Thousands of Women

ARE MADE WELL AND STRONG

Bacoocs of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that it Really Dees Make Sick Women Well

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vogetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treat-

ment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its ster-

Simply and surely because of its ster-ling worth. The reason no other med-teine has even approached its success is plainly and positively because there is no other medicine in the world so

good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor aver discovered to act directly.

all parts of the country by women who have been cared, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure. Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrheea, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn. Mass., for advice. It's free and always helpful.

BROWN MANUFACTURING CO ZANESVILLE, OHIO.

DROPSYNEW DISCOVERY; gives cases. Send for book of testimonials and 10 Days' breatment Free. Dr. H. GREEN'S BONS, Atlanta. Ga.

The late John W. Mackay was attending to business at the great Comtending to business at the great Comstock mine one day when a party of tourists approached and asked if he knew of a guide who would take them about. Evidently none of them knew him. Mackay offered to escort them and did so, explaining the whole mystery of gold and silver quartz mining. When they emerged the visitors clubbed together and made up a small sum for the guide. Among them was Andrew D. White, recently ambassador to Germany, and at that time president of Cornell University. "Here, my man, take at that time president of Cornell University. "Here, my man, take this," he said. "Your explanation of the working of the mine has been singuarly clear and informing." "Well, it ought to be," replied the guide, as he slipped the half-dollar in his overalls pocket. "I dug 'em and I own 'em."

A Sure Cure for Gout. Dr. William Osler, in one of his Baltimore lectures, recited a quaint old cure for the gout—a cure, from a seventeenth century medical work that was designed to show gout's

hopelessness.

"First pick," said the old cure, "a handkerchief from the pocket of a spinster of 35 who never wished to wed; second, wash the handkerchief in an honest miller's pond; third, dry it on the hedge of a parson who never was covetous; fourth, send it the most wonderful tonic and reconstructor ever discovered to act directly upon the uterine system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cared, trained nurses who have witnessed cures and physicians must follow." gout-tormented part. A speedy cure must follow."

Large Fossils Found.
Scientists of the University of California, who have been searching for prehistoric animals on the Nevada desert for the past few months, have succeeded in finding skeletons of some sea mammoths on the dry wastes. One of the specimens is 29 feet long, and, packed occupies 54 boxes. This specimen was found on the great 40-mile desert in Humbolt county and is considered one of the most valuable fossils ever unearthed. Before finding this one the scientists succeeded in locating several smaller rep-tiles, which must have lived in that region ages ago.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored

LION COFFEE, the leader of all package coffees the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit

HOW TO MAKE GOOD COFFEE.

Use LION COFFEE, because to get best results you must use the best coffee.

Grind your LION COFFEE rather fine. Use "s tablespondin to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUITS ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. These set aside, add a little cold water, and in five minutes its ready to serve.

2 Don't boil it too long.

Don't let it stand more than ten minutes before serving.

BONTS (Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

1st. Win Less. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.

2d. Win Cell Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.)

(Lion-head on every package.)

(Save these Lion-heads for valuable premiums.)

WOOLSON SPICE CO., Tolodo, Ohio.

HIS newspaper is very much in earnest in the desire to see a system of improved highways in the country. Its editor knows that no systematic highway improvement can be had except by a great outlined in the Brownlow-Latimer bills in Congress. The people of this State have an interest in the highways of its sister States. Highway travel does not stop at State lines any more than river transportation stops where the waterways pass from one State to another, or railroad transportation where the railroads cross State lines. Highway improvement is sooner or later to be recognized as a function of the prises a union of States of mutual interests, and interdependent, each obligated to the other in a compact for the general national welfare. We do not believe any question, present or probable, is more pregnant with importance to all the people than that of national aid to good roads, and we want to suggest to our readers that the only way this aid can be secured is for the people to demand it. The Senate Committee on Agriculture a year ago favorably reported on the Latiner bill, it being substantially a copy of the Brownlow bill, which was earlier offered in the House. The bills will be reintroduced on the assembling of the Fifty-ninth Congress. If the people who favor national aid will write to their Senators and Representatives, insting upon the measure, the little difference in the two bills will be eliminated and the one thus agreed upon will be passed. It is all with the people the measure, the little difference in the two bills will be eliminated and the one thus agreed upon will be passed. It is all with the people the measure and the matter, abligated as another in the matter.

The route was lined with and so do now with the accent on the second syllable is one of the unsolved mysteries of speech. Named, of course, after Julius Caesar, it should really be pronounced to rhyme with deally be pronounced to rhyme with deally be pronounced to rhyme with a spectators removed their hats, and the women crossed themselves. The women crossed themselves. The women crossed themselves. The solid and the one thus agreed upon will be passed. It is all with the people themselves. One citizen is as much and the people will be passed. It is all with the people themselves. One citizen is as much and the people will be passed. It is all with the people themselves. One citizen is as much and the people will be passed. Then the firing squad delivered as another in the matter.

The theory of the instance was lined with the accent on the second syllable is one of the unsolved mysteries of speech. Named of course, after Julius Caesar, it should really be pronounced to rhyme with deally pronounce it. Spenser, for instance, has the line, "Then came hot July boyling like a fire," and even the word was still not the "Jul" is one of the ease of the dead sailor. Arriving at many words which would startle those ancestors of ours spoken as the people was peak them n way this aid can be secured is for the people to demand it. The Senate Comattend the county meetings that should be held everywhere to emphasize the demand for Government help to better roads. He can sign a petition with his neighbors asking Congress to give this relief. He can write to his Senator for Senate Document No. 204, study of which will enable him to talk good roads to others. All may be posted for the asking; and we suggest that our newspaper brethren keep standing in a prominent place in their columns

some such paragraph as this: "Write to your U. S. Senator for copy of Senate Document No. 204. Also tell him you favor the enactment of the Brownlow-Latimer bill for good

The press and the people must speak out on the question.-Brooklyn (N. Y.)

