keep it on hand in case of a strike. With a six months' supply of coal above the surface, the companies would have a big advantage in case of a strike. So worried had the Mine Workers' officers become over the rapid accumulation of coal that the miners themselves were considering plans to curtail the production.

The Ebensburg Mountaineer-Herald and the Johnstown Democrat are engaged in the up-hill business of trying to give blackmailer Geo. Pea Rowell a character. The Ripans Tabales man needs one badly enough, but the two papers mentioned will have to use many more columns of their valuable space in order to make any well-posted advertising man believe anything that issues from the office of Printer's Ink. Your Uncle George estimates circulation solely and purely by the amount of advertising he secures from the publication mentioned. The wonder is that two such level-headed men as Bros. Bailey and Thompson will allow themselves to be bamboozled.

"Fewer Gallons Wears Longer."
The secret is out and Patton can go on living just as if the riddle had never been asked.

No it can't either. Patton is not going to be what it was before. Its houses are going to be brighter; its people a little more prosperous—they are going to have some of their money left to buy other things with.

The answer to the riddle is this: you can paint a building with fewer gallons of Devco Lead and Zinc paint than with mixed paints, and it will wear several times as long as a building painted with lead and oil mixed by hand.

There's proof abundant of it all over the United States. There will soon be proof abundant of it in Patton.
What will people do with the rest of their money?

Who does your printing? If the other fellow does it, it may be right. If the COURIER does it, you know it is right.

Sound kidneys are safeguards of life. Make the kidneys healthy with Foley's Kidney Cure.

This office makes a specialty of fine commercial job printing. Prices and workmanship are all right, too.

Why Other Medicines Have Failed. take Foley's Kidney Cure. It has cured when everything has disappointed.

Williamsport is noted for high-grade eye specialists.

Prof. J. Angel, an expert, reliable eye specialist, of Williamsport, is one of the best in this state for skill in his profession, and will establish a branch office in Patton at the above named hotel and will call regularly every month. The COURIER will inform the public of the date of each visit.

The Professor has been in constant practice for the past 20 years. That is the main reason for his success. A trial will convince any person that his ability cannot easily be equalled.

All persons, including children, suffering with nervous headache, weak eyes, blurred vision, defective eye sight, or cross eyes, who want good results and save money, will be well repaid to call on Prof. Angel, who comes highly recommended.