Road Maintenance.

In the maintaining of the State roads

so little experience has been had on the part of the Highway Commission ers and the people in general that it is usually thought that when a road is once built it will maintain itself. Many Highway Commissioners and town boards feel this same way toward an iron bridge and neglect to paint it, but even a bridge built of iron when neglected loses its strength, just the same as a road built of stone if negor a stone road is dependent upon the care which it receives during the first six months after it is finished, and the perpetual attention which it receives after that. Some commissioners think lected will go to pieces. The real life that when a road is completed that if and Buidhe-Westminster Gazette. from economical and satisfactory. The

the loose stones are raked off once in thirty days that it will maintain itself for three or four years, and then the road can be resurfaced with top dress ing and a steam roller and again become as good as new and ready to go three years longer without attention. This method of caring for roads is far best way to maintain a road is, as soon as it is turned over by the State to the town, to engage a man to take charge of a five-mile section at an agreed price per year and put him in charge of the road, providing him with surface material, which is stored at regular intervals on each side of the road for resur facing. This man goes every day with his rake, his shovel, his hoe and his wheelbarrow the entire distance of the road, rain or shine. He removes the loose stones, he keeps the shoulders low at the side of the road so that the water passes freely over them to th ditch, he keeps the sluices opened, he fills the depressions, fills the ruts and repairs each spot as fast as the surface dressing wears off or blows away. If is this constant attention which keeps the road always in good order and at the least expense to the community Our American road builders may be inexperienced in handling stone roads

but it won't take long to adopt the best

methods, which long years of usage in

Europe have proven to be the most

economical.-Rider and Driver, New

Economy That Doesn't Count.
"It's mighty hard to economize below a certain point," said the clubman. "Some friends of mine, of artistic tastes and inartistic income, suddenly found it necessary to reduce expenses, and they made serious efforts to do so, even to the verge of discomfort. At the end of six months they found that the only item they had been able to clip out was loaf sugar. They made the less elegant granulated take the place of the chaste blanc blocks, and thereby effected a saving of about fifteen cents month."-New York Press.

A Sailor's Burial at Cherbourg. The most impressive feature, however, of the day on which John Paul
Jones' body arrived at Cherbourg was
the real funeral of Seaman Rodgers
of the Chattanooga, who died yes-The most impressive feature, howthe real funeral of Seaman Rodgers of the Chattanooga, who died yes-terday in the Civil hospital here from nephritis. In the afternoon 100 sailors and a firing squad of marines, accompanied by the scarlet coated band of the Brooklyn, marched to the hospital and received the body. The escort was augmented there by a detachment of French sailors and evidence and a number of professional soldiers and a number of professional mourners. The route was lined with spectators. Thousands of the inhabit-America had given France a sailor for the one she was to take on the next day.

The Largest Lump of Ice. The largest mass of ice in the world is probably the one which fills up thickness. According to these statis-tics the lump of ice is larger in volume than the whole body of water in the Mediterranean, and there is enough of it to cover the whole of the United Kingdom of Great Britain and Ireland with a layer about seven miles thick. If it were cut into two convenient slabs and built up equally upon the entire surface of "gallant little Wales," it would form a pile more than 120 miles high. There is ice enough in Greenlend to ever is ice enough in Greenland to cover the entire surface of the United States a quarter of a mile deep.

What May Be Found at Skibo.

The sporting attractions of Skibo, Mr. Carnegie's highland home are thus summed up: The extent of his shooting is about 20,000 acres, of which about 10,000 acres are moor, 6,000 acres arable and 4,000 acres wood; 600 to 800 brace grouse, 22 stags, 4 fallow bucks, 42 roe deer, besides black game

Electro-Magnetic Surgery. A huge electro-magnet has been set up in a certain hospital in England. It drew out splinters of steel which had become lodged in the eyes of patients. In one instance it drew out a piece of a hammer head which had been driven into the muscles of a patient's upper arm, and in another case drew out a piece of a cold-chisel

EVER TREAT YOU SO?

A clergyman who pursues his noble calling in a country parish in Iowa tells of his coffee experience:

"My wife and I used coffee regularly for breakfast, frequently for dinner and occasionally for supper-always the very best quality—package coffee never could find a place on our table. "In the spring of 1896 my wife was

taken with violent vomiting, which we had great difficulty in stopping. "It seemed to come from coffee drink-

ing, but we could not decide. "In the following July, however, she was attacked a second time by the vomiting. I was away from home filling an appointment at the time, and on my return I found her very low; she had literally vomited herself almost to death, and it took some days to quiet the trouble and restore her stomach.

"I had also experienced the same trouble, but not so violently, and had relieved it each time by a resort to medicine.

"But my wife's second attack satisfled me that the use of coffee was at the bottom of our troubles, and so we stopped it forthwith and took on Pos-tum Food Coffee. The old symptoms of disease disappeared, and during the 9 years that we have been using Pos-tum instead of coffee we have never had a recurrence of the vomiting. We never weary of Postum, to which we know we owe our good health. This is a simple statement of facts." Name given by Postum Company, Battle Greek, Mich.

Read the little book, "The Road to Wellville," in each pkg.

"The days of piracy may be gone, but there is a bold buccaneer in the waters of the North Pacific ocean who comes perilously near duplicating the exploits of Lafite and Captain Kidd," said E. R. Birdwell, of San Francisco.
